The CSSF is responsible for supervising FundRock Management Company S.A. in relation to this Key Information Document.

This key information document was produced on 1 January 2023.

What is this product?

Type

This product is a UCITS Fund.

Term

This product is an open-ended fund and has no maturity date. However, Artemis reserves the right to close the product should there be a business case to do so.

Objectives

The fund aims to increase the value of shareholders' investments primarily through capital growth by investing in companies which meet the Investment Manager's criteria for positive environmental and/or social impact.

The fund has a sustainable investment objective as provided by Article 9 of SFDR.

Investment policy:

- The fund invests principally (at least 80% of its net assets) in equities of companies selected on a global basis, with no restriction on economic or geographic areas (including emerging markets).
- Shares in the following types of companies are automatically excluded:
 - Alcohol: companies which derive more than 5% revenue from alcohol;
 - Tobacco: companies which derive more than 5% revenue from tobacco;
 - Weapons: companies which produce or sell civilian firearms and/or manufacture or sell armaments, nuclear weapons or associated strategic products;
 - Nuclear power: companies which mine uranium, own or operate nuclear power stations, generate nuclear power, or which supply key nuclear-specific products and services;
 - Gambling: companies which derive more than 5% of revenue from gambling;
 - Animal testing: companies that engage in the production and sale of animal tested cosmetics;
 - Adult entertainment: companies which own an adult entertainment company or produce adult entertainment;
 - Genetic modification: companies involved in the uncontrolled release of genetically-engineered organisms into the environment;
 - Fossil fuels: companies which:
 - o own oil and gas reserves; or
 - o engage in conventional or unconventional oil and gas production and processing; or
 - o own thermal coal reserves, mine thermal coal or derive more than 10% revenue from thermal coal-based electricity generation.
 - Biodiversity and land use: Companies that the Investment Manager determines to be implicated in severe controversies related to the company's use or management of natural resources; and
 - Companies that the Investment Manager determines to be in breach of the United Nations Global Compact principles on human rights, labour rights, the environment and anti-corruption.
- The fund is actively managed and will be concentrated, typically investing in 35-45 companies at any time. A research-driven stock selection process is used to identify innovative companies whose products and services the Investment Manager believes are disrupting established industries by offering a positive environmental and/or social impact.
- The Investment Manager believes that companies which have a combination of disruptive positive impact, favourable strategic positioning, an emerging competitive advantage and improving operational quality are more likely to deliver significant economic returns for their shareholders. These companies are also typically growing faster than the market.
- Assessment and measurement of a company's ability to deliver positive environmental and/or social impact and generate financial returns will be conducted at a company level. When considering the positive impact of and environmental, social and governance (ESG) risks of each company, the Investment Manager analyses the impact of:

- the products and services it provides;
- its operational practices and standards; and
- its future positive impact or capacity for improvement.
- The Investment Manager is driven predominantly by a qualitative approach to research and stock selection but also utilises quantitative screening and third-party research, including ESG screens.
- Engagement forms an important part of the Investment Manager's investment process. The Investment Manager expects that investee companies should set ambitious goals and seek to continuously improve. Engagement allows the Investment Manager to identify and monitor the progressive management philosophy they seek at investee companies. If it is the Investment Manager's opinion that an investee company no longer meets the required investment criteria or is not making sufficient progress on improving its operational performance, the fund will not make any further investments in the company and will seek to realise its investment in an orderly fashion.
- The Investment Manager will report, on at least an annual basis, on the environmental and/or social impact of the companies in which the fund invests, consistent with the stated strategy, using both qualitative and quantitative assessments. The report will also provide details of the Investment Manager's stewardship activities.
- The Investment Manager is not constrained by the results of the qualitative approach to research and stock selection or quantitative screening. Further information about the ESG criteria applied is available on the following website: www.artemisfunds.com.
- More information about the environmental or social objectives for this fund is available in the pre-contractual disclosure for financial products referred to in Article 9 under SFDR in the fund's prospectus.
- At times the fund may invest in ADRs, GDRs and participatory notes. Participatory notes would be used to access markets where direct access to purchase equities may be difficult. Their use is not intended to create leverage. Investments in participatory notes shall not exceed 10% of the fund's Net Asset Value.
- The fund may invest up to 10% of its Net Asset Value in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect.
- The fund may use derivatives and other techniques for hedging and for efficient portfolio management. The fund's derivatives may include, but are not limited to, futures and forward currency contracts.
- Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may also hold ancillary liquid assets for treasury purposes.
- Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may invest in bank deposits, money market instruments and money market funds in order to achieve its investment goals, for treasury purposes and in case of unfavourable market conditions. Higher levels of investments in bank deposits, money market instruments or money market funds may be held in periods of elevated equity market valuations to reduce risk.
- The fund may invest up to 10% of its Net Asset Value in UCITS and/or other UCIs.

Benchmark: (MSCI AC World Index)

The benchmark is a point of reference against which the performance of the fund may be measured. Management of the fund is not restricted by this benchmark. The deviation from the benchmark may be significant and the portfolio of the fund may at times bear little or no resemblance to its benchmark. The benchmark does not take into account the sustainable objective pursued by the fund.

Intended retail investor

This product is intended for investors who are willing to invest for a long term and who plan to stay invested for at least 5 years. Investors should be prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return.

What are the risks and what could I get in return?

Risk

Risk & Performance data as at end August 2022.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level and poor market conditions could impact the value of your investment.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the Annual Report or product's Prospectus available at www.artemisfunds.com/literature.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor.

The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of Artemis Funds (Lux) – Positive Future Class FB accumulation shares, EUR, over the last 10 years. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

Recommended Holding Period: 5 years			
Investment: EUR 10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Minimum: There is no minimum guaranteed return if you exit before 5 years			
Stress	What you might get back after costs Average return each year	3,010 EUR -69.93%	1,850 EUR -28.63%
Unfavourable¹	What you might get back after costs Average return each year	5,930 EUR -40.66%	6,740 EUR -7.59%
Moderate²	What you might get back after costs Average return each year	11,340 EUR 13.36%	17,020 EUR 11.23%
Favourable³	What you might get back after costs Average return each year	14,210 EUR 42.07%	21,620 EUR 16.68%

¹ This type of scenario occurred for an investment between February 2021 and August 2022.

² This type of scenario occurred for an investment between July 2014 and July 2019.

³ This type of scenario occurred for an investment between February 2016 and February 2021.

What happens if FundRock Management Company S.A. is unable to pay out?

You may face a financial loss should the manufacturer or depository, J.P. Morgan SE, Luxembourg branch, default on their obligations.

There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is EUR 10,000.

Investment: EUR 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	83 EUR	660 EUR
Annual cost impact (*)	0.8%	0.9%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.1% before costs and 11.2% after costs.

Costs data as at end June 2022.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 EUR
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 EUR
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	0.6% of the value of your investment per year. This is an estimate based on actual costs over the last year.	55 EUR
Transaction costs	0.3% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	28 EUR
Incidental costs taken under specific conditions		If you exit after 1 year
Performance fees	There is no performance fee for this product.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The fund is designed to be held over the long term and we recommend that you hold this investment for at least 5 years.

You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the sub-fund on any business day (as set out in the fund's prospectus).

If you cash in at an early stage this will increase the risk of lower investment returns or a loss.

How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person advising on the product, complaints can be lodged via the following methods:

- i. Phone: 0800 092 2051 (from UK) or +44 1268 445 401 (from outside UK)
- ii. E-mail: investorsupport@artemisfunds.com
- iii. Mail: Client Services, Artemis Funds (Lux), Cassini House, 57 St James's Street, London, SW1A 1LD.
