## What is this product?

### Type

This product is a UCITS Fund.

### Term

This product is an open-ended fund and has no maturity date. However, Artemis reserves the right to close the product should there be a business case to do so.

### Objectives

To increase the value of shareholders' investments primarily through capital growth.

#### Investment policy:

- The fund is actively managed.
- The fund invests principally in equities of companies that are listed, headquartered or that exercise the predominant part of their economic activities in the USA.
- Shares in the following types of companies (held either directly or indirectly via derivatives) are automatically excluded:
  - Tobacco: companies which derive more than 5% revenue from tobacco production;
  - Weapons: companies:
    - involved in the production of controversial weapons (including cluster munitions, landmines, biological and chemical weapons); or
    - which derive more than 10% revenue from conventional or nuclear weapons, related components and systems; or
    - which derive more than 10% revenue from manufacture or sale of civilian firearms or ammunition;
  - Coal: companies which derive more than 5% revenue from mining or sale of thermal coal;
  - Companies that the Investment Manager determines to be in breach of the United Nations Global Compact principles on human rights, labour rights, the environment and anti-corruption.
- The fund promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. The Investment Manager seeks to decrease the fund's exposure to climate risk and benefit from the opportunities associated with the transition to a net-zero emissions economy through investing in companies which are actively managing their carbon exposure and setting meaningful targets.

Further information is contained in a methodology statement available on the Artemis website at [www.artemisfunds.com/methodology-statement](http://www.artemisfunds.com/methodology-statement).

- The evaluation of environmental, social and governance factors is determined by the Investment Manager using information provided by the companies (for example company sustainability reports) and third-party data, focusing on scores and metrics which that the Investment Manager considers to be relevant.
- More information about the environmental or social characteristics for this fund is available in the pre-contractual disclosure for financial products referred to in Article 8 under SFDR in the fund's prospectus.
- It is expected that the portfolio of the fund will be invested in the equities of between 35 and 65 companies.
- The fund may use derivatives and other techniques for hedging and for efficient portfolio management. The fund's derivatives may include, but are not limited to, futures and forward currency contracts.
- Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may also hold ancillary liquid assets for treasury purposes.
- Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may invest in bank deposits, money market instruments and money market funds in order to achieve its investment goals, for treasury purposes and in case of unfavourable market conditions.

#### Benchmark: (S&P 500 TR)

The benchmark is a point of reference against which the performance of the fund may be measured. Management of the fund is not restricted by this benchmark. The deviation from the benchmark may be significant and the portfolio of the fund may at times bear little or no resemblance to its benchmark.

The benchmark does not take into account environmental and/or social characteristics promoted by the fund.

### Intended retail investor

This product is intended for investors who are willing to invest for a long term and who plan to stay invested for at least 5 years. Investors should be prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return.

## What are the risks and what could I get in return?

### Risk

Risk & Performance data as at end August 2022.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level and poor market conditions could impact the value of your investment.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the Annual Report or product's Prospectus available at [www.artemisfunds.com/literature](http://www.artemisfunds.com/literature).

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor.

The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of Artemis Funds (Lux) – US Select Class A accumulation shares, EUR hedged, over the last 10 years. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

Recommended Holding Period: 5 years			
Investment: EUR 10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Minimum: There is no minimum guaranteed return if you exit before 5 years

<b>Favourable<sup>3</sup></b>	<b>What you might get back after costs</b> Average return each year	<b>14,940 EUR</b> 49.35%	<b>22,210 EUR</b> 17.30%

<sup>1</sup> This type of scenario occurred for an investment between August 2021 and August 2022.

<sup>2</sup> This type of scenario occurred for an investment between September 2013 and September 2018.

<sup>3</sup> This type of scenario occurred for an investment between October 2016 and October 2021.

## What happens if FundRock Management Company S.A. is unable to pay out?

You may face a financial loss should the manufacturer or depository, J.P. Morgan SE, Luxembourg branch, default on their obligations.

There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is EUR 10,000.

Investment: EUR 10,000	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	231 EUR	1,815 EUR
<b>Annual cost impact (*)</b>	2.3%	2.4%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 14.1% before costs and 11.6% after costs.

Costs data as at end June 2022.

<b>Performance fees</b>	There is no performance fee for this product.	0 EUR

## How long should I hold it and can I take money out early?

#### Recommended holding period: 5 years

The fund is designed to be held over the long term and we recommend that you hold this investment for at least 5 years.

You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the sub-fund on any business day (as set out in the fund's prospectus).

If you cash in at an early stage this will increase the risk of lower investment returns or a loss.

## How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person advising on the product, complaints can be lodged via the following methods:

- i. Phone: 0800 092 2051 (from UK) or +44 1268 445 401 (from outside UK)
- ii. E-mail: [investorsupport@artemisfunds.com](mailto:investorsupport@artemisfunds.com)

<b>Total costs</b>	152 EUR	1,412 EUR
<b>Annual cost impact (*)</b>	1.5%	1.6%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 17.1% before costs and 15.4% after costs.

Costs data as at end June 2022.

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years

The fund is designed to be held over the long term and we recommend that you hold this investment for at least 5 years.

You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the sub-fund on any business day (as set out in the fund's prospectus).

If you cash in at an early stage this will increase the risk of lower investment returns or a loss.

## How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person advising on the product, complaints can be lodged via the following methods:

## What is this product?

### Type

This product is a UCITS Fund.

### Term

This product is an open-ended fund and has no maturity date. However, Artemis reserves the right to close the product should there be a business case to do so.

### Objectives

To increase the value of shareholders' investments primarily through capital growth.

#### Investment policy:

- The fund is actively managed.
- The fund invests principally in equities of companies that are listed, headquartered or that exercise the predominant part of their economic activities in the USA.
- Shares in the following types of companies (held either directly or indirectly via derivatives) are automatically excluded:
  - Tobacco: companies which derive more than 5% revenue from tobacco production;
  - Weapons: companies:
    - involved in the production of controversial weapons (including cluster munitions, landmines, biological and chemical weapons); or
    - which derive more than 10% revenue from conventional or nuclear weapons, related components and systems; or
    - which derive more than 10% revenue from manufacture or sale of civilian firearms or ammunition;
  - Coal: companies which derive more than 5% revenue from mining or sale of thermal coal;
  - Companies that the Investment Manager determines to be in breach of the United Nations Global Compact principles on human rights, labour rights, the environment and anti-corruption.
- The fund promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. The Investment Manager seeks to decrease the fund's exposure to climate risk and benefit from the opportunities associated with the transition to a net-zero emissions economy through investing in companies which are actively managing their carbon exposure and setting meaningful targets.

Further information is contained in a methodology statement available on the Artemis website at [www.artemisfunds.com/methodology-statement](http://www.artemisfunds.com/methodology-statement).

- The evaluation of environmental, social and governance factors is determined by the Investment Manager using information provided by the companies (for example company sustainability reports) and third-party data, focusing on scores and metrics which that the Investment Manager considers to be relevant.
- More information about the environmental or social characteristics for this fund is available in the pre-contractual disclosure for financial products referred to in Article 8 under SFDR in the fund's prospectus.
- It is expected that the portfolio of the fund will be invested in the equities of between 35 and 65 companies.
- The fund may use derivatives and other techniques for hedging and for efficient portfolio management. The fund's derivatives may include, but are not limited to, futures and forward currency contracts.
- Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may also hold ancillary liquid assets for treasury purposes.
- Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may invest in bank deposits, money market instruments and money market funds in order to achieve its investment goals, for treasury purposes and in case of unfavourable market conditions.

#### Benchmark: (S&P 500 TR)

The benchmark is a point of reference against which the performance of the fund may be measured. Management of the fund is not restricted by this benchmark. The deviation from the benchmark may be significant and the portfolio of the fund may at times bear little or no resemblance to its benchmark.

The benchmark does not take into account environmental and/or social characteristics promoted by the fund.

### Intended retail investor

This product is intended for investors who are willing to invest for a long term and who plan to stay invested for at least 5 years. Investors should be prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return.

## What are the risks and what could I get in return?

### Risk

Risk & Performance data as at end August 2022.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level and poor market conditions could impact the value of your investment.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the Annual Report or product's Prospectus available at [www.artemisfunds.com/literature](http://www.artemisfunds.com/literature).

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor.

The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of Artemis Funds (Lux) – US Select Class B accumulation shares, USD, over the last 10 years. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

## What happens if FundRock Management Company S.A. is unable to pay out?

You may face a financial loss should the manufacturer or depository, J.P. Morgan SE, Luxembourg branch, default on their obligations.

There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is USD 10,000.

The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of Artemis Funds (Lux) – US Select Class I accumulation shares, EUR, over the last 10 years. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

Recommended Holding Period: 5 years

## What happens if FundRock Management Company S.A. is unable to pay out?

You may face a financial loss should the manufacturer or depository, J.P. Morgan SE, Luxembourg branch, default on their obligations.

There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is EUR 10,000.

Investment: EUR 10,000	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	148 EUR	1,368 EUR
<b>Annual cost impact (*)</b>	1.5%	1.6%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 16.9% before costs and 15.3% after costs.

Costs data as at end June 2022.

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years

The fund is designed to be held over the long term and we recommend that you hold this investment for at least 5 years.

You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the sub-fund on any business day (as set out in the fund's prospectus).

If you cash in at an early stage this will increase the risk of lower investment returns or a loss.

## How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person advising on the product, complaints can be lodged via the following methods:

## What is this product?

### Type

This product is a UCITS Fund.

### Term

This product is an open-ended fund and has no maturity date. However, Artemis reserves the right to close the product should there be a business case to do so.

### Objectives

To increase the value of shareholders' investments primarily through capital growth.

#### Investment policy:

- The fund is actively managed.
- The fund invests principally in equities of companies that are listed, headquartered or that exercise the predominant part of their economic activities in the USA.
- Shares in the following types of companies (held either directly or indirectly via derivatives) are automatically excluded:
  - Tobacco: companies which derive more than 5% revenue from tobacco production;
  - Weapons: companies:
    - involved in the production of controversial weapons (including cluster munitions, landmines, biological and chemical weapons); or
    - which derive more than 10% revenue from conventional or nuclear weapons, related components and systems; or
    - which derive more than 10% revenue from manufacture or sale of civilian firearms or ammunition;
  - Coal: companies which derive more than 5% revenue from mining or sale of thermal coal;
  - Companies that the Investment Manager determines to be in breach of the United Nations Global Compact principles on human rights, labour rights, the environment and anti-corruption.
- The fund promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. The Investment Manager seeks to decrease the fund's exposure to climate risk and benefit from the opportunities associated with the transition to a net-zero emissions economy through investing in companies which are actively managing their carbon exposure and setting meaningful targets.

Further information is contained in a methodology statement available on the Artemis website at [www.artemisfunds.com/methodology-statement](http://www.artemisfunds.com/methodology-statement).

- The evaluation of environmental, social and governance factors is determined by the Investment Manager using information provided by the companies (for example company sustainability reports) and third-party data, focusing on scores and metrics which that the Investment Manager considers to be relevant.
- More information about the environmental or social characteristics for this fund is available in the pre-contractual disclosure for financial products referred to in Article 8 under SFDR in the fund's prospectus.
- It is expected that the portfolio of the fund will be invested in the equities of between 35 and 65 companies.
- The fund may use derivatives and other techniques for hedging and for efficient portfolio management. The fund's derivatives may include, but are not limited to, futures and forward currency contracts.
- Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may also hold ancillary liquid assets for treasury purposes.
- Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may invest in bank deposits, money market instruments and money market funds in order to achieve its investment goals, for treasury purposes and in case of unfavourable market conditions.

#### Benchmark: (S&P 500 TR)

The benchmark is a point of reference against which the performance of the fund may be measured. Management of the fund is not restricted by this benchmark. The deviation from the benchmark may be significant and the portfolio of the fund may at times bear little or no resemblance to its benchmark.

The benchmark does not take into account environmental and/or social characteristics promoted by the fund.

### Intended retail investor

This product is intended for investors who are willing to invest for a long term and who plan to stay invested for at least 5 years. Investors should be prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return.

## What are the risks and what could I get in return?

### Risk

Risk & Performance data as at end August 2022.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level and poor market conditions could impact the value of your investment.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the Annual Report or product's Prospectus available at [www.artemisfunds.com/literature](http://www.artemisfunds.com/literature).

This product does not include any protection from future market performance so you could lose some or all of your investment.

### Intended retail investor

This product is intended for investors who are willing to invest for a long term and who plan to stay invested for at least 5 years. Investors should be prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return.

## What are the risks and what could I get in return?

### Risk

Risk & Performance data as at end August 2022.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level and poor market conditions could impact the value of your investment.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the Annual Report or product's Prospectus available at [www.artemisfunds.com/literature](http://www.artemisfunds.com/literature).

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor.

The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of Artemis Funds (Lux) – US Select Class I accumulation shares, USD, over the last 10 years. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

## What happens if FundRock Management Company S.A. is unable to pay out?

You may face a financial loss should the manufacturer or depository, J.P. Morgan SE, Luxembourg branch, default on their obligations.

There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is USD 10,000.

Investment: USD 10,000	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	148 USD	1,291 USD
<b>Annual cost impact (*)</b>	1.5%	1.6%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 15.4% before costs and 13.8% after costs.

Costs data as at end June 2022.

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years

The fund is designed to be held over the long term and we recommend that you hold this investment for at least 5 years.

You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the sub-fund on any business day (as set out in the fund's prospectus).

If you cash in at an early stage this will increase the risk of lower investment returns or a loss.

## How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person advising on the product, complaints can be lodged via the following methods:
