

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Class 1 (SEK) capitalisation

CARNEGIE Fonder Portfolio - CARNEGIE High Yield Select

Management Company: FundRock Management Company S.A.
LU1627771733

Objectives and investment policy

The sub-fund aims to generate a long-term capital growth by primarily investing in a diversified portfolio of interest bearing instruments (fixed income) mainly composed of High Yield Bonds and Floating Rate Note instruments of Nordic Corporate Bonds.

In order to achieve its objective, the sub-fund invests in fixed income securities of companies having a higher credit risk and predominantly domiciled or operating in the Nordic Markets (i.e. Sweden, Denmark, Norway, Finland and Iceland).

The sub-fund may invest up to 50% of its assets in listed regulated companies in EU or OECD countries.

The sub-fund may invest in Investment Grade Income instruments.

The sub-fund may also invest in shares and similar instruments and/or holds company shares as a result of transactions involving securities or the conversion of convertible bonds.

The sub-fund may also invest up to 20% of its assets in Contingent Convertible Bonds (Coco's) and up to 10% of its assets in Asset-Backed Securities and Mortgage-Backed Securities (ABS' or MBS').

The sub-fund may use financial derivatives instruments (i.e. FX Spot, FX Forwards or Basis Swaps) to hedge against unfavourable Foreign Exchange, Interest Rate and Credit risks.

From time to time, the sub-fund may invest a substantial portion of its portfolio in cash or cash related instruments.

The sub-fund qualifies as an Article 8 product under SFDR (Sustainable Finance Disclosure Regulation) since its investment policy promotes environment, social, and governance characteristics ("ESG Goals"). The Investment Manager integrates these characteristics into its investment strategy to better manage risk and generate sustainable long-term returns. Further disclosures that describes the specific risks of investing in this sub-fund and investment strategies that are utilized by the Investment Manager to promote the sustainability characteristics are outlined in the prospectus or can be found on <https://www.carnegiefonder.se/>.

The sub-fund is actively managed and the investment objectives, strategy and marketing do not refer to a benchmark. However the sub-fund is managed in reference to a benchmark to calculate the performance fee as further detailed in the Charges section.

The currency of the share class is SEK.

Under normal circumstances, you may sell your shares any day on which banks are open for business both in Luxembourg and Sweden.

These shares are capitalisation shares. Income and capital gains are reinvested.

Recommendation

This sub-fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

What does this synthetic risk and reward indicator mean?

- The shares of Class 1 (SEK) capitalisation are classified in category 4 because the value of the share may be subject to medium variations and consequently the risk of loss and the opportunity of gain may be moderate.
- The risk category for this share class was calculated using simulated and historical data. The risk category may not be a reliable indicator of the share class's future risk profile. The risk category shown is not guaranteed and may change over time.
- The seven-category scale is complex, for example 2 is not twice as risky as 1. The gap between 1 and 2 might not be the same as the gap between 5 and 6. A category 1 sub-fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited.

Which materially relevant risks are not adequately captured by the synthetic risk and reward indicator?

- Liquidity risk: The risk that part or parts of the fund's assets cannot be disposed of at the relevant price at a given time. The liquidity risk differs between different types of instrument. For example, the liquidity risk for corporate bonds is normally higher than for shares. If the liquidity of an instrument is low, it may result in the fund being unable to dispose of its holdings, with the result that the redemption request cannot be executed according to the normal schedule. In extraordinary circumstances, if the liquidity of the fund's holdings is so deficient that it cannot be traded or it is not possible to value the fund's assets properly, valuation of a fund may be postponed.

- Currency risk: the sub-fund may hold some of its investments in currencies other than the sub-fund's reference currency. Thus the value of the sub-fund may rise and fall due to currency movements.
- The sub-fund may use derivatives. Due to their structure, the risk associated with these investment instruments may have a larger impact on the value of the sub-fund, than buying the underlying stock or investment instrument directly.
- Counterparty risk: the risk that a counterpart does not fulfill its obligations to the sub-fund (e.g. not paying an agreed amount or not delivering securities as agreed).
- Operational risk: the risk of loss resulting from e.g. system breakdowns, human errors or from external events.
- Credit risk: the sub-fund invests directly or indirectly in interest bearing instruments, for example bonds. If an issuer of such an instrument cannot pay interest or the nominal amount at maturity, the investment can lose some or all of its value.
- The country focus strategy employed by this Fund may lead to higher risk and volatility than a more diversified approach.
- Sustainability risk: The broad ESG Goals of this sub-fund may lead the Investment Manager to invest in or exclude securities for non-financial reasons, irrespective of market opportunities in order to achieve the stated ESG Goals. The financial returns of this sub-fund may not be equivalent or surpass those of non-ESG financial products. Data constraint is a big challenge and there are limitations on the types of sustainability and ESG-related data currently provided to the market.

How can I get more information about the risks of the sub-fund?

Additional information concerning the risks of investment is indicated in the corresponding sections of the prospectus of the fund.

Charges

The charges you pay are used to cover the running costs of the sub-fund, including the costs of marketing and distribution of shares. These charges reduce the potential increase in value of an investment in this sub-fund.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charge	0.65%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	20% a year of any returns the fund achieves above the benchmark for these fees, the STIBOR 90 days + 2%. Performance fee invoiced for the share class for the most recent business year: 1.50%.
-----------------	---

The entry and exit charges shown correspond to a maximum percentage which might be deducted from your capital invested into the sub-fund. In some cases you might pay less. You may contact your financial advisor or intermediary to be informed on the actual entry and exit charges.

The conversion of some or all of the shares into shares of another sub-fund or another share class is free of charge.

The ongoing charges relate to the annual charges; they were calculated on 31.12.2021. The ongoing charges may vary from year to year.

The figure of the ongoing charges excludes:

- Performance fee
- Securities transaction charges, except for the charges related to the purchase and the sale of target funds.

For further information concerning charges, please consult the heading "Expenses" of the fund's prospectus.

Additional information concerning the performance fee is also available in the prospectus.

Performance fees may be charged even where the investment has suffered losses.

Past performance

All charges and fees, except for the entry and exit charges, were taken into account.

The past performance is calculated in SEK.

Past performance is not a reliable indicator of future results.

This sub-fund was launched in 2017 and the share class in 2019.
