The accrued Performance Fee is crystallised over the financial year and paid to the Investment Manager annually in arrears at the end of the year. Any Performance Fee calculated on redemption proceeds is crystallised daily and paid annually in arrears. The performance fee calculation is adjusted when there are subscriptions, to avoid any artificial performance fee.

At the date of the financial statements, a performance fee was due for the following Sub-Funds and amounted to:

Sub-Fund	Share class	Performance fee amount in Sub-Fund currency	Performance fee ratio in % of average total net assets

Note 5 - Management fees retrocessions

Management fees retrocessions received by the Company and related to its investments in UCITS or other UCIs are disclosed under the "Other commissions received" in the statement of operations and other changes in net assets.

Note 6 - Depositary fees

The remuneration for depositary services are included in the item "Depositary fees" disclosed in the statement of operations and other changes in net assets.

Note 7 - Subscription duty ("Taxe d'abonnement")

The Company is governed by Luxembourg law.

Pursuant to the legislation and regulations which are prevailing, the Company is subject to an annual subscription duty ("taxe d'abonnement") of 0.05% which is payable quarterly and calculated on the basis of the net assets of each Sub-Fund on the last day of each quarter.

According to Article 175 (a) of the amended law of 17th December 2010 the net assets invested in Undertakings for Collective Investments already subject to the "taxe d'abonnement" are exempt from this tax.

Note 8 - Swing Pricing

Notes to the financial statements (continued)

as at 30th June 2022

The Net Asset Value may be adjusted by a swing pricing mechanism as the Board of Directors may deem appropriate, based on the prevailing market conditions and the level of subscriptions or redemptions requested by shareholders or potential shareholders in relation to the size of the relevant portfolio, to reflect inter alia any dealing charges, including any dealing spreads, fiscal charges and potential market impact resulting from the shareholder transactions, when the total capital activity (aggregate of inflows and outflows) at a Sub-Fund level exceeds a predetermined threshold, as determined as a percentage of the net assets of that Sub-Fund for the Valuation Day (the "Swing Pricing").

Notes to the financial statements (continued)

as at 30th June 2022

Sub-Funds can operate a full swing pricing mechanism where the threshold is set to zero or a partial swing pricing mechanism where the threshold is greater than zero. Such adjustment can vary over time but will not exceed 2% of the applicable Net Asset Value (the "Swing Factor").

At the date of the financial statements, no Swing Pricing was applied to the Net Asset Value for the Sub-Funds.
