WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

 The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Investors shall note that besides the risks included in the risk indicator, other risks such as Liquidity, Counterparty, Currency, Risk associated with investing in emerging markets, Risk linked to use of derivative instruments may affect the Fund's performance.

This product does not include any protection from future market performance so you could lose some or all of your investment. If not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period (RHP): 5 years Example investment: 10,000 USD			
Scenarios		If you exit after 1 year	If you exit after 5 years (RHP)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	2,044 USD	1,518 USD
	Average return each year	-79.56%	-31.41%
Unfavourable	What you might get back after costs	5,291 USD	5,213 USD
	Average return each year	-47.09%	-12.22%
Moderate	What you might get back after costs	10,466 USD	14,259 USD
	Average return each year	4.66%	7.35%
Favourable	What you might get back after costs	15,867 USD	25,105 USD
	Average return each year	58.67%	20.21%

Unfavourable scenario: This type of scenario occurred for an investment between January 2021 and December 2022.

Moderate scenario: This type of scenario occurred for an investment between January 2017 and January 2022.

Favourable scenario: This type of scenario occurred for an investment between February 2016 and February 2021.

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

WHAT HAPPENS IF FUNDROCK MANAGEMENT COMPANY S.A. IS UNABLE TO PAY OUT ?

The Management Company is responsible for administration and management of the Fund, and does not typically hold assets of the Fund (assets that can be held by a depository are, in line with applicable regulations, held with a depository in its custody network). The Management Company, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Fund or the depository is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables below show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10,000 USD is invested

Example investment: 10,000 USD	If you exit after 1 year	If you exit after 5 years (RHP)
Total costs	502 USD	1,829 USD
Annual cost impact(*)	5.02%	2.62%

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.98% before costs and 7.35% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3% of the amount you pay in when entering this investment	300 USD
Exit costs	We do not charge an exit fee for this product	0 USD
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.2% of the value of your investment per year. This is an estimate based on actual costs over the last year	122 USD
Transaction costs	0.78% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	79 USD
Incidental costs taken under specific conditions		
Performance fees and carried interest	There is no performance fee for this product	0 USD

This illustrates costs in relation to the notional value of the PRIIP.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

The recommended minimum holding period: 5 years.

However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible on each full bank business day in Luxembourg and in the Hong Kong S.A.R.. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

HOW CAN I COMPLAIN?

OTHER RELEVANT INFORMATION

Conversion right: Within the Fund, Class A, Class B, Class C, and Class R (excluding Class I) can be converted between each other, provided that the conditions to subscribe and hold the Class of Shares in which the relevant Shares are contemplated to be converted are met, whereas Class I shall remain reserved to institutional investors. Regarding conversion between sub-funds, Class A, Class B, Class C, Class I, or Class R Shares of the Fund can be converted into the corresponding Class, if available, of another sub-fund of the Company.

Segregation: ChinaAMC Fund is an umbrella fund offering several sub-funds whose assets and liabilities are legally segregated between each other.

Additional information: Copies of the latest prospectus, annual report, semi-annual report (all available in English), and the latest Net Asset Value per Share, are available free of charge at the registered office of ChinaAMC Fund, 80, route d'Esch, L-1470 Luxembourg and/or on the following website <http://sicav.chinaamc.com/index.html>.

Past performance and previous performance scenarios: The cost, performance and risk calculations included in this key information document follow the methodology prescribed by EU rules. Note that the performance scenarios calculated above are derived exclusively from the past performance of the Fund's share price and that past performance is not a guide to future returns. Therefore, your investment may be at risk and you may not get back the returns illustrated. Investors should not base their investment decisions solely upon the scenarios shown.

Information about past performance and performance scenario calculations is available on <http://sicav.chinaamc.com/index.html>.

Any past performance data presented will be for up to 10 calendar years from the date of the launch of a share class. No performance data will be presented for a share class that does not yet have performance data for one complete calendar year as there would be insufficient data to provide a useful indication of past performance to retail investors.
