What is this product?

Type

The Fund is a sub-fund of Davis Funds SICAV, an investment company with variable share capital (SICAV) organized as a collective investment undertaking governed by Luxembourg law. The Fund qualifies as a European Undertaking Collective Investment in Transferable Securities (UCITS). The assets of the Fund are held in safekeeping by its depositary, State Street Bank International GmbH, Luxembourg Branch (the “Depositary”).

Term

The Fund does not have a termination date.

Objectives

- The Fund’s investment objective is long-term growth of capital. There can be no guarantee that this objective will be achieved.
- The Fund pursues an actively managed investment strategy and invests primarily in the securities of companies around the globe.
- The Fund may invest in companies of any size.
- The Fund is managed using the Davis Investment Discipline, which seeks to invest in businesses that are trading at a discount to their intrinsic worth. It is a flexible opportunistic approach, which utilizes a bottom-up stock selection process and does not mirror any benchmark.
- The assets of the Fund are managed to seek growth of capital and will not earn significant current income. Accordingly, no dividend distributions are expected to be paid.

Intended Retail Investors

The Fund is particularly suitable for investors seeking long-term capital growth.

Insurance Benefits

The Fund does not offer any insurance benefits.

What are the risks and what could I get in return?

Risk Indicator (SRI Indicator)

Lower Risk

Higher Risk

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The risk indicator assumes you keep the product for at least 3 years.
- The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The risk category shown is not a guarantee and it may shift over time. The lowest category does not mean risk free.
- The fund is set at 5 because (a) the equity investments are volatile and an investor may lose money and (b) the volatility can be

influenced by multiple factors that are unpredictable, such as global economic and political events as well as company performance.

- This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.
- You do not bear the risk of incurring additional financial commitments or obligations.
- **Be aware of currency risk. The currency of this share class may be different from that of your country. As you may receive payments in the currency of this share class and not that of your country, the final return will depend on the exchange rate between these two currencies. This risk is not considered in the indicator shown above.**
- The insolvency of certain institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments may expose the Fund to financial loss.

What happens if FundRock Management Company S.A. is unable to pay out?

The Management Company is responsible for administration and management of the Fund, and does not typically hold assets of the Fund. In the event of insolvency of the Investment Manager, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, the risk is mitigated to a certain extent by the fact that the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud, or intentional failure properly to fulfil its obligations (subject to certain limitations). However, investors may suffer loss if the Fund or the Depositary is unable to pay out. There is no compensation or guarantee scheme in place, which may offset, all or any, of this loss.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario. USD \$10,000 is invested.

	If you exit after 1 year	If you exit after 3 years (Minimum recommended holding period)
Total costs (USD)	\$114	\$377
Annual cost impact (*)	1.14%	1.26%

(*) “This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the minimum recommended holding period, your average return per year is projected to be 8.01% before costs and 6.75% after costs.

Presentation of cost

- The amounts shown here are the cumulative costs of the product itself, for one holding period.

Composition of costs

One-off costs upon entry or exit	Description of Cost	%
Entry Cost	Initial Sales Charge	NA
Exit Cost	NA	NA
Ongoing Costs Taken each year

Transaction costs	This figure is an estimate of the cost which occurs during the purchase and sale of underlying assets of the product. The actual cost depends on how much we purchase and sell.	0.03%
Incidental Costs		
Performance Fees	NA	NA

This table shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meanings of the different cost categories.

How long should I hold it and can I take my money out early?

Recommended holding period: at least 3 years

This Fund may not be appropriate for investors who plan to withdraw their money within three years, however the Fund cannot guarantee a profit regardless of the holding period. The Fund is designed for investors with a long-term investment horizon. A shareholder may redeem part or all of his/her/its shares on any Business Day. A Business Day means any day, other than a Saturday, Sunday, or legal holiday in Luxembourg, during which both the banking institutions in Luxembourg and the financial markets in the United States are open for business.
