General information

IKC FUND (the "Fund") is an umbrella contractual common investment fund ("Fonds Commun de Placement") governed by Part I of the amended Luxembourg law of 17th December 2010 relating to Undertakings for Collective Investment. The Fund is set up in accordance with management regulations signed in Luxembourg with effect as of 12th June 2012 (the "Management Regulations"). The Directive 2014/91/EU of the European Parliament and of the Council of 23rd July 2014 amending the Directive 2009/65/EC had been transposed by the law of 10th May 2016 coming into force on 1st June 2016 and amending the amended law of 17th December 2010.

The Fund is registered with the Luxembourg Register of Commerce ("RCS") under the number K20. The Management Regulations have been deposited with the RCS. A notice of the deposit of the Management Regulations was published on 12th June 2012 in the "Mémorial, Recueil des Sociétés et Associations" (the "Mémorial C"). Publications made after 1st June 2016 are available on the new platform called "Recueil électronique des sociétés et associations ("RESA")" accessible through the website of the RCS.

The main objective of each Sub-Fund is to invest in transferable securities and other eligible assets with the purpose of spreading investment risks and achieving long-term capital growth.

At the date of the financial statements, the following Sub-Funds are offered to investors:

| IKC FUND - IKC WORLD WIDE OPPORTUNITIES | in SEK |
|---|---------|
| IKC FUND - Lux 0 - 50 | in SEK |
| IKC FUND - Lux 0 - 100 | in SEK. |

At the date of the financial statements, Class of Units IB SEK and IC SEK are available for subscription and are reserved to Institutional Investors.

The Net Asset Value of each Class of Units is calculated for as of each day on which banks are normally open for business in Luxembourg, except for 24th December in each year.

The Net Asset Value per Unit of each Class, as well as the Subscription Price and Redemption Price, may be obtained from the registered office of the Management Company and any newspaper the Management Company may determine from time to time.

The Fund's reporting period begins on 1st January and ends on 31st December of each year.

The audited annual reports and unaudited semi-annual reports comprise combined financial statements of the Fund expressed in SEK, being the reference currency of the Fund, and financial information on each Sub-Fund expressed in the reference currency of each Sub-Fund.

Copies of the Management Agreements, of the current prospectus, of the current KIID, of the latest reports of the Fund and all information concerning the Fund can be obtained free of charge at the office of the Management Company and the Placement and Distribution Agent.

Report on activities of the Investment Manager

A year of politics

2016 has been, above all, a year of political upheaval. Events such as the UK's decision to leave the EU (Brexit), the election of Donald Trump as US president, and Italy's rejection of constitutional reform all illustrate general dissatisfaction with the political environment.

Before the results of these three electoral events were available, the market consensus was that the respective election results would lead to a correction in the equity markets. The primary arguments were as follows: Brexit would have a negative impact on the already fragile EU growth rates by increasing uncertainty regarding the future of Europe; the election of Trump would decrease global growth by increasing uncertainty regarding future US policy and Trump's election promise to renegotiate existing trade agreements, and, finally, the Italian referendum would rekindle the euro crisis of 2011-2013 by spotlighting the fundamental political weakness of Europe. Despite the forecasts and discussions, the financial markets and the global economy proved to be highly resilient. The latter displayed such resiliency that growth forecasts for 2017 were revised higher following the US election and predictions about a restart of the business cycle emerged.

However, 2016 turned out to be a year where US equities closed at all-time high levels, nominal rates ended up at higher levels than at the beginning of the year, and the US Federal Reserve (the Fed) made an upwards revision, for the first time ever, of their official estimates for the next year's policy rates. Keep in mind that 2012 was the first time the Fed published these estimates. In general, 2016 was much more positive than expected. This is particularly true for market participants who from the beginning of the year believed in the likelihood of Brexit, Trump, and Italy's no to reform.

In the following paragraphs we present our view of global growth and monetary policy. We discuss the implications of a Trump presidency, and, finally, we present our outlook for the financial markets in 2017.

Global growth

The most notable development in terms of growth in 2016 was the uptick that materialised in Q4. This uptick was a stark contrast to the first three quarters of the year where growth had failed to gain momentum and the global economy appeared to be increasingly fragile. This upswing was so strong and broad-based in terms of geography and sectors, that growth forecasts for 2017 were revised higher. This has led the market to believe the business cycle will continue in a similar manner, keeping the next recession a few years away.

It is not easy to pinpoint the exact cause of the sudden revival of the global economy. It started to materialise in the months following Brexit and prior to the US election. One could even argue that the US election results have acted as a growth factor in terms of planned fiscal stimulus. Regardless of the exact cause of the global revival, the growth pattern followed that of a normal recovery: first we saw strength in the sentiment indicators for manufacturing companies; then this spread to non-manufacturing sectors. Finally, growth was also apparent in real production and consumption numbers. At the end of Q4 the US economy appeared to be growing by more than 2.5% (Atlanta Federal Reserve estimate); a figure last surpassed in 2014.

Although many of the positive surprises in terms of growth appeared in the US, it is important to note that the recovery was generally broad based across the globe. As such, we saw stronger data from both Europe and emerging markets. It is especially worth noting that emerging markets in Asia gained speed thanks to the global trade recovery which, for years, indicated a moderating trend. The fact that the recovery was so broad-based increased market confidence to the degree that the recovery would prove to be more stable than all the mini-recoveries since 2009.

Monetary policy

In contrast to the past five or six years, monetary policy declined in importance for the financial markets relative to the macro outlook. In other words, the financial markets were driven by expectations of growth to a higher extent than by future central bank action.

Despite this, we did see a range of notable developments in central bank policies over the year: The Fed hiked rates in December 2016 and forecasted a more aggressive rate-hike cycle than previously communicated.

The ECB surprised the markets by describing how their quantitative easing program would cut back on monthly purchases. Whether this acted positively or negatively on the markets can be debated, but it is clear that the Fed's intention for a steeper rate-hike cycle would have had a distinctly negative effect on financial markets just 6-12 months ago. However, because the Fed's message focused on stronger growth, not just higher inflation, the market ignored the information regarding steeper rate hikes. This more than any other factor signaled the shift in focus for the markets from monetary policy to growth expectations.

Going forward, we note that the current rate hike cycle in the US is unlike anything that we have seen in the past. This in itself makes it more difficult to draw any firm conclusions about the possible impact of higher US rates on the financial markets. With that said, it is important to note that the fiscal stimulus that is expected from the Trump presidency comes at a time when the US labour market already looks tight. This increases the risk for increasing inflationary pressures in the US and the possibility of the Fed reacting by being even more aggressive than originally communicated. We believe this is one of the main risks for 2017.

Trump

In our view, the positive market reaction to the US election results was a reaction to strong growth in the US economy rather than the prospect of a Trump presidency. Although fiscal stimulus looks set to increase US growth in the coming one to two years, it is important to note that the plans did not differ materially from Hillary Clinton's proposal. The difference is more in the composition of the stimulus than anything else.

We believe growth will be Trump's overriding focus. Consequently, growth reduction schemes, such as aggressive trade wars with China, will most likely be diluted in the coming quarters.

Audit Report

To the Unitholders of **IKC FUND**

We have audited the accompanying financial statements of IKC FUND and of each of its sub-funds, which comprise the statement of net assets and the statement of investments and other net assets as at 31st December 2016 and the statement of operations and other changes in net assets for the year then ended, and a summary of significant accounting policies and other explanatory notes to the financial statements.

Responsibility of the Board of Directors of the Management Company for the financial statements

The Board of Directors of the Management Company is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements and for such internal control as the Board of Directors of the Management Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the "Réviseur d'entreprises agréé"

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier". Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the judgment of the "Réviseur d'entreprises agréé", including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the "Réviseur d'entreprises agréé" considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the Management Company, as well as evaluating the overall presentation of the financial statements.

Audit Report (continued)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of IKC FUND and of each of its sub-funds as of 31st December 2016, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements.

Other information

The Board of Directors of the Management Company is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Notes to the financial statements

as at 31st December 2016

Note 1 - Significant accounting policies

a) Presentation of the financial statements

The financial statements of the Fund are established in accordance with the Luxembourg legal and regulatory requirements concerning Undertakings for Collective Investment.

The financial statements are presented on the basis of the Net Asset Values of the Sub-Funds calculated as at 31st December 2016. In accordance with the prospectus, the last official trading Net Asset Values of the corresponding Sub-Funds have been calculated as at 30th December 2016 as banks were closed for business in Stockholm and in Luxembourg on 31st December 2016. Nevertheless, additional Net Asset Values have been calculated as at 31st December 2016 for reporting purpose and are disclosed in these financial statements.

b) Valuation

- The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid, and not yet received shall be deemed to be the full amount thereof, unless, however, the same is unlikely to be paid or received in full, in which case the value thereof shall be determined after making such discount as the Management Company may consider appropriate in such case to reflect the true value thereof.
- 2) Securities listed on Regulated Markets, which operate regularly and are recognised and open to the public, are valued at the last available price; in the event that there should be several such markets, on the basis of the last available price of the main market for the relevant security. Should the last available price for a given security not truly reflect its fair market value, then that security shall be valued on the basis of the probable sales price which the Management Company deems it is prudent to assume.
- 3) Securities not listed on Regulated Markets, which operate regularly and are recognised and open to the public, are valued on the basis of their last available price. Should the last available price for a given security not truly reflect its fair market value, then that security will be valued by the Directors on the basis of the probable sales price which the Management Company deems it is prudent to assume.
- 4) The liquidating value of futures, forward and options contracts (or any other derivative instruments) not traded on Regulated Markets or stock exchanges shall mean their net liquidating value determined, pursuant to the policies established in good faith by the Board of Directors of the Management Company, on a basis consistently applied for each different variety of contracts. The liquidating value of futures, forward and options contracts (or any other derivative instruments) traded on Regulated Markets or stock exchanges is based upon the last available settlement prices of these contracts on Regulated Markets or stock exchanges on which the particular futures, forward or options contracts (or any other derivative instruments) are traded by the Fund; provided that if a futures, forward or options contract (or any other derivative instruments) could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract is such value as the Board of Directors of the Management Company may deem fair and reasonable.

Notes to the financial statements (continued)

as at 31st December 2016

- 5) Shares or units in underlying open-ended investment funds are valued at their last available price.
- 6) Liquid assets and money market instruments may be valued at nominal value plus any accrued interest or on an amortised cost basis. Securities valued at amortized cost are disclosed at cost value in the statement of investments, amortized interests are recorded as income receivable on portfolio in the statement of net assets. All other assets, where practice allows, may be valued in the same manner. Short-term investments that have a remaining maturity of one year or less may be valued at market value, or where market value is not available or not representative, at amortised cost.

c) Net realised gain / (loss) on sales of securities

The net realised gain / (loss) on sales of securities is determined on the basis of the average cost of securities sold.

d) Cost of securities

The acquisition cost of a security denominated in a currency other than that of the Sub-Fund is converted to the Sub-Fund's currency at the exchange rate prevailing on the date of purchase.

e) Exchange translation

Bank balances, other assets and liabilities and the value of securities held that are denominated in other currencies than the Sub-Fund's currency are converted at the prevailing exchange rate of the closing day. Income and expenses incurred in currencies other than the Sub-Fund's currency are converted at the prevailing exchange rate of the day of each transaction. Exchange gain / (loss) is recorded in the statement of operations and other changes in net assets.

At the date of the financial statements, the prevailing exchange rates on the closing day were as follows:

| 1 | SEK | = | 0.1117710 | CHF | Swiss Franc |
|---|-----|---|------------------|-----|-------------------|
| | | | 0.7755230 | DKK | Danish Krona |

f) Combined financial Statements

The combined financial statements of the Fund are expressed in SEK and are equal to the sum of the corresponding captions in the financial statements of each Sub-Fund.

Notes to the financial statements (continued)

as at 31st December 2016

g) Formation expenses

Expenses incurred in connection with the establishment of the Fund and the creation of the Sub-Funds are amortised over a period of five years.

If the launch of a Sub-Fund occurs after the launch date of the Fund, the costs of formation in relation to the launch of the new Sub-Fund is charged to such Sub-Fund alone and may be amortised over a maximum of 5 years with effect from the Sub-Fund's launch date.

Formation expenses are included in the caption "Other expenses" in the statement of operations and other changes in net assets.

h) Investment income

Dividend income is recognised on an ex-dividend basis and is recorded net of withholding taxes.

Interest income is accrued on a pro rata temporis basis, net of any withholding tax.

i) Other liquid assets / Other liquid liabilities

The captions "Other liquid assets" and "Other liquid liabilities" are mainly composed of cash accounts held at brokers.

j) Transaction fees

Transaction costs disclosed under the caption "Transaction fees" in the expenses of the statement of operations and other changes in net assets are mainly composed of broker fees incurred by the Fund and of fees relating to liquidation of transactions paid to the custodian bank and of transaction fees on financial and on derivatives instruments.

k) Valuation of forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward rates for the remaining period from valuation date to the maturity of the contracts. Net unrealised gain / (loss) is recorded in the statement of net assets. Net variation of unrealised gain / (loss) and net realised gain / (loss) are recorded in the statement of operations and other changes in net assets.

1) Futures contracts

Futures contracts are posted off-balance sheet and are valued at the last available price applicable to the asset. Unrealised gain / (loss) is recorded in the statement of net assets. Net variation of the unrealised gain / (loss) and net realised gain / (loss) are recorded in the statement of operations and other changes in net assets.

The net realised gain/ (loss) on futures contracts is determined based on the FIFO Method.

Note 2 - Subscription, redemption and conversion fees

A subscription, redemption and conversion charge not exceeding 2% of the fixed price at which Units are offered, may be added for the purpose of compensating the Placement and Distribution Agent and financial intermediaries who assist in placing the Units.

Notes to the financial statements (continued)

as at 31st December 2016

Note 3 - Management fee

The Investment Manager receives the following Investment Management Fee per annum of the net assets of the Sub-Fund, accrued daily and payable monthly in arrears.

The effective annual rates for the unit class currently offered are as follows:

| Sub-Funds | IC SEK Unit | |
|---|-------------|-------|
| | Class | Class |
| - IKC FUND - IKC WORLD WIDE OPPORTUNITIES | 2.50% | - |
| - IKC FUND - Lux 0 - 50 | 2.00% | - |
| - IKC FUND - Lux 0 - 100 | 2.35% | 1.40% |

The Management Company receives a management fee not exceeding 0.10% per annum of the net assets of the Sub-Funds, accrued daily and payable monthly in arrears with a minimum annual management fee per Sub-Fund of EUR 25,000. Furthermore, the Management Company receives an annual fee of EUR 12,000 per Sub-Fund for the provision of risk management services.

These fees are recorded under the caption "Management fees" in the statement of operations and other changes in net assets.

Note 4 - Management fees of the related party's target funds

The management fee of the related party's target funds in which the sub-fund IKC FUND - Lux 0 - 100 invests, is disclosed in the following table:

Notes to the financial statements (continued)

as at 31st December 2016

Note 5 - Trailer fees

Management fee retrocessions received by the Fund in relation to its investments in certain target funds are disclosed as "Commissions received" in the statement of operations and other changes in net assets.

Note 6 - Central administration costs

Out of the Sub-Fund's assets, an administration fee consisting of a flat fee of EUR 25,000 p.a. plus a variable fee of maximum 0.040% p.a. is payable to the Central Administration Agent. The fees will be accrued on a daily basis, based on the net assets of the Sub-Fund and will be paid out monthly in arrears.

The Central Administration Agent is furthermore entitled to receive out of the Sub-Fund's assets, in respect of the register and transfer agent functions, a fee of EUR 10,000 for up to two active Classes of Units and EUR 3,000 for each additional active Class of Units in accordance with Luxembourg customary banking practice, accrued daily and payable monthly in arrears. The Central Administration Agent will also be compensated for all reasonable out of pocket expenses.

These fees are recorded under the caption "Central administration costs" in the statement of operations and other changes in net assets.

Note 7 - Depositary Fees

The Depositary receives a depositary fee determined as an annual percentage calculated per market on a monthly basis based on the Sub-Funds assets and paid monthly in arrears.

The Depositary also receives a supervisory fee of 0.0075% p.a. calculated on the Net Asset Value of the Sub-Funds. In addition, the Depositary is entitled to be reimbursed out of the assets of the Sub-Funds for its reasonable out of pocket expenses and disbursements.

Note 8 - Subscription duty ("Taxe d'abonnement")

The Fund is governed by Luxembourg law.

Pursuant to the legislation and regulations which are prevailing, the Fund is subject to an annual "taxe d'abonnement" of 0.05% which is payable quarterly and calculated on the basis of the net assets of each Sub-Fund on the last day of each quarter.

The rate of this tax is reduced to 0.01% of the value of the net assets for Sub-Funds or Classes of units reserved for institutional investors.

According to Article 175 (a) of the amended Law of 17th December 2010 the net assets invested in Undertakings for Collective Investments already subject to the "taxe d'abonnement" are exempt from this tax.

Notes to the financial statements (continued)

as at 31st December 2016

Note 9 - Capped expenses

The Investment Manager of the Fund, IKC Fonder AB, has committed with effect from the launch date of the Sub-Funds and until further notice to the Fund and the Management Company, to cap the following fees at a level of 0.25% p.a. of the net assets of the Sub-Funds. Any residual due above this level will be paid by the Investment Manager directly to the Fund.

Fees in scope ("the Fees"):

- Central Administration fees (including the administration fee, and the fee in respect of the register and transfer agent functions);
- Other Administration fees (including the fee for risk management and out of pocket expenses)
- Depositary fees
- Formation expenses;
- Taxe d'abonnement:
- Audit fees:
- CSSF fees.

Expenses supported by the Investment Manager of the Fund are disclosed as "Other income" in the statement of operations and other changes in net assets.

Note 10 - Futures contracts

As at 31st December 2016, the Fund was committed in the following futures contracts:

IKC FUND - IKC WORLD WIDE OPPORTUNITIES

Note 11 - Changes in the investment portfolio

The statement of changes in the investment portfolio for the period covered by the report is available free of charge upon request from the registered office of the Management Company of the Fund.

Notes to the financial statements (continued)

as at 31st December 2016

Note 12 - Swing pricing

Under certain circumstances investment and / or disinvestment costs may have an adverse effect on the shareholders' interests in a Sub-Fund.

In order to prevent this effect, called "dilution", the Directors have the authority to allow for the Net Asset Value per Share to be adjusted by effective dealing and other costs and fiscal charges which would be payable on the effective acquisition or disposal of assets in the relevant Sub-Fund if the net capital activity exceeds, as a consequence of the sum of all subscriptions, redemptions or conversions in such a Sub-Fund, such threshold percentage (the "Threshold") as may be determined from time to time by the Directors, of the Sub-Fund's total net assets on a given Valuation Day.

If the net capital activity for a given Valuation Day leads to a net inflow of assets in excess of the Threshold in the relevant Sub-Fund, the Net Asset Value used to process all subscriptions, redemptions or conversions in such a Sub-Fund is adjusted upwards by the swing factor that shall be determined from time to time by the Directors but will not exceed 2% of the relevant Net Asset Value.

If the net capital activity for a given Valuation Day leads to a net outflow of assets in excess of the Threshold in the relevant Sub-Fund, the Net Asset Value used to process all subscriptions, redemptions or conversions in such a Sub-Fund is adjusted downwards by the swing factor that shall be determined from time to time by the Directors but will not exceed 2% of the relevant Net Asset Value.

There was no "Swing Pricing" applied for the Net Asset Value as at 31st December 2016 for the Sub-Funds.

Additional Information (unaudited)

as at 31st December 2016

1 - Risk management

As required by circular CSSF 11/512, the Board of Directors of the Management Company needs to determine the global risk exposure of the Fund either by applying the commitment approach or the VAR approach. In terms of risk management, the Boards of Directors of the Management Company decided to adopt the commitment approach as a method of determining and monitoring the global risk exposure.

2 - Remuneration disclosure

SEB Fund Services S.A. (SEB) has implemented a Remuneration policy that is designed to encourage good performance and behavior, and seeks to achieve a balanced risk-taking that goes in line with unitholders' expectations.

In SEB, there is clear distinction between the criteria for setting fixed remuneration (e.g. base pay, pension and other benefits) and variable remuneration (e.g. short- and long-term variable remuneration). The individual total remuneration corresponds to requirements on task complexity, management and functional accountability and also related to the individual's performance.

SEB provides a sound balance between fixed and variable remuneration and aligns the payout horizon of variable pay with the risk horizon. This implies that certain maximum levels and deferral arrangements apply for different categories of employees.

The amount below represents the proportion of the total remuneration on calendar year 2016 and adjusted according to the number of full time employees during the year 2016 and identified staff (i.e. the aggregate amount of remuneration broken down by senior management and members of staff of the AIFM/ Management Company whose actions have a material impact on the risk profile of the funds). This amount is further proportioned to the total net asset value of each fund, taking into account UCITS and non-UCITS.
