What is this product?

Type

This product is a unit of a mutual fund qualifying as an undertaking for collective investment in transferable securities (UCITS).

Term

This sub-fund has no maturity date. However, the manufacturer may decide to close the sub-fund under certain circumstances.

Objectives

The sub-fund seeks to achieve positive inflation-adjusted capital growth (in terms of SEK) over the long term, with a moderate risk profile, from actively managed and diversified investments in mainly equities, bonds and other transferable securities.

The sub-fund may vary the proportion of these depending on its assessment of the potential of total return arising from such securities and of their diversification.

The sub-fund can use derivatives such as, but not limited to, futures, forwards, options and swap contracts, to achieve the sub-fund's investment objective and/or to reduce risks.

The sub-fund may not invest more than 10% of its assets in other funds.

The sub-fund may hold ancillary liquid assets. A maximum of 20% of the sub-fund's net assets might be invested in liquid assets with due regard to the principle of risk spreading.

The sub-fund qualifies as an Article 8 product under SFDR (Sustainable Finance Disclosure Regulation) since its investment policy promotes environment, social, and governance characteristics ("ESG Goals"). The sub-fund will make investments which Lancelot Asset Management AB, (the "Investment Manager"), assessed as promoting Environmental/Social (the "E/S") characteristics. In the selection of the investments the sub-fund strives to promote one or more of the UN's Sustainable Development Goals. More information on the incorporation of Sustainability Risks and opportunities into day-to-day business operations are to be found on : <https://www.lancelot.se/>.

Benchmark: The portfolio is actively managed on a discretionary basis without reference to a benchmark.

Intended retail investor

The sub-fund is intended for long-term capital preservation. Investors should consider their long-term investment goals and financial needs when making an investment decision about the sub-fund. As a consequence, the sub-fund is suitable for investors who can afford to set aside the capital invested for at least three years.

Other information

Depositary: Skandinaviska Enskilda Banken. AB (publ) – Luxembourg Branch

Dividend income: This class is a capitalisation class meaning that income is reinvested.

Conversion right: The investor has the right to convert his investment in units in one sub-fund for units in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

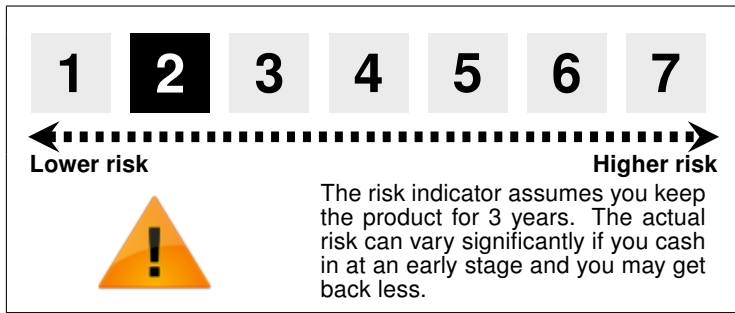

Additional information: Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of units may be obtained free of charge from the management company or on www.fundrock.com/funds/. The prospectus and the periodic reports are prepared for the entire fund and are available in English. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 1996 and this unit class in 1996.

The reference currency of the sub-fund is expressed in SEK. The currency of the unit class is expressed in SEK.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to

Unfavourable scenario: This type of scenario occurred for an invest-

pay you.

Be aware of currency risk. You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator:

- Derivative risk
- Hedging risk
- Operational risk
- Credit risk
- Counterparty risk
- Liquidity risk

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

ment between March 2017 and March 2020.

Moderate scenario: This type of scenario occurred for an investment between December 2016 and December 2019.

Favourable scenario: This type of scenario occurred for an investment between December 2018 and December 2021.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundRock Management Company S.A. is unable to pay out?

The Management Company is responsible for administration and management of the sub-fund, and does not typically hold assets of the sub-fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Management Company, as the PRIIPS manufacturer has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the sub-fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 100,000 SEK is invested

	If you exit after 1 year	If you exit after 3 years
Total costs	2,090 SEK	6,762 SEK
Annual cost impact (*)	2.1 %	2.1 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.9% before costs and 2.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
