➤ What is this product?

Type: This product is a Société d'Investissement à Capital Variable.

Term: No fixed term.

Objectives: The Fund aims to achieve long term growth by investing mainly in equities and equity related securities of mid cap companies domiciled in or exercising a large portion of their economic activity in India. For the purposes of the Fund, (i) mid cap companies are defined as those companies which are not small-cap companies and are not part of the top 100 stocks listed on the India Stock Exchange by market capitalization, (ii) small-cap companies are defined as those companies which are not part of the top 500 stocks listed on the India Stock Exchange by market capitalization and (iii) large cap companies are defined as those companies which are part of the top 100 stocks listed on the India Stock Exchange by market capitalization. The Fund is actively managed and references the NIFTY Midcap 100 Index (the "Benchmark") by seeking to outperform it. There are no restrictions on the extent to which the Fund's portfolio may deviate from the one of the Benchmark.

The Fund may also, on an ancillary basis, invest in equities and equity related securities of small and large cap companies that are either domiciled, or exercise a large portion of their economic activity, in India, as well as other eligible securities that are considered appropriate by the Principal Investment Manager such as units and shares of UCITS and/or UCI, including exchange traded funds, and financial derivative instruments including, but not limited to, index futures and options.

As permitted by and described in the prospectus of the UCITS, the Fund may use financial derivative instruments (such as index futures and foreign exchange swaps), and employ techniques and instruments, for efficient portfolio management, hedging and investment purposes.

Subscription/Redemption/Conversion - Investors can buy, redeem and switch shares in the Fund any day on which banks in Luxembourg and Tokyo as well as the India Stock Exchange are open for normal business.

Dividends - No dividend will be declared and paid to the shareholders of this share class.

The base currency of the Fund is USD.

Investments made in units or shares of other funds may not in aggregate exceed 10% of the net assets of the Fund.

Please refer to the Fund's Supplement of the Prospectus for full investment objective and policies.

Intended retail investor: The Fund is intended for investors who are prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return, and who plan to stay invested for at least 5 years.

Depository: The Fund's assets are held through its Depository, which is Citibank Europe plc, Luxembourg Branch.

Distribution type: The product is accumulating.

➤ What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 6 out of 7, which is the second-highest risk class.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average and best performance of the product/benchmark over the last 5 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Example investment: JPY 10,000		1 year	5 years

➤ What happens if FundRock Management Company S.A. is unable to pay out?

You may face a financial loss should the manufacturer or depository for the Fund default on their obligations. There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

➤ What are the costs?

Cost over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- JPY 10,000 per year is invested

Example investment: JPY 10,000	If you cash in after 1 year	If you cash in after 5 years
Total costs	JPY 422	JPY 4,373
Annual cost impact(*)	4.23%	4.81%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 18.53% before costs and 13.73% after costs.

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

The table shows the impact on return per year		Annual cost impact if you exit after 5 years	
One-off costs upon entry or exit	Entry costs	We do not charge an entry fee	JPY 0
	Exit costs	We do not charge an exit fee for this product	JPY 0
Ongoing costs taken each year	Management fees and other administrative or operating costs	0.94% of the value of your investment per year. This is an estimate based on actual costs over the last year.	JPY 94
	Transaction costs	3.11% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	JPY 311.37
Incidental costs taken under specific conditions	Performance fees and carried interest	There is no performance fee for this product.	JPY 0
