WHAT IS THIS PRODUCT?

Type : This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities (UCITS).

Term : This sub-fund has no maturity date. However, the board of directors may decide to close the sub-fund under certain circumstances.

Objectives : The Sub-Fund is a feeder Sub-Fund which invests at least 85% of its net assets in class WT6 of Allianz Green Transition Bond (the "Master Sub-Fund"), a Sub-Fund of Allianz Global Investors Fund (the "Master Fund"). The Sub-Fund may invest the remaining assets, i.e. a maximum of 15% of its net assets, in ancillary liquid assets and/or in derivative instruments used for hedging purposes. The objective of the Sub-Fund is to obtain a performance similar to that of the Master Sub-Fund. The performance of the Sub-Fund may differ from that of the Master Sub-Fund due to (i) the costs incurred by the Sub-Fund or (ii) the liquid assets held by the Sub-Fund. The Sub-Fund will not directly invest in efficient portfolio management techniques or Total Return Swaps ("TRS").

The Master Sub-Fund, as well as the Feeder Sub-Fund, through its investments in the Master Sub-Fund, promote among other characteristics, environmental characteristics (as provided under article 8 of SFDR) and intend to invest in underlying investments that contribute to climate change adaptation and climate change mitigation as outlined in more detail under the 'Green Transition strategy of the Master Fund' section of the prospectus. The Master Sub-Fund's objective seeks to achieve long-term capital growth by investing in global bond markets with a focus on issuers (companies, sovereign and quasi-sovereign issuers) providing positive contribution to sustainable and environmental-friendly solutions and transition into a low-carbon economy in accordance with the Green Transition Strategy.

The Master Fund may also invest in Equities and or Debt securities whose issuers explicitly commit to future improvements in sustainability outcomes within a predefined timeline included, but not limited to, securities from issuers participating to the SBTi initiative, and/or in Debt Securities issued by sovereign issuers which have bindingly ratified the Paris Agreement, and which have a sufficient Freedom House Index score. The Sub-Fund is actively managed and the investment objectives and strategy do not refer to a benchmark.

The Sub-Fund launched on 01/12/2021. The share class launched on 01/12/2021.

The currency of the Sub-Fund is USD, the currency of this product is EUR.

Distribution Policy: Returns and gains are not distributed but are reinvested in the Fund.

Intended retail investor : The Sub-Fund is suitable for any investor type (institutional and retail investors) including those who are not interested in or informed about capital markets topics, but who see investment funds as a convenient "savings product". The Sub-Fund is also suitable for more experienced investors wishing to obtain defined investment objectives and seeking current income and stability along. Experienced with capital markets products is not required. The investor must be able to accept moderate temporary losses, thus the Sub-Fund is suitable for investors who can afford, in principle, to set aside their capital for a period of at least 5 years.

Depository: RBC Investor Services Bank S.A.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Investors shall note that besides the risks included in the risk indicator, other risks such as liquidity, Sustainability, Risks associated with investing in emerging markets or less developed countries, Risk linked to use of derivative instruments and Hedging Risk may affect the fund performance.

This product does not include any protection from future market performance so you could lose some or all of your investment. If not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period (RHP): 5 years Example investment: 10,000 EUR			
Scenarios		If you exit after 1 year	If you exit after 5 years (RHP)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	7,990 EUR	7,324 EUR
	Average return each year	-20.10%	-6.04%
Unfavourable	What you might get back after costs	8,123 EUR	8,255 EUR
	Average return each year	-18.77%	-3.76%
Moderate	What you might get back after costs	10,353 EUR	12,028 EUR
	Average return each year	3.53%	3.76%
Favourable	What you might get back after costs	12,302 EUR	12,878 EUR
	Average return each year	23.02%	5.19%

Unfavourable scenario: This type of scenario occurred for an investment between August 2021 and December 2022.

Moderate scenario: This type of scenario occurred for an investment between November 2015 and November 2020.

Favourable scenario: This type of scenario occurred for an investment between June 2016 and June 2021.

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

WHAT HAPPENS IF FUNDROCK MANAGEMENT COMPANY S.A. IS UNABLE TO PAY OUT ?

The Management Company is responsible for administration and management of the Sub-Fund, and does not typically hold assets of the Sub-Fund (assets that can be held by a depository are, in line with applicable regulations, held with a depository in its custody network). The Management Company, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Sub-Fund or the depository is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

Example investment: 10,000 EUR	If you exit after 1 year	If you exit after 5 years (RHP)
Total costs	64 EUR	387 EUR
Annual cost impact(*)	0.64%	0.66%

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.42% before costs and 3.76% after costs.

Composition of costs

Transaction costs	0.05% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	5 EUR
Incidental costs taken under specific conditions		
Performance fees and carried interest	There is no performance fee or carried interest for this product	0 EUR

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

The recommended minimum holding period: 5 years.

You should be prepared to stay invested for 5 years. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible on each full bank business day in Luxembourg. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

HOW CAN I COMPLAIN?

Complaints about the behaviour of the person who advised you on the product or sold it to you, should be addressed directly to that person. Complaints about the product or the behaviour of the manufacturer of this product should be directed to the following address:

In all cases, the complainant must clearly indicate his/her contact details (name, address, phone number or email address) and provide a brief explanation of the claim.

OTHER RELEVANT INFORMATION

Conversion right: You may apply for shares in this Sub-Fund to be converted into shares of equivalent class of other Sub-Funds of Global International investments SICAV. For more information on how to convert your shares to shares of other Sub-Funds, please refer to the "Conversions" section in the Prospectus.

Segregation: Investors should note that there is no segregation of liabilities between the individual Classes within a Sub-Fund. Hence, there is a risk that under certain circumstances, hedging transactions in relation to a Hedged Class could result in liabilities affecting the Net Asset Value of the other Classes of the same Sub-Fund. In such case assets attributable to other Classes of such Sub-Fund may be used to cover the liabilities incurred by the Hedged Class. An up-to-date list of the Classes with a contagion risk is available upon request at the registered office of the Company/the Management Company.

Additional information: Copies of the Prospectus, the latest annual and semi-annual report in English as well as other information (including the latest share prices) are available free of charge upon request at the registered office of the Company or on <https://www.march-am.com>.

Past performance and previous performance scenarios: The cost, performance and risk calculations included in this key information document follow the methodology prescribed by EU rules. Note that the performance scenarios calculated above are derived exclusively from the past performance of the Company's share price and that past performance is not a guide to future returns. Therefore, your investment may be at risk and you may not get back the returns illustrated. Investors should not base their investment decisions solely upon the scenarios shown. Information about past performance and performance scenario calculations is available on <https://www.march-am.com>

Any past performance data presented will be for up to 10 calendar years from the date of the launch of a share class. No performance data will be presented for a share class that does not yet have performance data for one complete calendar year as there would be insufficient data to provide a useful indication of past performance to retail investors.
