What is this product?

Type:

This product is a UCITS Fund [authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier].

Term:

This product is not subject to any fixed term.

Objectives:

The Fund is actively managed and aims to grow the value of your investment over the long term. The Fund will invest globally in a range of other investment funds.

The assets of investee funds will be varied and may include company shares, bonds issued by companies and governments (which are similar to loans that pay a fixed or variable rate of interest), cash and deposits, commodities (wheat, coffee, gold etc.) and other investments. Assets of these other funds will be from around the world and valued in different currencies, although mainly made up of companies in Australia or companies valued in Australian Dollar.

You can buy and sell shares on any day that is a business day in Luxembourg and the United Kingdom, and such transactions will be traded on the Fund's next available valuation date.

Any income generated will be reinvested to grow the value of your investment. You can buy and sell shares on any day that is a business day in Luxembourg and the United Kingdom, and such transactions will be traded on the Fund's next available valuation date.

For full investment objectives and policy details please refer to the Fund's Prospectus, which is available upon request.

Intended Retail Investor:

The Fund is offered to investors who may have basic or no knowledge and experience of investing in financial markets and also experienced investors. The Fund is intended for long-term investment, in line with the recommended holding period or longer. Investors should understand the risks involved, including the risk of losing capital invested and must evaluate the Fund's objective and risks in terms of whether they are consistent with their own investment goals and risk tolerances.

Additional Information:

The depositary is JP Morgan Bank Luxembourg S.A.

The up-to-date remuneration policy of the Management Company, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including the composition of the remuneration committee where such a committee exists, are available at <https://www.fundrock.com/remuneration-policy/>

A paper version of this remuneration policy is made available free of charge to investors at the Management Company's registered office upon request.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 6 Years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the fund to pay you.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of a suitable benchmark completed where applicable by that of its reference framework over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 6 Years Investment: 10 000 AUD			
Scenarios		1 Year	6 Years (recommended holding period)
Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	3 110 AUD	2 700 AUD
	Average return each year	- 68.93 %	- 19.61 %
Unfavourable scenario	What you might get back after costs	8 680 AUD	9 120 AUD
	Average return each year	- 13.23%	- 1.53%
Moderate scenario	What you might get back after costs	10 690 AUD	14 180 AUD
	Average return each year	6.92%	5.99%
Favourable scenario	What you might get back after costs	12 600 AUD	17 460 AUD
	Average return each year	25.98%	9.74%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between September 2021 and November 2022.

Moderate: This type of scenario occurred for an investment between January 2013 and December 2018.

Favourable: This type of scenario occurred for an investment between December 2011 and November 2017.

What happens if Momentum is unable to pay out?

The Management Company is responsible for administration and management of the Fund, and does not typically hold assets of the Fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Management Company, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- AUD 10 000 is invested.

Investment: 10 000 AUD	If you exit after 1 Year	If you exit after 6 Years
Total Costs	215 AUD	1927 AUD
Annual Cost Impact (*)	2.15 %	2.28 %

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.27% before costs and 5.99% after costs.

How long should I hold it and can I take money out early?

Recommended holding period: 6 Years

This product has no required minimum holding period but is designed for long-term investment. Since the value of investments can rise and fall over differing time periods, you should have an investment horizon of at least 6 years when buying an investment of this type. The minimum recommended holding period is therefore 6 years. You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the Fund on any business day (as set out in the Fund's prospectus).
