Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising the FundRock Management Company S.A in relation to this Key Information Document. The Momentum GF Global Sustainable Equity Fund is authorised in Luxembourg and regulated by CSSF.

This key information document is valid as at 01 January 2023.

What is this product?

Type:

This product is a UCITS Fund [authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier].

Term:

This product is not subject to any fixed term.

Objectives:

The Fund aims to deliver returns comparable with the MSCI World Index (the “Benchmark”) over a rolling 3-year period. The Fund is actively managed using a quantitative investment strategy and seeks to enhance the returns of the Benchmark by modifying the holdings and the weights of the holdings of the Benchmark for additional return.

The Fund aims for an improved environmental footprint and a better sustainability profile compared to the Benchmark by integrating ESG (i.e. Environmental, Social and corporate Governance) factors. The strategy integrates sustainability criteria as part of the stock picking process and through a proprietary sustainability assessment.

The Fund systematically adopts an integrated ESG investment approach, which is interpreted to mean the analysis of all material factors in investment analysis and investment decisions, including ESG factors. The Fund intends to be guided by the UNPRI in determining actions and behaviours that are consistent with an integrated ESG approach, whilst supplementing that with research and suggestions from industry level bodies. The Fund recognises the Sustainable Development Goals (SDGs) and their many underlying targets as providing a more specific guide to the actions and behaviours that the issuers of underlying investments in the Fund are expected to be making positive contributions to.

The Fund aims to maintain:

an environmental footprint at least 20% lower than the Benchmark, measured in combination across carbon emissions, water usage, waste generation and energy consumption.

a combined ESG score at least 20% higher relative to the Benchmark. Footprint measurements and ESG scores are based upon third party data.

The Fund should not knowingly hold securities issued by any company whose core business activity includes the production of tobacco, controversial weapons, firearms, military contracting, or coal. For the purposes of this restriction, a “core business activity” is one that accounts for more than a certain percentage of the company’s revenue.

For full investment objectives and policy details please refer to the Fund’s Prospectus, which is available upon request.

Intended Retail Investor:

The Fund is offered to investors who may have basic or no knowledge and experience of investing in financial markets and also experienced investors. The Fund is intended for long-term investment, in line with the recommended holding period or longer. Investors should understand the risks involved, including the risk of losing capital invested and must evaluate the Fund’s objective and risks in terms of whether they are consistent with their own investment goals and risk tolerances.

Additional Information:

The depositary is JP Morgan Bank Luxembourg S.A.

The up-to-date remuneration policy of the Management Company, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including the composition of the remuneration committee where such a committee exists, are available at <https://www.fundrock.com/remuneration-policy/>

A paper version of this remuneration policy is made available free of charge to investors at the Management Company’s registered office upon request.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 7 Years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the fund to pay you.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of a suitable benchmark completed where applicable by that of its reference framework over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 7 Years Investment: 10 000 USD			
Scenarios		1 Year	7 Years (recommended holding period)
Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	4 540 USD	2 670 USD
	Average return each year	- 54.59 %	- 17.2 %
Unfavourable scenario	What you might get back after costs	7 700 USD	8 320 USD
	Average return each year	- 23.02%	- 2.6%
Moderate scenario	What you might get back after costs	10 460 USD	17 930 USD
	Average return each year	4.63%	8.7%
Favourable scenario	What you might get back after costs	14 800 USD	21 610 USD
	Average return each year	47.96%	11.64%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between November 2021 and November 2022.

Moderate: This type of scenario occurred for an investment between February 2014 and January 2021.

Favourable: This type of scenario occurred for an investment between October 2011 and September 2018.

What happens if Momentum is unable to pay out?

The Management Company is responsible for administration and management of the Fund, and does not typically hold assets of the Fund (assets that can be held by a depository are, in line with applicable regulations, held with a depository in its custody network). The Management Company, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Fund or the depository is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10 000 is invested.

Investment: 10 000 USD	If you exit after 1 Year	If you exit after 7 Years
Total Costs	776 USD	4308 USD
Annual Cost Impact (*)	7.76 %	3.4 %

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.09% before costs and 8.70% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 Year
Entry costs	The 5% Entry charge is deferred and amortised over a 5 year period. If you redeem within 5 years, a tiered charge is payable upon exit. The illustration assumes a 5% charge based on an exit before one year. Please refer to the Deferred Subscription Charge section of the prospectus for details.	500 USD
Exit costs	See entry charge	N/A
Ongoing costs		
Management fees and other administrative or operating costs	2.27% of the value of your investment per year. This is an estimate based on actual costs over the last year. The ongoing charge includes the amortised initial entry charge of 4% over 5 years.	271 USD
Transaction costs	0.05% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	5 USD
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	N/A

How long should I hold it and can I take money out early?

Recommended holding period: 7 Years

This product has no required minimum holding period but is designed for long-term investment. Since the value of investments can rise and fall over differing time periods, you should have an investment horizon of at least 7 years when buying an investment of this type.

The minimum recommended holding period is therefore 7 years. You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the Fund on any business day (as set out in the Fund's prospectus).

How can I complain?

Complaints about the behaviour of the person who advised you on the product or sold it to you, should be addressed directly to that person. Complaints about the product or the behaviour of the manufacturer of this product should be directed to the following address:

Website: <https://www.fundrock.com/policies-and-compliance/frd-complaints-handling-policy/>
E-mail: FRMC_qualitycare@fundrock.com
Address: [33, rue de Gasperich, L-5826 Hesperange.](#)
FundRock Management Company S.A. will handle your request and provide you with a feedback as soon as possible.
