## **2018 - Optimistic start followed by a volatile period and chaotic end**

2018 started off optimistic, followed by a volatile period and a chaotic end. When summing up 2018, it turned out to be a negative year for financial assets across the world. In fact, it was only treasury bonds in developed markets that generated small positive returns in local currencies demonstrating the complexity to protect capital, in absolute terms, during the year.

Fear of a weaker economic outlook, escalation of trade tensions between US and China and the risk of a policy mistake from the FED, if they continue to hike interest rates according to their plan at this stage of the economic cycle, were all driving forces behind the correction observed at the end of 2018.

Looking forward, the big question is obviously where we go from here. In 2018 we have witnessed a substantial contraction in multiples. Consequently, going into 2019, the Swedish market is about 17 percent cheaper on 12 months forward earnings, compared to the beginning of 2018.

In the following paragraphs we present our view of global growth and monetary policy in addition to presenting our outlook for financial markets.

### **Global growth and monetary policy**

The world economy has been growing moderate but steady over nearly 10 years. In 2018, the US economy proved to be the prime engine of global growth as tax cuts and additional government spending initiated by President Donald Trump strengthened the business cycle. However, the strong growth rates that were recorded in the second and third quarters of 2018 can be argued to be unsustainable for a country dealing with an aging population and slow productivity growth. In addition, the additional boost from Trump's tax reform is expected to ebb out in the second half of 2019.

Furthermore, a range of triggers beyond escalating trade tensions could potentially trigger a further deterioration in risk sentiment with adverse growth implications. These potential triggers include, among others, a no-deal Brexit- and a greater-than-envisaged slowdown in China.

According to IMF, Global growth in 2018 is estimated to be 3.7%, but signs of a slowdown in the second half of 2018 have led to downward revisions for several economies. Weakness in the second half of 2018 is expected to carry over to coming quarters, with global growth projected to decline to 3.5% in 2019.

Looking at the US monetary policy, FED is still in tightening bias mode but is now using more dovish language and is guiding for fewer hikes during 2019. The interest rate differential between the US and China has been a key concern for Chinese policymakers, and sets an obstacle for China to implement a much needed easier monetary policy.

Regarding the monetary policy in Europe and Sweden, The ECB expects the key ECB interest rates to remain at their present levels at least through the summer of 2019, while the Swedish Riksbank raised the repo rate in December from -0,50% to -0,25% driven by strong economic activity and good conditions for inflation to remain close to the inflation target in the period ahead.

### **Outlook for financial markets**

As highlighted, escalating trade tensions, concerns about Italian fiscal policy, in addition to worries regarding several emerging markets and a no-deal BREXIT contributed to equity price declines during the last quarter of 2018. Going into 2019, most of these risks and uncertainties in the market remain. The difference from a couple of months ago is that valuation has come down significantly. Also, the general attitude towards, and positioning in risky assets are drastically reduced. So the apparent risks we have identified, might already be reflected in share prices.

From a historical perspective the last quarter of 2018 was the 3<sup>rd</sup> worst performing quarter for OMX seen in the last 20 years, just topped by the recession in 2002 and the rating downgrade of the US in 2011. We have seen stocks decrease 40-50% from the highs in September without seeing that magnitude, if any, in estimate revisions.

Thus, the market is, most likely, discounting a hard landing in the global economy. During the correction, the main negative issues have been the declines in small cap stocks. However, the decline in these stocks have not been company related, more flow specific driven by a general market down turn. Going into 2019, we have reduced the exposure towards small/mid-caps in order to have a portfolio that is less prone to liquidity risk if the market would become even more bearish.

Regarding valuations, there is a lot of negative news discounted in the markets. Therefore, financial markets are more attractive at the end of 2018, than at the beginning of 2018. Consequently, we have seen a few bids on Swedish companies, from both private equity and industrial players, at the end of 2018. In our view, this is indicating that valuations have come down so much that it is too cheap to ignore. The fact that private equity firms are now buyers and not sellers is a 180 degree turn from just six months ago. If valuations stay at depressed levels, we believe 2019 may be a year where companies will be taken out from the market.

To sum up, if global growth can be maintained around current level, we might have more confidence in estimates going in to 2019, and we might be at or around a good entry point for equities. However, if politicians fail to step up, and central bankers don't adjust, we might have talked ourselves into a recession too early than necessary.

## Independent auditor's report

To the Shareholders of  
Norrón SICAV  
H2O building  
33, rue de Gasperich  
L-5826 Hesperange

### Opinion

We have audited the financial statements of NORRÓN SICAV (the "Fund"), and of each of its sub-funds, which comprise the statement of net assets and the statement of investments and other net assets as at 31<sup>st</sup> December 2018, and the statement of operations and other changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund, and of each of its sub-funds, as at 31<sup>st</sup> December 2018, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

### Basis for Opinion

We conducted our audit in accordance with the Law of 23<sup>rd</sup> July 2016 on the audit profession (the "Law of 23<sup>rd</sup> July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23<sup>rd</sup> July 2016 and ISAs are further described in the "responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

### **Responsibilities of the Board of Directors of the Fund for the financial statements**

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

### **Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23<sup>rd</sup> July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23<sup>rd</sup> July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

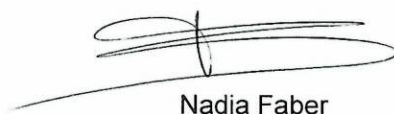

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of Board of Directors of the Fund use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Note 1 - Significant Accounting policies**

a) Presentation of the financial statements

The financial statements of the Fund are established in accordance with the Luxembourg legal and regulatory requirements concerning Undertakings for Collective Investment and with generally accepted accounting principles in Luxembourg.

b) Valuation

- i. Securities listed on Regulated Markets, which operate regularly and are recognised and open to the public, are valued at the last available price; in the event that there should be several such markets, on the basis of the last available price of the main market for the relevant security. Should the last available price for a given security not truly reflect its fair market value, then that security is valued on the basis of the probable sales price which the Boards of Directors deem it is prudent to assume;
- ii. Securities not listed on Regulated Markets, which operate regularly and are recognised and open to the public, are valued on the basis of their last available price. Should the last available price for a given security not truly reflect its fair market value, then that security is valued by the Boards of Directors on the basis of the probable sales price which the Boards of Directors deems it is prudent to assume;
- iii. Swaps are valued at their fair value based on the underlying securities (at close of business or Intraday) as well as on the characteristics of the underlying commitments;
- iv. The liquidating value of futures, forward and options contracts (or any other derivative instruments) not traded on Regulated Markets or stock exchanges means their net liquidating value determined, pursuant to the policies established in good faith by the Board of Directors, on a basis consistently applied for each different variety of contracts. The liquidating value of futures, forward and options contracts (or any other derivative instruments) traded on Regulated Markets or stock exchanges are based upon the last available settlement prices of these contracts on Regulated Markets or stock exchanges on which the particular futures, forward or options contracts (or any other derivative instruments) are traded by the Fund; provided that if a futures, forward or options contract (or any other derivative instruments) could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract is such value as the Board of Directors may deem fair and reasonable;
- v. Shares or units in underlying open-ended investment funds are valued at their last available price;
- vi. Liquid assets and money market instruments are valued at nominal value plus any accrued interest or on an amortised cost basis. All other assets, where practice allows, are valued in the same manner. Short-term investments that have a remaining maturity of one year or less are valued (i) at market value, or (ii) where market value is not available or not representative, at amortised cost. These instruments are presented at cost and the difference between the acquisition cost and the redemption cost at maturity is recorded in interest.

c) Net realised gain (loss) on securities portfolio

The net realised gain/(loss) on securities portfolio is determined on the basis of the average cost of securities sold. The net realised gains and losses on securities portfolio are disclosed net in the statement of operations and other changes in net assets.

d) Cost of securities

The acquisition cost of a security denominated in a currency other than that of the Sub-Fund is converted to the Sub-Fund's currency at the exchange rate prevailing on the date of purchase.

e) Exchange translation

Bank balances, other assets and liabilities and the value of securities held that are denominated in other currencies than the Sub-Fund's currency are converted at the prevailing exchange rate of the closing day. Income and expenses incurred in currencies other than the Sub-Fund's currency are converted at the prevailing exchange rate of the day of each transaction. Exchange gains and losses are disclosed in the statement of operations and other changes in net assets.

At the date of the financial statements, the prevailing exchange rates on the closing day were as follows:

1	SEK	=	0.1601118	AUD	Australian Dollar
			0.7356445	DKK	Danish Krona
			0.0986026	EUR	Euro
			0.0885401	GBP	Pound Sterling
			0.9758816	NOK	Norwegian Krona
			0.1127027	USD	US Dollar

## NORRON SICAV

### Notes to the financial statements (continued)

as at 31st December 2018

---

- For the Sub-Fund NORRON SICAV - Preserve:

If on any Valuation Day, the Gross Asset Value ("GAV") per Share, which is the Net Asset Value per Share after accrual of all fees but before the accrual of Performance Fee, is greater than the High Watermark ("the HWM"), a Performance Fee is calculated by multiplying the difference between the GAV per Share and the HWM by the last outstanding number of Shares of the relevant Class of Shares and the Performance Fee rate as outlined in the table below.

The HWM is the higher of the Net Asset Value of the relevant Class of Shares of the previous Valuation Day and the HWM of the previous Valuation Day multiplied by the daily performance of the Index, except on the first Valuation Day where the HWM was replaced with the Index Value.

The Index Value is the Index converted into the base value of the relevant Class of Shares at the date of the launch of the Class of Shares. If the launch price is 100, Index Value is the index to the base of 100.

- For the Sub-Funds NORRON SICAV - Target and NORRON SICAV - Select:

If on any Valuation Day, the GAV per Share, which is the Net Asset Value per Share after accrual of all fees but before the accrual of Performance Fee, is greater than the HWM, a Performance Fee is calculated by multiplying the difference between the GAV per Share and the HWM by the last outstanding number of Shares of the relevant Class of Shares and the Performance fee rate as outlined in the table below.

The HWM is the higher of the Net Asset Value of the previous Valuation Day of the relevant Class of Shares or the Net Asset Value of the previous Valuation Day for which a Performance Fee was crystallised.

- For the Sub-Fund NORRON SICAV - Active:

No Performance Fee is charged to the Sub-Fund.

- For the Sub-Fund NORRON SICAV - Premium:

If on any Valuation Day, the Gross Asset Value GAV per Share, which is the Net Asset Value per Share after accrual of all fees but before the accrual of Performance Fee, is greater than the HWM, a Performance Fee is calculated by multiplying the difference between the GAV per Share and the HWM by the last outstanding number of Shares of the relevant Class of Shares.

The HWM is the higher of the Net Asset Value of the relevant Class of Shares of the previous Valuation Day and the HWM of the previous Valuation Day multiplied by the daily performance of the Index Value, except on the first Valuation Day where the HWM was replaced with the Index Value.

The Index Value is the Index converted into the base value of the relevant Class of Shares at the date of the launch of the Class of Shares + 200 bps annualized (e.g. if the launch price is 100, the Index Value will be based on the Index to the base of 100).

The rate of performance fee and index are set out in the table below:

- For the Sub-Fund NORRON SICAV - Alpha:

If on any Valuation Day, the Gross Asset Value GAV per Share, which is the Net Asset Value per Share after accrual of all fees but before the accrual of Performance Fee, is greater than the HWM, a Performance Fee is calculated by multiplying the difference between the GAV per Share and the HWM by the last outstanding number of Shares of the relevant Class of Shares and the performance fee rate as outlined in the table below.

The HWM is the higher of the Net Asset Value of the previous Valuation Day of the relevant Class of Shares or the Net Asset Value of the previous Valuation Day for which a Performance Fee was crystallised.

#### Note 15 - Swing pricing

Under certain circumstances investment and/or disinvestment costs may have an adverse effect on the shareholders' interests in a Sub-Fund.

In order to prevent this effect, called "dilution", the Directors have the authority to allow for the Net Asset Value per Share to be adjusted by effective dealing and other costs and fiscal charges which would be payable on the effective acquisition or disposal of assets in the relevant Sub-Fund if the net capital activity exceeds, as a consequence of the sum of all subscriptions, redemptions or conversions in such a Sub-Fund, such threshold percentage (the "Threshold") as may be determined from time to time by the Directors, of the Sub-Fund's total net assets on a given Valuation Day.

If the net capital activity for a given Valuation Day leads to a net inflow of assets in excess of the Threshold in the relevant Sub-Fund, the Net Asset Value used to process all subscriptions, redemptions or conversions in such a Sub-Fund is adjusted upwards by the swing factor that shall be determined from time to time by the Directors but will not exceed 2% of the relevant Net Asset Value.

If the net capital activity for a given Valuation Day leads to a net outflow of assets in excess of the Threshold in the relevant Sub-Fund, the Net Asset Value used to process all subscriptions, redemptions or conversions in such a Sub-Fund is adjusted downwards by the swing factor that shall be determined from time to time by the Directors but will not exceed 2% of the relevant Net Asset Value.

There was no "Swing Pricing" applied for the Net Asset Value as at 31st December 2018 for the Sub-Funds.

**Note 16 - Pooling of assets**

The Investment Manager may invest and manage all or any part of the portfolios of assets established for two or more Sub-Funds (hereafter the "Participating Sub-Funds") on a pooled basis. Any such enlarged asset pool (an "Enlarged Asset Pool") is formed by transferring to it cash or other assets (subject that such other assets being appropriate with respect to the investment policy of the Enlarged Asset Pool concerned) from each Participating Sub-Fund. Thereafter, the Investment Manager may, from time to time, make further transfers to the Enlarged Asset Pool. The Investment Manager may also transfer assets back from the Enlarged Asset Pool to a Participating Sub-Fund up to the amount of the participation of the relevant Participating Sub-Fund concerned.

There was no "Pooling of assets" applied for the Net Asset Value as at 31st December 2018 for the Sub-Funds.
