Note 1 - Significant accounting policies

a) Presentation of the financial statements

The financial statements of the Fund are established in accordance with the Luxembourg legal and regulatory requirements concerning Undertakings for Collective Investment and with generally accepted accounting principles in Luxembourg.

The financial statements have been prepared on a going concern basis.

b) Valuation

- i. Securities and/or financial derivative instruments listed on Regulated Markets, which operate regularly and are recognised and open to the public, are valued at the last available price; in the event that there should be several such markets, on the basis of the last available price of the main market for the relevant security. Should the last available price for a given security not truly reflect its fair market value, then that security shall be valued on the basis of the probable sales prices which the Board of Directors of the Fund deems is prudent to assume;
- ii. Securities and/or financial derivative instruments not listed on Regulated Markets, which operate regularly and are recognised and open to the public, are valued on the basis of their last available price. Should the last available price for a given security not truly reflect its fair market value, then that security will be valued by the Board of Directors of the Fund on the basis of the probable sales price which the Board of Directors of the Fund deems is prudent to assume;
- iii. Interest Rate and Cross Currency Swaps (CCIRS Swaps) are valued on a daily mark-to-market basis by calculating the present-value difference between the paying and the receiving legs. The calculation is performed with the help of the appropriate market conventions that are pertaining to the currencies traded in the Interest Rates and Cross Currency Swaps. The unrealised gains or losses are disclosed in the statement of net assets. The net variation of the unrealised gain/(loss) and net realised gain/(loss) are recorded in the statement of operations and other changes in net assets;
- iv. Liquid assets are valued at nominal value plus any accrued interest or on an amortised cost basis. All other assets, where practice allows, are valued in the same manner. Short-term investments that have a remaining maturity of one year or less are valued (i) at market value, or (ii) where market value is not available or not representative, at amortised cost. The captions "Other liquid assets" and "Other liquid liabilities" are mainly composed of cash accounts held at brokers;
- v. The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid, and not yet received is deemed to be the full amount thereof, unless, however, the same is unlikely to be paid or received in full, in which case the value thereof is determined after making such discount as the Board of Directors of the Fund may consider appropriate in such case to reflect the true value thereof.

c) Net realised gain/(loss) on securities portfolio

The net realised gain/(loss) on securities portfolio is determined on the basis of the average cost of securities sold. The net realised gain/(loss) on securities portfolio are recorded in the statement of operations and other changes in net assets.

d) Cost of securities

Note 5 - Performance fees

For the Sub-Fund PARETO SICAV - PARETO NORDIC ALPHA, with the exception of Class M Shares, the Investment Manager is entitled to receive out of the assets of the Sub-Fund a performance fee in respect of each Share Class.

The Performance Fee is calculated and accrued at each Valuation Point in respect of each Valuation Day (each Valuation Day being a **Calculation Period**) and is payable monthly in arrears.

For each Calculation Period, the Performance Fee for Class A and B Shares is equal to 20% of the amount by which the NAV per Share on each Valuation Day exceeds the High Water Mark after the application of the Hurdle Rate.

High Water Mark means the greater of the original issue price of Shares in the relevant Share Class and the highest NAV per Share achieved as at the end of any previous Calculation Period (if any).

Hurdle Rate means an annual rate of 2% of the year end High Water Mark of the relevant Share Class for the year immediately preceding the Calculation Period pro-rated for each Valuation Day in the applicable Calculation Period.

The previous year end High Water Mark of the relevant Share Class must increase by 2% on a pro-rated daily basis before the Performance Fee may become payable and accordingly, the Performance Fee is only calculated when the High Water Mark after application of the Hurdle Rate has been reached. The Hurdle Rate is separately determined for each year and pro-rated daily until the end of the current calendar year. The Hurdle Rate is cumulative from year to year. As at each Valuation Point, the Performance Fee will be calculated by reference to the NAV per Share attributable to the Share Class before making any deduction for Performance Fees.

At the date of the financial statements, a performance fee was due for the Sub-Fund PARETO SICAV - PARETO NORDIC ALPHA and amounted to NOK 3,551,635.96.

No performance fee is foreseen for the Sub-Funds PARETO SICAV - PARETO NORDIC CORPORATE BOND, PARETO SICAV - PARETO GLOBAL CORPORATE BOND, PARETO SICAV - PARETO NORDIC EQUITY and PARETO SICAV - PARETO NORDIC CROSS CREDIT.

A reduced rate of 0.01% per annum is applicable to Classes of Shares which are exclusively held by Institutional Investors.

Note 14 - Swing Pricing

A Sub-Fund may suffer a reduction in value as a result of the transaction costs incurred in the purchase and sale of its underlying investments and of the spread between the buying and selling prices of such investments caused by subscriptions, redemptions and/or switches in and out of the Sub-Funds. In order to counter this and to protect Shareholders' interests, the Directors may apply "swing pricing" as part of its daily valuation policy. This will mean that in certain circumstances the Directors may make adjustments in the calculations of the Net Asset Values per Share, to counter the impact of dealing and other costs on occasions when these are deemed to be significant in case net subscriptions or redemptions exceed a certain threshold as determined by the Directors. The Directors have delegated some of these powers to the Management Company. The adjustment of the Net Asset Value per Share shall not exceed 1% of the unadjusted Net Asset Value as of the relevant Valuation Day. The adjustments to the Net Asset Value per Share applicable on any Valuation Day shall be identical for all subscriptions dealt with as of such day in the relevant Sub-Fund.

For the avoidance of doubt, performance fees, if any, will be calculated on the basis of the unadjusted Net Asset Value.

As at 30th June 2020, no swing pricing was applied.

Note 17 - Subsequent events

Since the year end the Board of Directors has seen the development of the coronavirus covid-19 outbreak across the world. At present it is not possible to assess the detailed impact of the emerging risk, on the investments of the Fund but there is growing concern about the impact on the world economy. There has been a significant correction in the financial markets in the wake of the outbreak. However, the Board and the Management Company are of the opinion that these events do not impact the financial statements nor do they present any issues with regards to the going concerns of the Fund.
