

The Directors of Baron Capital UCITS ICAV (the “**ICAV**”) whose names appear in the “**Directory**” of the Prospectus accept responsibility for the information contained in this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement and the Prospectus is in accordance with the facts and does not omit any material information likely to affect the import of such information.

Baron Capital Emerging Markets Equity Fund

(A sub-fund of Baron Capital UCITS ICAV, an Irish collective asset management vehicle constituted as an umbrella fund with segregated liability between sub-funds and authorised by the Central Bank of Ireland pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended)

SUPPLEMENT

DATED 25 SEPTEMBER 2023

This Supplement forms part of, and should be read in the context of and together with, the Prospectus dated 25 September 2023 (the “**Prospectus**”) in relation to the ICAV and contains information relating to the Fund, which is a sub-fund of the ICAV.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

THE FUND

Any words or terms not defined in this Supplement have the same meaning given to them in the Prospectus.

The Fund

Baron Capital Emerging Markets Equity Fund is a sub-fund of the ICAV.

The Fund's Base Currency is USD.

For the Fund, every day (except Saturday or Sunday) on which banks in Ireland are ordinarily open for business is a Business Day.

Each Business Day shall be a Dealing Day in respect of the Fund, unless otherwise determined by the Directors and notified to Shareholders in advance.

The Fund's Net Asset Value is calculated at the Valuation Point on each Valuation Day and each Dealing Day shall be a Valuation Day.

Share Classes

The Fund currently offers certain Classes, which are divided into certain categories, the details of which are as follows:

Class Name	B	E	Z
Base Currency Classes Available	USD	USD	USD
Hedged Classes Available	None	None	None
Unhedged Classes Available	EUR GBP	EUR GBP	EUR GBP
Distribution Classes Available	No	No	No
Accumulation Classes Available	Yes	Yes	Yes

Investors should note that Class Z Shares are intended for institutional investors.

Please note that a list of the available Share Classes in the Fund has been included at Appendix 1 to this Supplement.

Investor Profile

Investment in the Fund is suitable for professional and retail investors who are seeking capital appreciation over the long term but who understand and can accept fluctuations in the value of the investments over the short term, which may temporarily even lead to a scenario of substantial loss of value.

INVESTMENT OBJECTIVE AND POLICIES

Investment Objective

The Fund's investment objective is to seek to achieve an attractive capital appreciation over long term primarily in equity securities issued or traded in emerging markets.

Investment Policy

The Fund seeks to achieve its investment objective by investing primarily in the equity securities described below, under "Asset Classes", issued by companies domiciled, headquartered or whose primary business activities or principal trading markets are in emerging markets located throughout the world.

The Investment Manager's approach to identifying equity securities is fundamental, bottom-up, and research driven. The Investment Manager identifies companies it believes have strong fundamentals, regardless of the macroeconomic environment. The Investment Manager invests with the intention of holding the investment for the long term. In particular, the Investment Manager seeks to identify whether companies have the following criteria:

1. Significant growth potential;
2. Durable competitive advantages;
3. Exceptional management; and
4. Compelling valuations relative to the Investment Manager's projections of intrinsic value.

The Investment Manager's portfolio managers and research analysts generate ideas, both independently and collaboratively. The team analyses fundamental financial information, such as income statement, cash flow statement, balance sheet, turnover, and other company-specific data, and meets with the management of the company. The team also analyses environmental, social, and governance ("ESG") factors relating to companies, with a view to identifying sustainability and investment risks and opportunities. The Investment Manager uses, for this purpose, the outcome of its own company and industry-specific ESG research, as well as third-party ESG ratings and research and ESG-specific engagements with investee companies. The Investment Manager applies an exclusionary screen which prohibits the set-up of potential investments in companies in the adult entertainment, civilian firearms, cluster munitions, and tobacco industries, as described in more detail in the SFDR appendix hereto. If a company passes this screen, it is eligible to be considered as a possible investment.

One outcome of the above process is a five-year proprietary valuation model to quantify a company's opportunities and risks, and to estimate the intrinsic value of its business. Each financial model includes five years of historical data and five years of forward-looking estimates. The models project revenues, earnings, and free cash flow.

A decision by the Investment Manager to invest or to sell an existing investment is informed by all of the foregoing but is not bound by any one particular element of it (save for the exclusionary screen, which is binding). In particular, the ESG research described above may not be conclusive or employed in the analysis of all companies, and securities of companies may be purchased and / or retained by the Fund for reasons other than ESG factors.

The Investment Manager's research analysts and portfolio managers regularly meet with management and review holdings, stock prices, and market conditions, as well as industry, demographic, and economic trends, throughout the life of an investment. They typically extrapolate trends that they believe may impact a business over the long term and modify their assumptions as necessary, which filter through their valuation models. The Investment Manager continues to hold a stock as long as it believes the stock can meet the Investment Manager's return expectations going forward.

Asset Classes

The Fund will invest primarily in the following securities which may be issued and listed or traded on Recognised Markets:

- **Equity and Equity-Related Securities:** Equity securities of companies of any sector or industry classification, which may include common stocks, depository receipts (American Depository Receipts, European Depository Receipts or Global Depository Receipts) and related securities such as preferred stocks, real estate investment trusts ("REITs"), private placement securities, (ie, securities which are not listed or traded on Recognised Markets, within the relevant UCITS limits) unlisted equity securities, initial public offerings (IPOs), secondary offerings, Rule 144A or Regulation S securities (securities offered outside of the US but which are exempt from the registration requirements of Section 5 of the US Securities Act of 1933), and convertible securities.

The Fund may invest in China A-Shares directly via the Stock Connect Programme as further described in the section "*Investment in Specific Countries*" under the heading "*Investment in China "A" Shares*". The Fund may invest directly or indirectly in Indian securities as a foreign portfolio investor ("FPI") as further described in the section "*Investment in Specific Countries*" under the heading "*Investment in India*". In addition, the Fund may invest in collective investment schemes (including exchange traded funds) which are themselves exposed to investments that are similar to the Fund's other investments under conditions as determined by the Investment Manager as part of the active strategy of the Fund. Such collective investment schemes may or may not be managed by the Investment Manager or its affiliates and will comply with the requirements of the UCITS Regulations in respect of such investments.

The Fund will not enter into repurchase agreements or reverse repurchase agreements. The Fund does not expect to enter into securities lending transactions, but may do so up to 25% of its Net Asset Value.

Cash management

The Fund may hold cash or invest its cash balances at such times deemed appropriate by the Investment Manager, pending investment of such cash or in order to fund anticipated expenses of the Fund or otherwise in the sole discretion of the Investment Manager. These investments will be high quality, liquid assets, such as investment grade, short-term debt securities which are listed, traded or dealt in on Recognised Markets and/or cash and cash equivalents (including UCITS eligible money market funds, UCITS eligible passive index tracking ETFs and cash deposits and near cash instruments, such as bank certificates of deposit or bank deposits with credit institutions).

Leverage

The global exposure of the Fund is calculated using the commitment approach described in the Prospectus.

Benchmarks

The Fund is actively managed. It does not track or seek to replicate the composition of any index or benchmark and is not constrained by any index or benchmark. Benchmarks may be used from time to time as performance comparators.

INVESTMENT IN SPECIFIC COUNTRIES

The Investment Manager may invest in developed and emerging markets located throughout the world, including in particular those described below.

Investment in China "A" Shares

The Fund may have exposure to China "A" shares directly via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect (the "**Stock Connect Programs**").

China "A" Shares are shares of companies incorporated in the People's Republic of China ("**PRC**") and listed on the Shanghai Stock Exchange ("**SSE**") and Shenzhen Stock Exchange ("**SZSE**") that may be subscribed for and traded in RMB via the Stock Connect Programs. The Stock Connect Programs are securities trading and clearing linked programs developed by The Stock Exchange of Hong Kong Limited, the SSE, the SZSE and China Securities Depository and Clearing Corporation Limited.

The Fund may invest in other types of securities issued by Chinese companies, including China B Shares (being shares of Chinese companies denominated in currencies other than Renminbi and traded on the Shanghai or Shenzhen stock exchanges) and China H Shares (being shares of Chinese companies listed in Hong Kong and quoted in Hong Kong Dollars).

Investment in India

The Fund may invest in equities and equity-related securities of issuers based in India.

The Fund will obtain and hold all necessary licenses from local regulatory authorities for investing in India. The Fund will be classed in India as a FPI. Any equities and equity-related securities of issuers based in India will be registered and held on behalf of the Fund by one of the sub-custodians listed in the Prospectus.

The Fund will be registered as a FPI with the Securities and Exchange Board of India ("**SEBI**") under the SEBI (Foreign Portfolio Investors) Regulations 2014 to be eligible to invest in the Indian capital market. SEBI approved Designated Depository Participants ("**DDPs**") register FPIs on behalf of the SEBI subject to compliance with "Know Your Client" or "KYC" requirements.

Under the FPI regime, the Fund may not purchase more than 10% of the total issued capital of an Indian company. This investment control is subject to change from time to time and is monitored by the DDPs and the Investment Manager.

SUBSCRIPTION AND REDEMPTION OF SHARES

Shares in the Fund will be issued and redeemed on the terms and in accordance with the procedures described in the Prospectus. For detailed information concerning subscriptions and redemptions, please consult the sections under the heading “*Subscription for Shares*” and “*Redemption of Shares*” in the Prospectus. Details specific to the Fund and the Classes are set out below.

The Fund currently offers the Classes of Shares as set out above in the section entitled “The Fund” and the Classes possess the following features relevant to subscriptions and redemptions:

Class Categories			
Class Name	B	E	Z
Minimum Initial Subscription Amount	USD 1,000 EUR 1,000 GBP 1,000	USD 1,000,000 EUR 1,000,000 GBP 1,000,000	USD 10,000,000 EUR 10,000,000 GBP 10,000,000
Minimum Additional Subscription Amount	N/A	N/A	N/A
Minimum Holding Amount	N/A	N/A	N/A
Minimum Redemption Amount	N/A	N/A	N/A
Maximum Subscription Fee	5%	5%	5%
Maximum Redemption Fee	3%	3%	3%
Initial Offer Price#	USD 100 EUR 100 GBP 100	USD 100 EUR 100 GBP 100	USD 100 EUR 100 GBP 100
Valuation Point	4 pm (U.S. EST) on the relevant Dealing Day or such other time as the Directors shall determine		
Dealing Deadline for Subscriptions	2 pm (Irish time) one Business Day immediately preceding the relevant Dealing Day		
Settlement Deadline for Subscriptions	Close of business (Irish time) on the second Business Day following the relevant Dealing Day		
Dealing Deadline for Redemptions	2 pm (Irish time) one Business Day immediately preceding the relevant Dealing Day		
Target Settlement of Redemption Payments	Close of business two Business Days following the relevant Dealing Day		

Certain Share Classes¹ have been established for the purposes of receiving investors following a cross border merger of Baron Emerging Markets Equity, a sub-fund of Multipartner SICAV, an existing UCITS domiciled in Luxembourg (the “**Existing UCITS**”). As those Share Classes will only launch as a result of this merger, the initial offer price will be set on the date of the merger to align with the net asset value of the equivalent shares in the Existing UCITS. The net asset value of the equivalent shares in the Existing UCITS just prior to the date of this Supplement is set out below. The net asset value of the equivalent shares in the Existing UCITS on the date the merger (ie, the initial offer price for the relevant Share Classes in the Fund) will be communicated to investors once the Shares in the Fund have been issued. Investors should note that that that price will likely be different, and may be materially different, to the price set out below.

Shares in the Existing UCITS	Net asset value per share
B EUR Acc	€81.24
B GBP Acc	£82.83
E EUR Acc	€83.22
E GBP Acc	£84.85

¹ Class B (EUR Unhedged) (Acc), Class B (GBP Unhedged) (Acc), Class E (EUR Unhedged) (Acc), Class E (GBP Unhedged) (Acc)

RISK CONSIDERATIONS

There can be no assurance that the Fund's investments will be successful or that the investment objective of the Fund will be achieved. Investors should be aware of the risks of the Fund described in the **Risk Considerations** section of the Prospectus (including in particular those regarding emerging markets) and below. An investment in the Fund is suitable only for persons who are in a position to take such risks.

Emerging Markets and Developing Countries Risk

In connection with the Fund's investment in emerging market and developing countries, potential investors are warned that investing in the emerging market countries involves a higher risk. In particular, there is the risk of:

- a) a possibly lower or totally absent trading volumes in securities on the relevant securities market, leading to liquidity bottlenecks and relatively greater price fluctuations;
- b) uncertain political, commercial and social circumstances, with the attendant danger of disenfranchisement or confiscation, extraordinary high inflation, prohibitive tax measures and other negative developments;
- c) possible major fluctuations in currency exchange rates, changes to legal regulations, existing or possible currency export restrictions, customs and other restrictions, and other legal or other restrictions which may apply to investments;
- d) domestic or other circumstances which could limit the Fund's investment possibilities, for example, restrictions on the part of issuers or industries regarded as crucial to national interests; and
- e) the absence of an adequate developed legal framework for private or foreign investments and the risk of absent guarantees of private ownership.

Furthermore, currency export restrictions or other associated regulations in these countries could fully or partly delay or prevent the repatriation of investments, resulting in possible delays with payment of redemption proceeds.

Sustainability Risk

The market value of investments of the Fund are subject to the sustainability risks described in the Prospectus. The likely impact of such sustainability risks on the Fund is assessed by the Investment Manager on an ongoing basis. In addition, through the values and norms based exclusionary screen, all relevant sustainability risks that could have a significant impact on an investment, including those that could have a significant negative impact on the return of an investment, are taken into account. Sustainability risk may increase the Fund's volatility and / or magnify pre-existing risks to the Fund and may have a significant negative impact on the value of the portfolio. Sustainability risk may be particularly acute if it occurs in an unanticipated or sudden manner and it may also cause investors to reconsider their investment in the Fund and create further downward pressure on the value of the Fund.

Sustainable Investments

Although the Investment Manager considers sustainability risk as a core part of its investment process and promotes environmental and social characteristics through the use of the exclusionary screen, it does not have a sustainable investment objective and does not commit to any minimum level of investment in sustainable investments.

DIVIDEND POLICY

As at the date hereof, the Fund offers only Accumulating Class. The Directors do not currently intend to declare any dividends with respect to such Classes and net investment income on the Fund's investments attributable to each Class is expected to be retained by the Fund, which will result in an increase in the Net Asset Value per Share of the relevant Class.

The Directors nevertheless retain the right to declare dividends in respect of such net investment income on the Fund's investments in their sole discretion. In the event that the Directors determine to declare dividends in respect of any Class of Shares on a once-off basis, Shareholders will be notified in advance, including the date by which distributions will be paid and the method by which distributions will be paid. In the event that the Directors determine to change the distribution policy (eg, by declaring distributions on a regular basis), Shareholders will be notified in advance and full details of the new policy will be disclosed in an updated Supplement.

FEES AND EXPENSES

The Investment Manager receives an investment management fee (up to the annual percentage of the Net Asset Value set out below, accruing daily and paid monthly in arrears) (the "**Investment Management Fee**"). The Fund is also responsible for the payment of (a) fees to the Management Company, Administrator and Depositary and (b) the Core Operating and Administrative Expenses (together, the "**Other Expenses**"). The Core Operating and Administrative Expenses (as described in the Prospectus) vary over time but are not anticipated to exceed the amount set out below. This notwithstanding, the Investment Management Fee and the Other Expenses are capped (the "**Capped Amount**").

Share Class	Investment Management Fee rate	Other Expenses	Capped Amount
B	1.85%	0.70%	2.70%
E	1.20%	0.70%	2.05%
Z	0.85%	0.70%	1.70%

Where the Investment Management Fee and the Other Expenses are greater than the Capped Amount, the Investment Manager shall waive such portion of the Investment Management Fee as is necessary to ensure that the amount paid by the Fund does not exceed the Capped Amount. In the event that this waiver is not sufficient, the Investment Manager shall pay the excess itself (ie, the Fund shall not pay more than the Capped Amount).

Where the Investment Management Fee and the Other Expenses are less than the Capped Amount, the Fund pays only the Investment Management Fee and the Other Expenses.

APPENDIX 1 – LIST OF SHARE CLASSES

- (ix) Class Z (GBP Unhedged) (Acc)

APPENDIX 2 – SFDR ANNEX

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Baron Capital Emerging Markets Equity Fund (the "Fund")

Legal entity identifier: [●]

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

Yes

No

It will make a minimum of **sustainable investments with an environmental objective: ___%**

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It will make a minimum of **sustainable investments with a social objective: ___%**

It promotes Environmental/ Social (E/S) characteristics and while it does not have as its objective a sustainable investment, it will have a minimum proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promotes E/S characteristics, but **will not make any sustainable investments**

While the Fund promotes environmental and social characteristics and makes no minimum percentage commitment to making sustainable investments, it also does not exclude investment in any type of sustainable investment and in practice the Fund may (but is not required to) make some sustainable investments.

What environmental and/or social characteristics are promoted by this financial product?

The Fund promotes among other characteristics, the following environmental/social ("E/S") characteristics through (a) its consideration of a number of sustainability indicators and (b) the application of an exclusionary screen:

- E/S characteristics promoted: social justice, gender equality, gun control and community health.

Through its exclusion criteria, the Fund promotes certain norms and values by excluding issuers that are directly involved in, and/or derive a certain amount of revenue from, the manufacture, production, distribution or supply of products relating to the adult entertainment, civilian firearms, tobacco, and cluster munitions industries.

The Fund methodically exercises its voting rights, and may engage with the management of companies on material ESG issues and may discontinue investment if progress proves unsatisfactory.

Please refer to the exclusions policy for the Fund at www.baronfunds.com/sites/default/files/Baron-Exclusion-Policy-May-2023.pdf for further information.

The Fund does not use any indices as reference benchmarks.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?

The Investment Manager applies an exclusionary screen, which excludes companies involved in adult entertainment, civilian firearms, cluster munitions, and tobacco (as described in more detail below).

The Investment Manager considers a number of sustainability indicators that are deemed to be material in its investment process. A decision by the Investment Manager to invest (or to sell an existing investment) is informed by these indicators (as well as other non-ESG related indicators) but the Investment Manager is not bound by any one indicator. In particular, the Investment Manager's views regarding these sustainability indicators may not be conclusive or employed in the analysis of all companies and securities of companies may be purchased and or retained for reasons other than ESG factors. The relevant sustainability indicators are:

Category	Indicator
Environmental	<ul style="list-style-type: none"> • Climate change • Supply chain • Opportunities in cleantech • Circular economy • Pollution prevention & control • Water stress
Social	<ul style="list-style-type: none"> • Human capital management • Employee safety & treatment • Cybersecurity/Data privacy • Diversity & discrimination • Supply chain • Product quality and safety • Access to healthcare • Access to finance • Access to communications
Governance	<ul style="list-style-type: none"> • Board & management • Diversity • Business ethics • Corporate structure • Bribery & corruption • Compensation • Accounting & taxation • Lobbying & public policy

What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?

The Fund does not commit to investing in sustainable investments.

How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

- How have the indicators for adverse impacts on sustainability factors been taken into account?

Not applicable.

- How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Does this financial product consider principal adverse impacts on sustainability factors?

Yes

No

The Investment Manager does not currently consider the principal adverse impacts (“PAIs”) of investment decisions on sustainability factors, within the meaning of Article 7 of the SFDR, as they relate to the management of the Fund.

Meaningful consideration of PAIs is not currently possible due to the difficulty in obtaining the requisite data on which the Investment Manager, would be obligated to report on in accordance with the SFDR, and in any case, the possibility that such data may be incomplete, estimated, out of date and/or otherwise inaccurate. This is partially due to the fact that investee companies and/or underlying issuers are often not obligated to - and do not currently - report by reference to the same data.

Notwithstanding the aforementioned barriers to the identification and prioritisation of PAIs, the Investment Manager will re-evaluate its position on a periodic basis, giving due consideration to market developments

What investment strategy does this financial product follow?

The Fund invests primarily in equity securities issued by companies domiciled, headquartered or whose primary business activities or principal trading markets are in emerging markets located throughout the world.

The Investment Manager's approach to identifying equity securities is fundamental, bottom-up, and research driven. The Investment Manager identifies companies it believes have strong fundamentals, regardless of the macroeconomic environment, and it invests for the long term. The Investment Manager's portfolio managers and research analysts generate ideas, both independently and collaboratively. Companies identified in this way are first assessed against an exclusionary screen (described below). Companies that pass the screen are then researched by the Investment Manager's own research team. The team analyses fundamental financial information, as well as environmental, social, and governance information (namely the sustainability indicators described above).

A decision by the Investment Manager to invest (or to sell an existing investment) is informed by all of the foregoing but is not bound by any one particular element of it (save for the screen, which is binding). In particular, the consideration of sustainability indicators described above may not be conclusive or employed in the analysis of all companies, and securities of companies may be purchased and / or retained by the Fund for reasons other than ESG factors.

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?

As described above, the exclusion policy screen is the sole binding element of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product. The screen covers investment in adult entertainment, civilian firearms, cluster munitions, and tobacco, as follows:

- **Adult Entertainment**
The Investment Manager's portfolio managers are prohibited from purchasing securities of businesses that are involved in the production, distribution or retailing of adult entertainment products. The Investment Manager defines adult entertainment products as material in which the dominant theme is sexually explicit conduct, specifically the depiction or description of sexual activities in a lascivious way.
- **Civilian Firearms**
The Investment Manager's portfolio managers will not purchase securities of businesses that manufacture handguns, pistols, shotguns, rifles, revolvers, and ammunition for civilian use. The Investment Manager does not exclude businesses whose products are sold to governments or are for military or police use.
- **Cluster Munitions**
The Investment Manager's portfolio managers will not purchase securities of businesses that are involved in using, developing, producing, acquiring, stockpiling, retaining or transferring cluster munitions.
- **Tobacco**
The Investment Manager's portfolio managers will not purchase securities of businesses that produce, distribute, retail, license, or supply key tobacco products and services.

Companies will be added to the exclusion list if MSCI's ESG Business Involvement Screening Research (BISR) identifies them as being directly involved in adult

entertainment, civilian firearms, cluster munitions or tobacco and if they derive a certain amount of revenue from their involvement.

The activities and thresholds are as follows:

- 5% or more of revenue is derived from production activities
- 10% or more of revenue is derived from distributing, retailing, supplying or licensing activities
- 10% or more of revenue from a combination of the above-mentioned business activities

Further details on the MSCI's ESG BISR may be found here <https://www.msci.com/documents/1296102/14524248/MSCI+ESG+Research+BISR+Methodology+Overview.pdf>.

The exclusion list includes primary and secondary listings.

The third-party dataset that the Investment Manager uses may not identify every company, directly or indirectly, involved in activities the Investment Manager seeks to avoid, and the Investment Manager recognizes that different systems may estimate exposures using different methods and assumptions, producing disparate results. If an existing holding becomes involved in any of these areas directly or indirectly, or if a business in which the Investment Manager invests acquires part or all of a business engaged in these activities, the research analyst covering the company, the portfolio manager who invested in the business, and the Investment Manager will evaluate the activity and exposures collaboratively and determine if continuing to own the company complies with the exclusionary policy. The Investment Manager occasionally invests in private companies within the relevant UCITS limits, which would not be captured by the MSCI data. In these instances, it is the responsibility of the analyst covering the stock and the portfolio manager who wants to invest in it to provide research and analysis supporting their assessment that an investment in the private business would comply with the exclusionary policy prior to initiating security set up.

● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

The Fund does not apply a commitment minimum rate to reduce the scope of investments prior to the application of the investment strategy.

● ***What is the policy to assess good governance practices of the investee companies?***

The good governance of the investee companies is assessed during research and due diligence process against key governance and business integrity requirements, including: how well the companies' interests align with the interests of minority shareholders, number of independent directors, reasonable compensation practices, and transparent management teams that think and act like owners. The Investment Manager looks for demonstrable alignment among the interests of shareholders, management, and the owners/founders.

In addition, the Investment Manager adopts a proxy voting policy, which is designed to support good governance policies, and it has a separate section providing guidance on ESG and disclosure proposals. The Investment Manager has created processes to include engagement with companies on ESG issues on the basis that direct communication and engagement between investors and companies on ESG matters is an important element of the portfolio management services provided to clients and investors. The Investment Manager analyzes each shareholder proposal related to these topics on a case-by-case basis. Engagement may lead to making decisions that favour actions on a variety of factors that intend to maximize an investee company's shareholder value and contribute to the Investment Manager's overall research on, and developing a holistic view of, the investee company. The Investment Manager's voting behaviour and use of proxy service advisors has been consistent with its proxy voting policy.

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

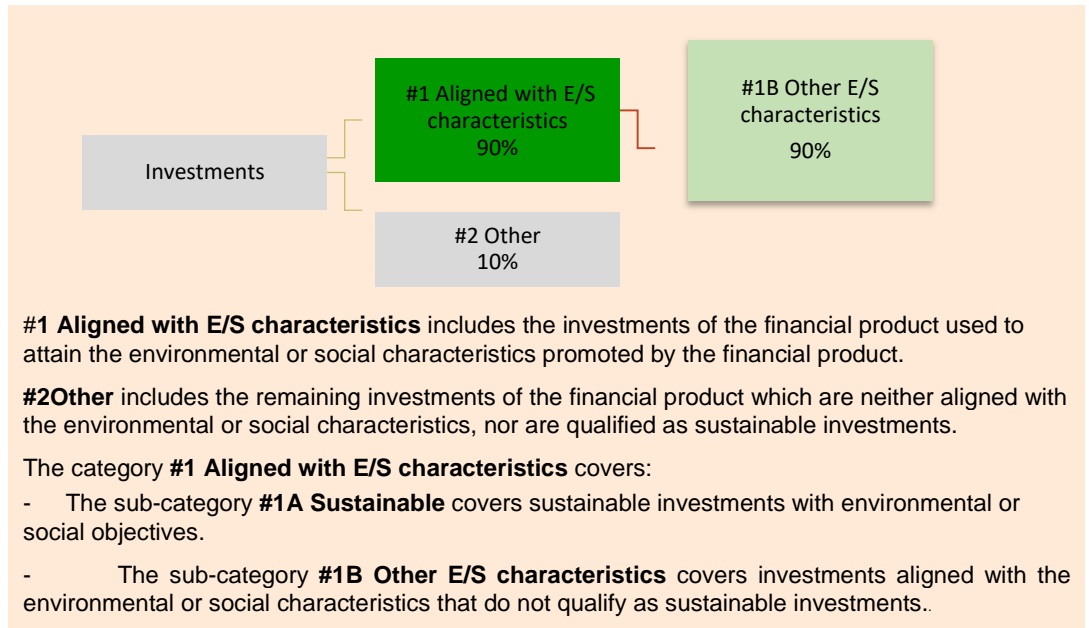

What is the asset allocation planned for this financial product?

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

turnover reflecting the share of revenue from green activities of investee companies
capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
operational expenditure (OpEx) reflecting green operational activities of investee companies.

As noted above, the sole binding element of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by the Fund is the exclusionary screen. Every company in which the Fund invests must pass the screen. The Fund may also invest up to 10%, for cash management purposes, in cash and cash equivalents; as such 90% of the Fund's portfolio is aligned with the binding environmental and social characteristic.

How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?

The Fund does not intend to use derivatives to attain the environmental or social characteristics promoted.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund promotes environmental and social characteristics within the meaning of Article 8 of the SFDR, it does not currently commit to investing in any "sustainable investments" within the meaning of the SFDR.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on

emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

 are sustainable

Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy²

Yes:

In fossil gas In nuclear energy

No

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What is the minimum share of investments in transitional and enabling activities?

The Fund does not commit to make investments that are aligned with the EU Taxonomy.

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

The Fund does not commit to a minimum share of sustainable investments.

² Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulations (EU) 2022/1214.

investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What is the minimum share of socially sustainable investments?

The Fund does not commit to investing in socially sustainable investments.

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

Investments referred to under “#2 Other” include cash and cash equivalents for liquidity management purposes. Given the nature of such investments, no environmental or social safeguards are applied.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

The Fund does not use a designated index to reference benchmark its investments, neither in terms of financial performance, nor in terms of benchmarking whether it is aligned with the environmental and/or social characteristics that the Fund promotes.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?

Not applicable.

How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?

Not applicable.

How does the designated index differ from a relevant broad market index?

Not applicable.

Where can the methodology used for the calculation of the designated index be found?

Not applicable.

Where can I find more product specific information online?
