## What is this product?

#### Type

Investment Company (SICAV), Luxembourg

#### Term

This sub-fund has no maturity date. However, the board of directors may decide to close the sub-fund under certain circumstances.

#### Objectives

The sub-fund aims to achieve long term returns on a risk adjusted basis.

The sub-fund seeks to achieve its objective through investments on a global scale, investing mainly in exchange traded funds (ETFs).

The investment methodology is predominately based on statistical analysis based on volatility data and market price analysis done by relative accounting measures, such as price to book ratio, price to earnings ratio and dividend yield. These methods are applied in the selection process together with analysis of special events. The sub-fund can from time to time invest up to 30% of its assets in cash and cash related instruments.

The sub-fund may invest in financial derivative instruments to achieve the sub-fund's investment objective and to mitigate risks.

**Benchmark:** The portfolio is actively managed on a discretionary basis without reference to a benchmark.

#### Intended retail investor

This fund may not be appropriate for investors who plan to withdraw their money within 3-5 years.

#### Other information

**Depositary:** Skandinaviska Enskilda Banken. AB (publ) – Luxembourg Branch

**Dividend income:** This class is a capitalisation class meaning that income is reinvested.

**Conversion right:** The investor has the right to convert his investment in units in one sub-fund for units in the same sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

**Segregation:** The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

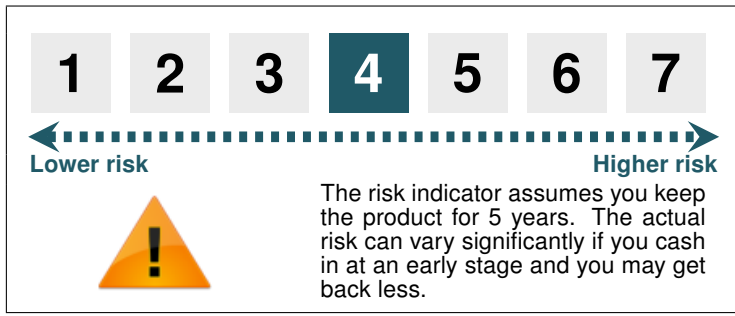

**Additional information:** Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of units may be obtained free of charge from the management company or on [fundinfo.fundrock.com/SEBPrimeSolutions/](http://fundinfo.fundrock.com/SEBPrimeSolutions/). The prospectus and the periodic reports are prepared for the entire fund and are available in English. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 2014 and this unit class in 2016.

The reference currency of the sub-fund is expressed in NOK. The currency of the unit class is expressed in NOK.

## What are the risks and what could I get in return?

### Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium

### Performance scenarios

Recommended holding period: 5 years Example investment: 100,000 NOK		If you exit after 1 year	If you exit after 5 years (recommended holding period)
<b>Scenarios</b>			
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>		
<b>Stress</b>	<b>What you might get back after costs</b>	26,380 NOK	24,560 NOK
	Average return each year	-73.6 %	-24.5 %
<b>Unfavourable</b>	<b>What you might get back after costs</b>	88,320 NOK	49,560 NOK
	Average return each year	-11.7 %	-13.1 %
<b>Moderate</b>	<b>What you might get back after costs</b>	109,770 NOK	136,770 NOK
	Average return each year	9.8 %	6.5 %
<b>Favourable</b>	<b>What you might get back after costs</b>	123,580 NOK	156,870 NOK
	Average return each year	23.6 %	9.4 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

**Be aware of currency risk.** You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: Derivatives Risk, Counterparty Risk, Operational Risk

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

This type of scenario occurred for an investment between 2012 and 2022, by referring to a benchmark between 2012 and 2014, and to a reference class between 2014 and 2016.

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if FundRock Management Company S.A. is unable to pay out?

The Management Company is responsible for administration and management of the sub-fund, and does not typically hold assets of the sub-fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Management Company, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the sub-fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 100,000 NOK is invested

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	1,800 NOK	11,976 NOK
Annual cost impact (*)	1.8 %	1.8 % each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.3% before costs and 6.5% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
