

SEB PRIME SOLUTIONS

(the "Company"),

an umbrella investment company with variable share capital incorporated

in the Grand Duchy of Luxembourg

Prospectus for Switzerland

28 February 2021

IMPORTANT INFORMATION

THIS DOCUMENT IS IMPORTANT. IF YOU ARE IN ANY DOUBT ABOUT THE CONTENTS OF THIS PROSPECTUS AND THE ANNEXES RELATING TO THE SUB-FUNDS, THEN YOU SHOULD CONSULT YOUR STOCKBROKER, BANK MANAGER, SOLICITOR, LAWYER, ACCOUNTANT OR OTHER FINANCIAL ADVISER AUTHORISED TO PROVIDE INDEPENDENT ADVICE ON THE ACQUISITION OF SHARES AND OTHER SECURITIES UNDER THE APPLICABLE LOCAL LAW.

The contents of this Prospectus are not intended to contain and should not be regarded as containing advice relating to legal, taxation, investment or any other matters and prospective investors are recommended to consult their own professional advisers for any advice concerning the acquisition, holding or disposal of any Shares.

Before making an investment decision with respect to any Shares, prospective investors should carefully consider all of the information set out in this Prospectus and the relevant Annexes as well as their personal circumstances. Prospective investors should have regard to, among other matters, the considerations described under the heading "RISK FACTORS" in this Prospectus and the statements set out under the heading "RISK PROFILE" and "SPECIFIC RISK CONSIDERATIONS" in the relevant Annexes.

An investment in the Shares is only suitable for investors who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom.

General

Shares in the Company are offered on the basis of the information and the representations contained in the current Prospectus accompanied by the latest annual report and semi-annual report, if published after the latest annual report, as well as the documents mentioned herein which may be inspected by the public at the registered office of the Company. The Company also publishes a key investor information document (KIID) which may be obtained free of charge at the registered office of the Company. Any further information given or representations made by any dealer, salesman or other person must not be relied upon as being authorised by the Company. Recipients of this document should note that there may have been changes in the affairs of the Company since the date hereof.

Investors must also refer to the relevant Annexes attached to the Prospectus. Each Annex sets out the specific objectives, policy and other features of the relevant Sub-Fund to which the Annex relates as well as risk factors and other information specific to the relevant Sub-Fund.

All Shareholders are entitled to the benefit of, are bound by and are deemed to have notice of, the provisions of the Prospectus, the Annexes and Articles of the Company.

Definitions

Unless the context otherwise requires, or as otherwise provided in this Prospectus, capitalised words and expressions shall bear the respective meanings ascribed thereto under the heading "DEFINITIONS".

Use of Derivatives

The Company is allowed to use derivatives and some Sub-Funds will use derivatives as part of their investment policy.

While the prudent use of derivatives can be beneficial, derivatives also involve risks different from, and, in certain cases, greater than, the risks presented by more traditional investments. A detailed description of the risks relating to the use of derivatives may be found under heading "Use of Derivatives" of Section 6. The Annex relating to each

Sub-Fund will give more precise information on the derivatives, if any, used by the Sub-Fund other than for hedging purposes.

Investment Risks

There can be no assurance that the Company will achieve its investment objectives in respect of any Sub-Fund. An investment in the Company involves investment risks including those set out herein under the heading "RISK FACTORS" and as may be set out in the relevant Annexes.

Any investment in any Sub-Fund should be viewed as a medium to long-term investment (depending on the specific investment objective of the relevant Sub-Funds). Shares may however be redeemed on each Valuation Day, unless otherwise stipulated in the relevant Annex. The risk profile of investors in a particular Sub-Fund will be specified in the relevant Annex.

The price of the Shares of any Sub-Fund can go down as well as up and their value is not guaranteed. Shareholders may not receive the amount that they originally invested in any Class of Shares or any amount at all.

Listing on Stock Exchanges

If it is intended to apply for the admission of Shares (or Classes of Shares) of a Sub-Fund for listing on the Luxembourg Stock Exchange and/or on any other stock exchange; this will be disclosed in the relevant Annexes.

Selling Restrictions

The distribution of this Prospectus and the offering or purchase of Shares may be restricted in certain jurisdictions. This Prospectus does not constitute an offer of or invitation or solicitation to subscribe for or acquire any Shares in any jurisdiction in which such offer or solicitation is not permitted, authorised or unlawful. Persons receiving a copy of this Prospectus in any jurisdiction may not treat this Prospectus as constituting an offer, invitation or solicitation to them to subscribe for Shares notwithstanding that, in the relevant jurisdiction, such an offer, invitation or solicitation could lawfully be made to them without compliance with any registration or other legal requirement. It is the responsibility of any persons in possession of this Prospectus and any persons wishing to apply for Shares to inform themselves of, and to observe, all applicable laws and regulations of any relevant jurisdiction. Prospective applicants for Shares should inform themselves as to the legal requirements of so applying, and any applicable exchange control regulations and taxes in the countries of their respective citizenship, residence or domicile.

Prospective investors may subscribe for Shares by completing the applicable application form which will be available from the Administrative Agent.

The Shares have not been, and will not be, registered under the Securities Act or the securities laws of any of the states of the United States and the Company has not been, and will not be, registered under the Investment Company Act or the laws of any of the states of the United States. Accordingly, no securities regulatory authority or commission in the United States, including the US Securities and Exchange Commission, has passed upon the value of the Shares, made any recommendations as to their purchase, approved or disapproved of the offering of Shares for sale, or passed upon the adequacy of this Prospectus or any Annex. Any contrary representation is a criminal offence.

The Shares may not be offered, sold or pledged or otherwise transferred directly or indirectly in the United States or to or for the account or benefit of any US Person, except pursuant to an exemption from, or in a transaction not subject to the requirements of, the Securities Act and any applicable US state securities laws. The Shares are being offered and sold only outside the United States to persons other than US Persons in offshore transactions that meet the requirements of Regulation S under the Securities Act. There is no public market for Shares, and no such market is expected to develop in the future. The Shares are subject to restrictions on transferability and may not be transferred or re-sold except pursuant to an exemption from registration under the Securities Act. In the absence of an exemption, any resale or transfer of any of the Shares in the United States or to US Persons may constitute a violation of US law. Purchasers of Shares should be aware that they may be required to bear the financial risks of an

investment in the Shares for an indefinite period of time.

The Company will not be registered under the Investment Company Act in reliance on the exception provided by Section 3(c)(7) thereof, which is available to certain issuers that are not making or proposing to make a public offering of their securities in the United States. Shareholders will not therefore be entitled to the benefits of the Investment Company Act. The outstanding securities of non-US issuers relying on Section 3(c)(7), to the extent that they are owned by US Persons must be owned exclusively by persons who, at the time of acquisition of such securities, are "qualified purchasers" within the meaning of Section 2(a)(51) of the Investment Company Act.

Each applicant for Shares must certify that it is, among other things, acquiring the Shares purchased by it for investment purposes and not with a view to, or for offer or resale in connection with, any distribution in violation of the Securities Act or other applicable securities law, and that it is either (a) not a US Person or (b) a "qualified purchaser" within the meaning of Section 2(a)(51) of the Investment Company Act. Certificated Shares sold outside the United States to persons other than US Persons in offshore transactions that meet the requirements of Regulation S under the Securities Act will bear a legend to the following effect.

THE SHARES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "**SECURITIES ACT**") OR WITH ANY SECURITIES REGULATORY AUTHORITY OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES AND, ACCORDINGLY, MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, US PERSONS (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT) EXCEPT PURSUANT TO AN EXEMPTION FROM, OR IN A TRANSACTION NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS UNDER THE SECURITIES ACT OR PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER THE SECURITIES ACT AS ILLUSTRATED ABOVE.

Certificated Shares sold to US Persons who are "qualified purchasers" within the meaning of Section 2(a)(51) of the Investment Company Act will bear a legend to the following effect.

THE SHARES HAVE NOT BEEN REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "**SECURITIES ACT**") OR WITH ANY SECURITIES REGULATORY AUTHORITY OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES AND UNLESS SO REGISTERED, MAY NOT BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED EXCEPT PURSUANT TO AN EXEMPTION FROM, OR IN A TRANSACTION NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS UNDER THE SECURITIES ACT AND APPLICABLE STATE SECURITIES LAWS AS ILLUSTRATED ABOVE. THE ISSUER OF THIS SECURITY HAS NOT AND WILL NOT BE REGISTERED AS AN "INVESTMENT COMPANY" UNDER THE INVESTMENT COMPANY ACT OF 1940, AS AMENDED, AND INVESTORS WILL NOT BE ENTITLED TO THE BENEFITS OF THAT ACT. FURTHER OFFERS AND SALES OF THIS SECURITY ARE SUBJECT TO CERTAIN TRANSFER RESTRICTIONS, AS SET FORTH IN THE APPLICATION FORM EXECUTED ON OR BEHALF OF THE HOLDER HEREOF OR IN THE ARTICLES OF ASSOCIATION OF THE ISSUER.

The Company reserves the right to redeem any Shares which are or become owned, directly or indirectly, by a Restricted Person or (a) in the case of Regulation S Shares, are or become owned, directly or indirectly, by a US Person or (b) in the case of US Person Shares, are or become owned, directly or indirectly, by a US Person who is not a "qualified purchaser" within the meaning of Section 2(a)(51) of the Investment Company Act. The Articles of Association of the Company give powers to the Directors to impose other restrictions for the purpose of ensuring that no Shares are acquired, held by or transferred to any Restricted Person or (a) in the case of Regulation S Shares, are acquired, held by or transferred to a US Person or (b) in the case of US Person Shares, are acquired, held by or transferred to a US Person who is not a "qualified purchaser" within the meaning of Section 2(a)(51) of the Investment Company Act.

Investor rights

The Company draws the investors' attention to the fact that any investor will only be able to fully exercise its investor rights directly against the Company, notably the right to participate in general shareholders' meetings if the investor is registered itself and the investor's own name appears in the shareholders' register of the Company. In cases where an investor invests in the Company through an intermediary, investing into the Company in its own name but on behalf of the investor, it may not always be possible for the investor to exercise certain shareholder rights directly against the Company. Investors are advised to take advice on their rights.

Data protection

Personal data related to identified or identifiable natural persons provided to, collected or otherwise obtained by or on behalf of, the Company and the Management Company (the "Controllers") will be processed by the Controllers in accordance with the "Joint Data Controller Clause" which is available and can be accessed or obtained online (<https://www.fundrock.com/joint-data-controller-clause/>). All persons contacting, or otherwise dealing directly or indirectly with any of the Controllers are invited to read and carefully consider the Joint Data Controller Clause, prior to contacting or otherwise so dealing, and in any event prior to providing or causing the provision of any personal data directly or indirectly to the Controllers.

1. Definitions

In this Prospectus, the following defined terms shall have the following meanings:

"Administrative Agent"	Means European Fund Administration S.A., acting as Administrative Agent;
"Administrative Agent, Registrar and Transfer Agent Agreement"	Means the agreement dated on 1 January 2017 between the Management Company and European Fund Administration S.A. as amended, supplemented or otherwise modified from time to time;
"Annex"	Means each and every annex to this Prospectus describing the specific features of a Sub-Fund. Each annex is to be regarded as an integral part of the Prospectus;
"Articles" or "Articles of Association"	Means the articles of association of the Company as the same may be amended, supplemented or otherwise modified from time to time;
"Banking Day"	Means a full day on which banks are open for business in Luxembourg, unless indicated to the contrary in the relevant Annex;
"Board of Directors"	Means the board of directors of the Company;
"Class"	Means a Class or Classes of Shares relating to a Sub-Fund for which specific features with respect to fee structures, distribution, marketing target or other specific features may be applicable. The details applicable to each Class will be described in the relevant Annex;
"Clearstream Luxembourg"	Means Clearstream Banking S.A.;
"Company"	Means SEB PRIME SOLUTIONS, a limited company incorporated as an investment company with variable capital under the laws of the Grand Duchy of Luxembourg and registered pursuant to Part I of the Luxembourg Law of 17 December 2010;
"CSSF"	Means the <i>Commission de Surveillance du Secteur Financier</i> , Grand Duchy of Luxembourg;
"Conversion Charge"	Means the conversion charge levied by the Company and/or the Global Distributor in relation to the conversion of Shares of any Class into Shares of any other Class in any Sub-Fund, details of which are set out in the Annex relating to the relevant Sub-Fund. The Conversion Charge is to be considered as a maximum rate and the Board of Directors

r may decide at its discretion to waive this charge in whole or in part;

"Depositary"	Means Skandinaviska Enskilda Banken AB (publ), Luxembourg Branch, acting as Depositary and Paying Agent in Luxembourg;
"Depositary Agreement"	Means the agreement dated 4 August 2016 between the Company and the Depositary as amended, supplemented or otherwise modified from time to time;
"Dealing Day"	If applicable, means any Valuation Day where Shares may be subscribed, redeemed or converted. Unless otherwise provided in the relevant Annex, each Valuation Day will be a Dealing Day;
"Directive 78/660/EEC"	Means Council Directive 78/660/EEC of 25 July 1978 based on Article 54 (3) g) of the Treaty on the annual accounts of certain types of companies, as amended from time to time;
"Directive 83/349/EEC"	Means Council Directive 83/349/EEC of 13 June 1983 based on the Article 54 (3) (g) of the Treaty on consolidated accounts, as amended from time to time;
"Directors"	Means the directors of the Company, whose details are set out in this Prospectus and/or the annual and semi-annual reports;
"Distressed Debt Securities"	Means securities whereby its issuer has failed to make a contractual payment as it falls due, is subject to bankruptcy or equivalent procedures or is undertaking an involuntary debt restructuring. The Investment Manager will be guided by rating agencies, the ISDA Credit Derivatives Determinations Committee and other external data providers but may at times diverge from their opinions. In particular, the Investment Manager will not consider the contractually provided suspension of coupon payments on additional Common Tier 1 Capital ratio of a financial institution instruments such as preference shares or contingent convertible bonds as an indication of distress.
"EU"	Means the European Union;
"EU Member State"	Means a member state of the EU. The States that are contracting parties to the Agreement creating the European Economic Area other than the Member States of the European Union, within the limits set forth by this Agreement and related acts, are considered as equivalent to Member States of the European Union;

"EUR"	Means Euro, the single currency of the member states of the European Union that have adopted the Euro as its lawful currency under the legislation of the European Union for European Monetary Union;
"Euroclear"	Means Euroclear Bank S.A./N.V. as the operator of the Euroclear System;
"FATCA"	Means the US Foreign Account Tax Compliance Act;
"First Class Institutions"	Means first class financial institutions selected by the Board, subject to prudential supervision and belonging to the categories approved by the CSSF for the purposes of the OTC Derivative transactions and specialised in these types of transactions;
"Global Distributor"	Means FundRock Management Company S.A. or any other person from time to time appointed or authorised by the Management Company to distribute one or more Classes of Shares;
"Index Sponsor"	Means the index sponsor (if any) as disclosed in the relevant Annex;
"Ineligible Applicant"	Means an ineligible applicant as described under "Subscriptions";
"Initial Offering Period"	Means, in relation to each Sub-Fund and each Class of Shares the first offering of Shares in a Sub-Fund or Class of Shares made at the Initial Subscription Price pursuant to the terms of the Prospectus and the Annexes (it being understood that the Initial Offering Period may be restricted to a single day corresponding to the Launch Date);
"Initial Subscription Price per Share"	Means, in relation to each Class of Shares in each Sub-Fund, the amount stipulated in the Annex relating to such Sub-Fund as the subscription price per Share for the relevant Class of Shares in connection with the Initial Offering Period;
"Institutional Investor"	Means an investor meeting the requirements to qualify as an institutional investor for purposes of article 174 of the Law of 17 December 2010;
"Investment Company Act"	Means the United States Investment Company Act of 1940;
"Investment Management Agreement"	Means the investment management agreement in respect of each Sub-Fund between the Management Company and each Investment Manager as may be amended, supplemented or otherwise modified from time to time with

	respect to certain Sub-Funds;
"Investment Company Act"	Means the US Investment Company Act of 1940, as amended;
"Investment Instruments"	Means transferable securities and all other eligible assets referred to in Section 5.1;
"Investment Management Fee"	Means the investment management fee payable to the Investment Manager;
"Investment Manager"	Means the entity from time to time appointed by the Management Company as the investment manager to a particular Sub-Fund pursuant to the relevant Investment Management Agreement and disclosed in the relevant Annex;
"Launch Date"	Means the date on which the Company issues for the first time Shares relating to a Sub-Fund in exchange for the subscription proceeds;
"Law of 17 December 2010"	Means the Luxembourg law of 17 December 2010 relating to undertakings for collective investment, as amended or re-enacted from time to time;
"Management Company"	Means FundRock Management Company S.A.;
"Minimum Redemption Amount"	Means the minimum number of Shares or amount for which Shares may be redeemed; where applicable, the Minimum Redemption Amount will be disclosed in the relevant Annex;
"Minimum Initial Subscription Amount"	Means the minimum number of Shares or amount (as appropriate) which must be subscribed/converted for by a new Shareholder subscribing after the Initial Offering Period;
"Minimum Subsequent Subscription Amount"	Means the minimum number of Shares or amount (as appropriate) which must be subscribed/converted for by an existing Shareholder;
"Money Market Instruments"	Means instruments normally dealt in on a money market which are liquid and have a value which can be accurately determined at any time;
"Net Asset Value"	Means, (i) in relation to the Company, the value of the net assets of the Company, (ii) in relation to each Sub-Fund, the value of the net assets attributable to such Sub-Fund, and (iii) in relation to each Class of Shares in a Sub-Fund, the value of the net assets attributable to such Class of

Shares, in each case, calculated in accordance with the provisions of the Articles and the Prospectus of the Company;

"Net Asset Value per Share", "Shares with a Net Asset Value" and similar expressions

Means the Net Asset Value of the relevant Sub-Fund divided by the number of Shares in issue at the relevant time (including Shares in relation to which a Shareholder has requested redemption) or if a Sub-Fund has more than one Class of Shares in issue, the portion of the Net Asset Value of the relevant Sub-Fund attributable to a particular Class of Shares divided by the number of Shares of such Class in the relevant Sub-Fund which are in issue at the relevant time (including Shares in relation to which a Shareholder has requested redemption);

"Nordic Countries"

Means the following countries: Sweden, Finland, Norway, Denmark and Iceland;

"OECD"

Means the Organisation for Economic Co-operation and Development;

"OECD Member State"

Means any of the member states of the OECD;

"OTC"

Means over-the-counter;

"OTC Derivative"

Means any financial derivative instrument dealt in over-the-counter;

"Other Market"

Means a market which is regulated, which operates regularly and is recognised and open to the public;

"Other UCI"

Means an Undertaking for Collective Investment within the meaning of the first and second indents of Article 1(2) of the UCITS Directive;

"Paying Agent in Luxembourg"

Means Skandinaviska Enskilda Banken AB (publ), Luxembourg Branch;

"Prime Broker"

Means Skandinaviska Enskilda Banken AB (publ);

"Prospectus"

Means this sales prospectus relating to the issue of Shares in the Company, as amended from time to time;

"Redemption Charge"

Means the redemption charge levied by the Company and/or the Global Distributor in relation to the redemption of Shares in any Class of Shares in any Sub-Fund, details of which are set out in the Annex relating to the relevant Sub-Fund; The Redemption Charge is to be considered as a maximum rate and the Global Distributor may decide at its discretion to waive this charge in whole or in part;

"Register"	Means the register of Shareholders kept pursuant to the Articles;
"Registrar and Transfer Agent"	Means European Fund Administration S.A., acting as Registrar and Transfer Agent;
"Regulated Market"	Means a market within the meaning of Article 4(1)21 of the Directive 2014/65/EU of 15 May 2014 on markets in financial instruments;
"Regulation S Shares"	Means Shares sold outside the United States to persons other than US Persons in offshore transactions that meet the requirements of Regulation S under the Securities Act;
"Reference Currency"	Means, in relation to each Sub-Fund and/or Class of Shares in a Sub-Fund, the currency stipulated in the Annex relating to the relevant Sub-Fund as the currency in which the Net Asset Value of such Sub-Fund and/or Class of Shares of the relevant Sub-Fund is calculated;
"Restricted Person"	Means any person, determined in the sole discretion of the Board of Directors as being not entitled to subscribe or hold Shares in the Company or any Sub-Fund or Class if, in the opinion of the Directors, (i) such person would not comply with the eligibility criteria of a given Class or Sub-Fund (e.g. in relation to "US Persons" or "Specified US Persons" as defined below); (ii) a holding by such person would cause or is likely to cause the Company some pecuniary, tax or legal/regulatory disadvantage that it would not have otherwise incurred; (iii) a holding by such person would cause or is likely to cause the Company to be in breach of the law or requirements of any country or governmental authority applicable to the Company; or (iv) if in the opinion of the Board of Directors such holding may be harmful/damaging to the Company;
"Sales Charge"	Means the sales charge levied by the Company and/or the Global Distributor in relation to the subscription for any Class of Shares in any Sub-Fund, details of which are set out in the Annex relating to the relevant Sub-Fund. The Sales Charge is to be considered as a maximum rate and the Global Distributor may decide at its discretion to waive this charge in whole or in part;
"Securities Act"	Means the US Securities Act of 1933, as amended;
"Shareholder"	Means a person who is the holder of shares in the Company;
"Shares"	Means shares in the Company, of such Classes and

	denominated in such currencies and relating to such Sub-Funds as may be issued by the Company from time to time;
"Specified US Person"	Means shall have the meaning given to it in §1.1473-1(c) of the Treasury Regulations regarding FATCA;
"Sub-Distributor"	Means any sub-distributors from time to time appointed or authorised by the Global Distributor to distribute one or more Sub-Funds and/or Classes of Shares;
"Sub-Fund"	Means a separate portfolio of assets established for one or more share Classes of the Company which is invested in accordance with a specific investment objective. The specifications of each Sub-Fund will be described in their relevant Annex;
"Treasury Regulations"	Means The US Treasury Regulations issued on 17 January 2013;
"UCITS"	Means undertaking for collective investment in transferable securities authorised in accordance with the UCITS Directive;
"UCITS Directive"	Means Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS), as may be amended or re-enacted from time to time;
"United States" or "US"	Means the United States of America (including the states, the District of Columbia and the Commonwealth of Puerto Rico), its territories, possessions and all other areas subject to its jurisdiction;
"US Person"	Means, unless otherwise determined by the Directors, (i) a natural person who is a resident of the United States; (ii) a corporation, partnership or other entity, other than an entity organised principally for passive investment, organised under the laws of the United States and which has its principal place of business in the United States; (iii) an estate or trust, the income of which is subject to United States income tax regardless of the source; (iv) a pension plan for the employees, officers or principals of an entity organised and with its principal place of business in the United States; (v) an entity organised principally for passive investment such as a pool, investment company or other similar entity; provided, that units of participation in the entity held by persons who qualify as US persons or do not otherwise qualify as qualified eligible persons represent in the aggregate ten per cent or more of the beneficial

interests in the entity, and that such entity was formed principally for the purpose of investment by such persons in a commodity pool the operator of which is exempt from certain requirements of Part 4 of the US Commodity Futures Trading Commission's regulations by virtue of its participants being non-US Persons; or (vi) any other "US Person" as such term may be defined in Regulation S under the Securities Act, or in regulations adopted under the US Commodity Exchange Act, as amended;

"US Person Shares"

Means Shares sold to US Persons who are "qualified purchasers" within the meaning of Section 2(a)(51) of the Investment Company Act;

"Valuation Day"

Means Banking Days on which the Net Asset Value will be determined for each Class of Shares in each Sub-Fund, as it is stipulated in the relevant Annex;

"Website"

Means www.fundrock.com

2. The Company

The Company is a public limited liability company incorporated as an investment company with variable capital under the laws of the Grand Duchy of Luxembourg on 27 August 2010 and authorized under Part I of the Law of 17 December 2010. The Company is registered with the trade and companies register under the number B 155.311. Its Articles of Association were first published in the *Mémorial, Recueil des Sociétés et Associations* on 7 October 2010

The Shares in the Company are not currently listed on the Luxembourg Stock Exchange but the Board of Directors of the Company may decide to quote one or more Classes of Shares of a Sub-Fund on the Luxembourg or any other stock exchange as defined in the relevant Annex.

There is no limit to the number of Shares in the Company which may be issued. Shares will be issued to subscribers in the form of registered shares only.

Shares shall have the same voting rights and shall have no pre-emptive subscription rights. In the event of the liquidation of the Company, each Share is entitled to its proportionate share of the Company's assets after payment of the Company's debts and expenses, taking into account the Company's rules for the allocation of assets and liabilities.

All Shares carry the same right. All Shareholders have the right to vote at Shareholders' meetings. This vote can be exercised in person or by proxy. Each Share entitles its holder to one vote. The Company will recognise only one person or entity as the holder of a Share. In the event of joint ownership, the Company may suspend the exercise of any right deriving from the relevant Share until one person shall have been designated to represent the joint owners vis-à-vis the Company.

The minimum share capital of the Company must at all times be EUR 1,250,000. The Company's share capital is at all times equal to its Net Asset Value. The Company's share capital is automatically adjusted when additional Shares are issued or outstanding Shares are redeemed, and no special announcements or publicity are necessary in relation thereto.

3. The Sub-Funds and Classes of Shares

The Company has an umbrella structure consisting of one or several Sub-Funds. A separate pool of assets is maintained for each Sub-Fund and is invested in accordance with the investment objective applicable to that Sub-Fund. The investment objective, policy, as well as the risk profile and other specific features of each Sub-Fund are set forth in the Annex relating to each Sub-Fund.

The Company is one single legal entity. The rights of the investors and creditors relating to a Sub-Fund or arising from the setting-up, operation and liquidation of a Sub-Fund are limited to the assets of that Sub-Fund. The assets of a Sub-Fund are exclusively dedicated to the satisfaction of the rights of the investors relating to that Sub-Fund and the rights of those creditors whose claims have arisen in connection with the setting-up, operation and liquidation of that Sub-Fund. With regard to the Shareholders, each Sub-Fund is regarded as being a separate entity.

Within a Sub-Fund the Board of Directors may decide to issue one or more Classes of Shares, the assets of which will be commonly invested but may be subject to different fee structures, distribution, marketing targets, denominated in currencies other than the relevant Reference Currency or any other criteria.

The Company may, at any time, create additional Classes of Shares whose features may differ from the existing Classes and additional Sub-Funds whose investment objectives may differ from those of the Sub-Funds then existing. Upon the creation of new Sub-Funds or Classes, the Prospectus will be updated, if necessary, and/or supplemented by a new Annex relating to the new Sub-Fund(s).

Investors should note however that some Sub-Funds and/or Classes of Shares may not be available to all investors. The Company retains the right to offer only one or more Classes of Shares for purchase by investors in any particular jurisdiction in order to conform to local law, customs or business practice or for fiscal or any other reason. The Company may further reserve one or more Sub-Funds or Classes of Shares to Institutional Investors only.

The transfer of registered Shares may be effected by delivery to the Administrative Agent of a duly signed stock transfer form in appropriate form together with, if issued, the relevant certificate to be cancelled.

Hedging policy

The Company may issue a Class whose reference currency is not identical with the reference currency of the respective Sub-Fund. The impact from currency movements may be minimised by hedging the currency exposure of the concerned Class's reference currency against the currency exposure of the respective Sub-Fund's reference currency ("Currency Hedging").

In case the Company applies the Currency Hedging to a Class, it will be specified in the Annex of the relevant Sub-Fund, as the case may be.

4. The Investment Objectives and Policies

The Board of Directors determine the investment objectives, strategies and the investment restrictions applicable to the Company and the Sub-Funds. The details of the investment objectives and strategies of each Sub-Fund are set out in the Annex relating to such Sub-Fund. In accordance with the applicable investment restrictions, each Sub-Fund may use derivatives and as such the Company may invest in various types of swaps or combinations thereof. Their use need not be limited to hedging the Sub-Fund's assets but may also be part of the investment strategy. The extent of derivatives usage is laid down in the relevant Annex.

4.1 General features of swap

Swap mechanism

The market value of a swap is based on the performance of the underlying instrument. On a periodic basis the market value of the swap will be calculated to determine payment obligations. This will result in a requirement for the swap counterpart to make a payment equal to the market value of the swap to the Company or vice-versa. In the case where the Company is required to make a payment to the swap counterpart this payment will be made from the proceeds of any issue of shares and/or the partial or total disposal of the Company's assets.

Termination

Swaps may be terminated by either party at any time without notice.

If a swap is terminated the market value of the swap will be determined based on independently obtained market quotations of the underlying instrument. An amount equal to the relevant market value (calculated in accordance with the terms of the swaps) or such other amount as agreed between the parties will be settled between the swap counterpart and the Company. The swaps will at all times be valued in accordance with the provisions of the Prospectus.

Agreements

Swaps entered into between a swap counterpart and the Company are negotiated at arm's length pursuant to a master agreement in accordance with the requirements of the International Swap and Derivatives Association (ISDA) including any supporting agreements and confirmations for each swap transaction.

Counterparts

The Company will only enter into swaps with counterparts which are deemed creditworthy. Counterparts will comply with prudential rules considered by the CSSF as equivalent to EU prudential rules.

Absence of discretion

The swap counterparts assume no discretion over the composition or management of the Company's portfolio or over the underlying of the swap. Their approval is not required in relation to any Company's portfolio transaction.

Counterparty risk

At any particular time the Company may hold several swaps with one or more swap counterparts. The swaps expose the Company to counterparty risk, being the risk of loss arising from the inability of a swap counterpart to honour payments. This scenario is termed an Event of Default.

Collateral arrangements

The Company will enter into collateral arrangements with all swap counterparts to mitigate potential counterparty risks. These arrangements will be set out in a collateral agreement supporting each ISDA master agreement. The collateral agreement will ensure that swap counterparts transfer to the Company assets which the Company can use or sell in order to cover losses arising from an Event of Default.

The collateral agreement sets out the minimum amount of collateral to be transferred to the Company. The required collateral for each swap type is equal to the counterparty risk. Each swap counterpart shall transfer to the Company eligible collateral as described in the Prospectus with an aggregate value as collateral that is at least equal to the required collateral.

The required collateral is determined daily based on changes in the market value of the underlying instrument and the creation and termination of swaps.

Event of Default and consequences

If an Event of Default has occurred all outstanding swaps with the defaulting swap counterpart will be terminated immediately. To continue to fulfil the investment policy the Company will replace the terminated swaps with either (i) swaps executed with another swap counterpart or (ii) acquire the underlying instrument.

The Company and investors may suffer a loss as a result of the Event of Default. The nature of the loss for each swap type can be summarized as follows (collateral arrangements not being taken into account):

- (i) funded swap - the counterparty risk is equal to the market value of the underlying instrument, plus or minus fees;
- (ii) unfunded swap - the counterparty risk is equal to the change in the market value of the underlying instrument less interest, plus or minus fees; and

4.2 Total return swap

A Sub-Fund may enter into total return swap transactions or other financial derivative instruments with similar characteristics to gain or reduce exposure to a reference asset as well as to hedge the existing long positions or exposures.

The total return swap is a derivative contract in which one counterparty transfers to another party the total economic performance of a reference asset, including income from interest and, fees, market gains or losses from price movement as well as credit losses ("Total Return Swap", "Total Return Swaps" or "TRS").

A Sub-Fund may enter into TRS on:

- Equity, Stocks,
- Equity indices,
- Fixed Income,
- Currency,
- Interest rate,
- Commodity related indices;
- Bonds.

The underlying strategy and the composition of the investment portfolio of TRS will be consistent with the investment policy of the relevant Sub-Fund.

The counterparties of the TRS shall be selected by using creditworthy financial institutions specialised in the relevant type of transactions located in the Nordic Countries, taking into consideration criteria such as legal status minimum credit rating of Ba3 (Moody's credit rating scale) or BB (Standard and Poor's or Fitch credit rating scales). To be approved by the Board of Directors, the selected counterparties will also meet a legal status criterion, i.e. be subject to prudential supervision as well as being regulated by the relevant financial supervisory authority.

The Company draws the investors' attention to the fact that certain Sub-Funds do enter into total return swaps or financial derivative instruments with similar characteristics and as such the Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse is applicable to the Company.

The investors should therefore in addition refer to the relevant Sub-Fund annex for further details on these transactions.

5. Investment Restrictions

The Company and the Sub-Funds are subject to all the restrictions and limits set forth in the Law, as amended and updated, and in all the circulars issued by the CSSF with respect to investment restrictions applicable to UCITS, as amended and updated.

The Board of Directors may adopt further restrictions or limits for a particular Sub-Fund if so justified by the specific investment policy of that Sub-Fund. Such restrictions will be disclosed in the Annex relating to that Sub-Fund.

5.1. Investment Instruments

5.1.1 The Company's investments may consist solely of:

- (a) transferable securities and Money Market Instruments admitted to or dealt in on a Regulated Market;
- (b) transferable securities and Money Market Instruments dealt in on an "Other Market";
- (c) transferable securities and Money Market Instruments admitted to official listing on a stock exchange in a non-EU Member State or dealt in on an "Other Market" in a non-EU Member State selected by the Board of Directors;
- (d) recently issued transferable securities and Money Market Instruments, provided that:
 - the terms of issue include an undertaking that application will be made for admission to official listing on a stock exchange or to another Regulated Market;
 - such admission is secured within a year of issue;
- (e) units of UCITS, Exchange Traded Funds ("ETFs") and/or other collective investment undertakings included, within the meaning of the first and second indent of Article 1 paragraph (2) of the UCITS Directive should they be situated in an EU Member State or not, provided that:
 - such other UCIs have been authorised under laws which provide that they are subject to supervision considered by the CSSF to be equivalent to that laid down in EU law, and that cooperation between authorities is sufficiently ensured,
 - the level of protection for unitholders in such other UCIs is equivalent to that provided for unitholders in a UCITS, and in particular that the rules on assets segregation, borrowing, lending, and uncovered sales of transferable securities and money market instruments are equivalent to the requirements of the UCITS Directive, as amended,
 - the business of such other UCIs is reported in half-yearly and annual reports to enable an assessment of the assets and liabilities, income and operations over the reporting period,
 - no more than 10% of the assets of the UCITS or of the other UCIs, whose acquisition is contemplated, can, according to their constitutional documents, in aggregate be invested in units of other UCITS or other UCIs;
- (f) Shares of other Sub-Funds of the Company provided that:
 - the target Sub-Fund does not, in turn, invest in the Sub-Fund;
 - no more than 10% of the assets of the target Sub-Fund can, according to its investment policy, be invested in aggregate in shares/units of other UCITS and UCIs; and
 - voting rights, if any, attached to the relevant Shares are suspended for as long as the Shares are held by the Sub-Fund concerned.
- (g) deposits with credit institutions which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in an EU Member State or, if the registered office of the credit institution is situated in a non-EU Member State,

provided that it is subject to prudential rules considered by the CSSF as equivalent to those laid down in EU law;

- (h) financial derivative instruments, including equivalent cash-settled instruments, dealt in on a Regulated Market referred to in subparagraphs a), b) and c); and/or OTC Derivatives, provided that:
- the underlying consists of instruments covered by this Section 5.1.1, financial indices, interest rates, foreign exchange rates or currencies, in which a Sub-Fund may invest according to its investment objectives as stated in the Prospectus and the relevant Annex,
 - the counterparties to OTC Derivative transactions are First Class Institutions, and
 - the OTC Derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Company's initiative;

and/or

- (i) Money Market Instruments other than those dealt in on a Regulated Market and which fall under the Law of 17 December 2010 if the issuer or the issuer of such instruments are themselves regulated for the purpose of protecting investors and savings, and provided that such instruments are:
- issued or guaranteed by a central, regional or local authority or central bank of an EU Member State, the European Central Bank, the EU or the European Investment Bank, a non-EU Member State or, in the case of a federal state, by one of the members making up the federation, or by a public international body to which one or more EU Member States belong, or
 - issued by an undertaking any securities of which are dealt in on a Regulated Market referred to in subparagraphs a), b) or c), or
 - issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by EU law, or by an establishment which is subject to and complies with prudential rules considered by the CSSF to be at least as stringent as those laid down by EU law; or
 - issued by other bodies belonging to the categories approved by the CSSF provided that investments in such instruments are subject to investor protection rules equivalent to that laid down in the first, the second or the third indent and provided that the issuer is a company whose capital and reserves amount to at least ten million Euro (EUR 10,000,000) and which (i) presents and publishes its annual accounts in accordance with the fourth Directive 78/660/EEC, (ii) is an entity which, within a group of companies which includes one or several listed companies, is dedicated to the financing of the group or (iii) is an entity which is dedicated to the financing of securitisation vehicles which benefit from a banking liquidity line.

5.1.2 Contrary to the investment restrictions laid down in paragraph 5.1.1 above, each Sub-Fund may:

- (a) invest up to 10% of its net assets in transferable securities and Money Market Instruments other than those referred to in paragraph 5.1.1 above; and
- (b) hold liquid assets on an ancillary basis.

5.2. Risk Diversification

5.2.1. In accordance with the principle of risk diversification, the Company is not permitted to invest more than 10% of the net assets of a Sub-Fund in transferable securities or Money Market Instruments issued by the same body. The total value of the transferable securities and Money Market Instruments in each issuer in which more than 5% of the net assets of a Sub-Fund are invested must not exceed 40% of the value of the net assets of the respective Sub-Fund. This limitation does not apply to deposits and OTC Derivative

transactions made with financial institutions subject to prudential supervision.

- 5.2.2.** The Company is not permitted to invest more than 20% of the net assets of a Sub-Fund in deposits made with the same body.
- 5.2.3.** The risk exposure to a counterparty of a Sub-Fund in an OTC Derivative transaction may not exceed:
- 10% of its net assets when the counterparty is a credit institution referred to in paragraph 5.1.1 f), or
 - 5% of its net assets, in other cases.
- 5.2.4.** Notwithstanding the individual limits laid down in paragraphs 5.2.1, 5.2.2 and 5.2.3, a Sub-Fund may not combine:
- investments in transferable securities or Money Market Instruments issued by a single body,
 - deposits made with a single body, or
 - exposures arising from OTC Derivative transactions undertaken with a single body,
- in excess of 20% of its net assets.
- 5.2.5.** The 10% limit set forth in paragraph 5.2.1 can be raised to a maximum of 25% in case of certain bonds issued by credit institutions which have their registered office in an EU Member State and are subject by law, in that particular country, to specific public supervision designed to ensure the protection of bondholders. In particular the funds which originate from the issue of these bonds are to be invested, in accordance with the law, in assets which sufficiently cover the financial obligations resulting from the issue throughout the entire life of the bonds and which are allocated preferentially to the payment of principal and interest in the event of the issuer's failure. Furthermore, if investments by a Sub-Fund in such bonds issued by one issuer represent more than 5% of the net assets, the total value of these investments may not exceed 80% of the net assets of the corresponding Sub-Fund.
- 5.2.6.** The 10% limit set forth in paragraph 5.2.1 can be raised to a maximum of 35% for transferable securities and Money Market Instruments that are issued or guaranteed by an EU Member State or its local authorities, by a non-EU Member State selected by the Board of Directors, or by public international organisations of which one or more EU Member States are members.
- 5.2.7.** Transferable securities and Money Market Instruments which fall under the special ruling given in paragraphs 5.2.5 and 5.2.6 are not counted when calculating the 40% limit mentioned in paragraph 5.2.1.
- 5.2.8.** The limits provided for in paragraphs 5.2.1 to 5.2.6 may not be combined, and thus investments in transferable securities or Money Market Instruments issued by the same body, in deposits or derivative instruments made with this body carried out in accordance with paragraphs 5.2.1. to 5.2.6 shall under no circumstances exceed in total 35% of the net assets of a Sub-Fund.

Companies which are included in the same group for the purposes of consolidated accounts, as defined in accordance with Directive 83/349/EEC or in accordance with recognised international accounting rules, are regarded as a single body for the purpose of calculating the limits contained in this Section 5.2.

A Sub-Fund may invest, on a cumulative basis, up to 20% of its net assets in transferable securities and Money Market Instruments of the same group.

5.3. The following exceptions may be made:

- 5.3.1.** Without prejudice to the limits laid down in Section 5.6 the limits laid down in Section 5.2 are raised to a maximum of 20% for investment in shares and/or bonds issued by the same body if, according to the Annex relating to a particular Sub-Fund the investment objective and policy of that Sub-Fund is to replicate the

composition of a certain stock or debt securities index which is recognised by the CSSF, on the following basis:

- its composition is sufficiently diversified,
- the index represents an adequate benchmark for the market to which it refers,
- it is published in an appropriate manner

The above 20% limit may be raised to a maximum of 35%, but only in respect of a single issuer, where that proves to be justified by exceptional market conditions in particular in Regulated Markets where certain transferable securities or Money Market Instruments are highly dominant.

5.3.2. By way of derogation from Section 5.2, the Company is authorised, in accordance with the principle of risk diversification, to invest up to 100% of the net assets of a Sub-Fund in transferable securities and Money Market Instruments that are issued or guaranteed by any EU Member State or its local authorities, by another OECD Member State, Brazil, Singapore, Russia, Indonesia or South Africa (as selected by the Board of Directors), or by public international organisations in which one or more EU Member States are members. These securities must be divided into at least six different issues, with securities from one and the same issue not exceeding 30% of the total net assets of a Sub-Fund.

5.4. Investment in UCITS, including ETFs and/or other collective investment undertakings.

5.4.1. Unless indicated to the contrary in the Annex relating to a Sub-Fund, a Sub-Fund may acquire the units of UCITS and/or other collective investment undertakings referred to in paragraph 5.1.1 e), provided that no more than 20% of its net assets are invested in units of a single UCITS (including ETFs) or other collective investment undertaking. If the UCITS or the other collective investment undertakings have multiple compartments (within the meaning of article 181 of the Law of 17 December 2010) and the assets of a compartment may only be used to satisfy the rights of the investors relating to that compartment and the rights of those creditors whose claims have arisen in connection with the setting-up, operation and liquidation of that compartment, each compartment is considered as a separate issuer for the purposes of applying the above limit.

5.4.2. Investments made in units of collective investment undertakings other than UCITS may not exceed, in aggregate, 30% of the net assets of the Sub-Fund.

When a Sub-Fund has acquired units of UCITS (including ETFs) and/or other collective investment undertakings, the assets of the respective UCITS or other collective investment undertakings do not have to be combined for the purposes of the limits laid down in Section 5.2.

5.4.3. When a Sub-Fund invests in the units of other UCITS (including ETFs) and/or other collective investment undertakings that are managed, directly or by delegation, by the Investment Manager or Management Company or by any other company with which the Investment Manager or Management Company is linked by common management or control, or by a substantial direct or indirect holding, the Investment Manager or other company and the Management Company or other company may not charge subscription or redemption fees on account of the Sub-Fund's investment in the units of such other UCITS and/or collective investment undertakings.

In addition, the Investment Manager or the other company referred to above may not charge investment management fees of more than 5% per annum.

A Sub-Fund that invests a substantial proportion of its assets in other UCITS (including ETFs) and/or collective investment undertakings shall disclose in its Annex the maximum level of the management fees that may be charged both to the Sub-Fund itself and to the other UCITS (including ETFs) and/or collective investment undertakings in which it intends to invest. In the annual report of the Company it shall be indicated for each Sub-Fund the maximum proportion of management fees charged both to the Sub-Fund and to the UCITS (including ETFs) and/or other collective investment undertaking in which the Sub-Fund invests.

5.5. Tolerances and multiple compartment issuers

If, because of market movements or the exercising of subscription rights, the limits mentioned in this Section 5 are exceeded, the Company must have as a priority objective in its sale transactions to reduce these positions within the prescribed limits, taking into account the best interests of the Shareholders.

Provided that they continue to observe the principles of diversification, newly established Sub-Funds may deviate from the limits mentioned under Sections 5.2, 5.3 and 5.4 above and any additional investment restrictions contained in the Annex of such Sub-Fund (as the case may be) for a period of six months following their Launch Date.

If an issuer of Investment Instruments is a legal entity with multiple compartments and the assets of a compartment may only be used to satisfy the rights of the investors relating to that compartment and the rights of those creditors whose claims have arisen in connection with the setting-up, operation and liquidation of that compartment, each compartment is considered as a separate issuer for the purposes of applying the limits set forth under 5.2, 5.3.1 and 5.4.

5.6. Investment Prohibitions

The Company is **prohibited** from:

- 5.6.1. acquiring equities with voting rights that would enable the Company to exert a significant influence on the management of the issuer in question;
- 5.6.2. acquiring more than
 - 10% of the non-voting equities of one and the same issuer,
 - 10% of the debt securities issued by one and the same issuer,
 - 10% of the Money Market Instruments issued by one and the same issuer,
 - 25% of the units of one and the same UCITS and/or other undertaking for collective investment.

The limits laid down in the second, third and fourth indents of this paragraph may be disregarded at the time of acquisition if at that time the gross amount of the debt securities or of the Money Market Instruments, or the net amount of the securities in issue, cannot be calculated.

Exempted from the above limits are transferable securities and Money Market Instruments which, in accordance with article 48, paragraph 3 of the Law of 17 December 2010 are issued or guaranteed by an EU Member State or its local authorities, by a non-EU Member State selected by the Board of Directors or which are issued by public international organisations of which one or more EU Member States are members.

- 5.6.3. short selling transferable securities, Money Market Instruments and other investment instruments mentioned under sub-paragraphs e), g) and h) of paragraph 5.1.1;
- 5.6.4. acquiring precious metals or related certificates;
- 5.6.5. investing in real estate and purchasing or selling commodities or commodities contracts;

- 5.6.6. borrowing on behalf of a particular Sub-Fund, unless:
- the borrowing is in the form of a back-to-back loan for the purchase of foreign currency;
 - the loan is only temporary and does not exceed 10% of the net assets of the Sub-Fund in question.
- 5.6.7. granting credits or acting as guarantor for third parties. This limitation does not refer to the purchase of transferable securities, Money Market Instruments and other investment instruments mentioned under subparagraphs e), g) and h) of paragraph 5.1.1 that are not fully paid up

5.7. Risk management and limits with regard to derivative instruments

- 5.7.1. The Management Company must employ (i) a risk-management process which enables it to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of the portfolio and (ii) a process for accurate and independent assessment of the value of OTC Derivatives.
- 5.7.2. Under no circumstances shall the investment in derivative instruments cause a Sub-Fund to diverge from its investment objectives as laid down in the Prospectus and the relevant Annex.
- 5.7.3. Each Sub-Fund shall ensure that its global risk exposure relating to derivative instruments does not exceed its total Net Asset Value.

The risk exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions. This shall also apply to the following subparagraphs.

A Sub-Fund may invest, as a part of its investment policy and within the limit laid down in paragraphs 5.2.7 and 5.2.8, in financial derivative instruments provided that the exposure to the underlying assets does not exceed in aggregate the investment limits laid down in Section 5.2. If a Sub-Fund invests in index-based financial derivative instruments, these investments do not have to be combined to the limits laid down in Section 5.2.

When a transferable security or Money Market Instrument embeds a derivative, the latter must be taken into account when complying with the requirements of this Section.

5.8. Techniques and Instruments

Subject to the following conditions, the Company is authorised for each Sub-Fund to resort to techniques and instruments bearing on Transferable Securities, Money Market Instruments, currencies and other eligible assets, on the condition that any recourse to such techniques and instruments be carried out for the purpose of hedging and/or efficient management of the portfolio, altogether within the meaning of the Grand-ducal regulation of 8 February 2008.

- 5.8.1. Techniques and Instruments relating to Transferable Securities, Money Market Instruments and other eligible assets

(a) General

To optimise portfolio management and/or to protect its assets and liabilities, the Company may use techniques and instruments involving Transferable Securities, Money Market Instruments, currencies and other eligible assets within the meaning of the Grand-ducal regulation of 8 February 2008 for each Sub-Fund provided that such techniques and instruments are used for the purposes of efficient portfolio management within the meaning of, and under the

conditions set out in, applicable laws, regulations and CSSF-Circulars issued from time to time, in particular, but not limited to CSSF-Circulars 08/356, 13/559 and 14/592 and ESMA-Guidelines 2014/937. In particular, those techniques and instruments should not result in a change of the investment objective of the relevant Sub-Fund or add substantial supplementary risks in comparison to the stated risk profile of such Sub-Fund.

The risk exposure to a counterparty generated through efficient portfolio management techniques and OTC financial derivatives must be combined when calculating counterparty risk limits referred to under section 6.3. of this Prospectus. All revenues arising from efficient portfolio management techniques, net of direct and indirect operational costs and fees, will be returned to the respective Sub-Fund. In particular, fees and costs may be paid to agents of the Company and other intermediaries providing services in connection with efficient portfolio management techniques as normal compensation for their services. Such fees may be calculated as a percentage of gross revenues earned by the Company through the use of such techniques. Information on direct and indirect operational costs and fees that may be incurred in this respect as well as the identity of the entities to which such costs and fees are paid – as well as any relationship they may have with the Depositary, the Company or the Management Company – will be available in the annual report of the Company. Furthermore, each Sub-Fund is notably authorised to carry out transactions intended to sell or buy foreign exchange rate futures, to sell or buy currency futures and to sell call options or to buy put options on currencies, in order to protect its assets against currency fluctuations or to optimise yield, i.e., for the purpose of sound portfolio management.

(b) Limitation

When transactions involve the use of derivatives, the Company must comply with the terms and limits stipulated above in paragraphs 5.1.1. (g), 5.2.3. and 5.2.4. of this Prospectus. The use of transactions involving derivatives or other financial techniques and instruments may not cause the Company to stray from the investment objectives set out in the Prospectus.

(c) Risks - Notice

In order to optimise their portfolio yield, all Sub-Funds are authorised to use the derivatives techniques and instruments described in this Chapter 5 (particularly swaps of rates, currencies and other financial instruments, futures, and securities, rate or futures options), on the terms and conditions set out in said Chapter. The investor's attention is drawn to the fact that market conditions and applicable regulations may restrict the use of these instruments. The success of these strategies cannot be guaranteed. Sub-Funds using these techniques and instruments assume risks and incur costs they would not have assumed or incurred if they had not used such techniques. The investor's attention is further drawn to the increased risk of volatility generated by Sub-Funds using these techniques for other purposes than hedging. If the managers and sub-managers forecast incorrect trends for securities, currency and interest rate markets, the affected Sub-Fund may be worse off than if no such strategy had been used. In using derivatives, each Sub-Fund may carry out over-the-counter futures or spot transactions on indices or other financial instruments and swaps on indices or other financial instruments with highly-rated banks or brokers specialised in this area, acting as counterparties. Although the corresponding markets are not necessarily considered more volatile than other futures markets, operators have less protection against defaults on these markets since the contracts traded on them are not guaranteed by a clearing house.

5.8.2. Securities lending transactions

The Company may enter into securities lending transactions in accordance with the provisions of CSSF Circular 08/356 on the rules applicable to undertakings for collective investment when they employ certain techniques and instruments relating to transferable securities and money market instruments ("Circular 08/356"). The Company may enter into securities lending transactions provided that the following rules are complied with in addition to the abovementioned conditions:

- (a) the Company may lend securities to a borrower either directly or through a standardised system organised by a recognised clearing institution or through a lending system organised by a financial institution subject to prudential supervision rules which are recognised by the CSSF as equivalent to those laid down in EU law and specialised in these types of transactions;
- (b) the borrower must be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law;
- (c) the risk exposure of the Company vis-à-vis a single counterparty arising from one or more securities lending transaction(s) may not exceed 10% of the assets of the relevant Sub-Fund when the counterparty is a financial institution falling within paragraph 5.1.1 (f) above, or 5% of its assets in all other cases.
- (d) as part of its lending transactions, the Company must receive collateral, the value of which, during the duration of the lending agreement, must be equal to at least 90% of the global valuation of the securities lent (interests, dividends and other eventual rights included);
- (e) such collateral must be received prior to or simultaneously with the transfer of the securities lent. When the securities are lent through any of the intermediaries referred to under 5.8.1 (a) above, the transfer of the securities lent may be effected prior to receipt of the collateral, if the relevant intermediary ensures proper completion of the transaction. Said intermediary may provide collateral in lieu of the borrower;
- (f) when the collateral given in the form of cash exposes the Company to a credit risk vis-à-vis the trustee of this collateral, such exposure must be subject to the 20% limitation as laid down in Section 5.2.2 above;
- (g) the Company shall disclose the global valuation of the securities lent in the annual and semi-annual reports;
- (h) the Company may only enter into securities lending transactions provided that it is entitled at any time under the terms of the agreement to request the return of the securities lent or to terminate the agreement.

Prior to the use of any securities lending transactions within the meaning of the Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on “Transparency of Securities Financing Transactions and of Reuse”, the investment objective and policy of the relevant Sub-Fund will disclose whether securities lending transactions are being traded.

5.8.3. Repo transactions

(a) General

The Company may, in accordance with the provisions of Circular 08/356, enter into (i) *repurchase transactions* which consist in the purchase or sale of securities with a clause reserving for the seller the right or the obligation to repurchase from the acquirer the securities sold at a price and time agreed by the two parties in their contractual arrangement, (ii) *repurchase agreement transactions*, which consist of a forward transaction at the maturity of which the Company has the obligation to repurchase the securities sold and the buyer (counterparty) the obligation to return

the securities received under the transaction and (iii) *reverse repurchase agreement transactions*, which consist of a forward transaction at the maturity of which the seller (counterparty) has the obligation to repurchase the securities sold and the Company the obligation to return the securities received under the transaction (collectively, the "repo transactions").

The Company can act either as purchaser or seller in repo transactions. Its involvement in such transactions is however subject to the following rules:

- (i) the fulfilment of the conditions 5.8.1 (b) and 5.8.1 (c);
- (ii) the Company shall be able at any time (a) to recall the full amount of cash in a reverse repurchase agreement or any securities subject to a repurchase agreement or (b) to terminate the agreement in accordance with applicable regulations. However, fixed-term transactions that do not exceed seven days should be considered as arrangements on terms that allow the assets to be recalled at any time by the Company;
- (iii) during the life of a repo transaction with the Company acting as purchaser, the Company shall not sell the securities which are the object of the contract, before the counterparty has exercised its option or until the deadline for the repurchase has expired, unless the Company has other means of coverage;
- (iv) the securities acquired by the Company under a repo transaction must conform to the Sub-Fund's investment policy and investment restrictions and must be limited to:
 - a. short-term bank certificates or money market instruments as defined in Directive 2007/16/EC of 19 March 2007;
 - b. bonds issued by non-governmental issuers offering an adequate liquidity; and,
 - c. assets referred to under 5.8.1 (f) (ii), (iii) and (vi) above.
- (v) the Company shall disclose the total amount of the open repo transactions on the date of reference of its annual and semi-annual reports.

Prior to the use of any repo transactions within the meaning of the Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on "Transparency of Securities Financing Transactions and of Reuse", the investment objective and policy of the relevant Sub-Fund will disclose whether repo transactions are being traded.

(b) Risks

The principal risk when engaging in securities lending, repurchase or reverse repurchase transactions is the risk of default by a counterparty who has become insolvent or is otherwise unable or refuses to honour its obligations to return securities or cash to the relevant Sub-Fund as required by the terms of the transaction. Counterparty risk is mitigated by the transfer or pledge of collateral in favour of the relevant Sub-Fund. However, securities lending, repurchase or reverse repurchase transactions may not be fully collateralised. Fees and returns due to the relevant Sub-Fund under securities lending, repurchase or reverse repurchase transactions may not be collateralised. In addition, the value of collateral may decline in between collateral rebalancing dates or may be incorrectly determined or monitored. In such a case, if a counterparty defaults, the relevant Sub-Fund may need to sell non-cash collateral received at prevailing market prices, thereby resulting in a loss to the Sub-Fund. A Sub-Fund may also incur a loss in reinvesting cash collateral received. Such a loss may arise due to a decline in the value of the investments made. A decline in the value of such investments would reduce the amount of collateral available to be returned by the relevant Sub-Fund to the counterparty as required by the terms of the transaction. The Sub-Fund would be required to cover the difference in value between the collateral originally received and the amount available to be returned to the counterparty, thereby resulting in a loss to the Sub-Fund.

Securities lending, repurchase or reverse repurchase transactions also entail operational risks such as the non-settlement or delay in settlement of instructions and legal risks related to the documentation used in respect of such transactions.

A Sub-Fund may enter into securities lending, repurchase or reverse repurchase transactions with other companies in the same group of companies as the Management Company. Affiliated counterparties, if any, will perform their obligations under any securities lending, repurchase or reverse repurchase transactions concluded with the Sub-Fund in a commercially reasonable manner. In addition, the Management Company will select counterparties and enter into transactions in accordance with best execution and at all times in the best interests of the Sub-Fund and its investors. However, investors should be aware that the Management Company may face conflicts between its role and its own interests or that of affiliated counterparties.

5.8.4. Financial Derivative Instruments

(a) General

Over-the-counter (OTC) financial derivative instruments (including total return swaps and other derivatives with similar characteristics) used by the Sub-Funds to gain exposure to underlying assets will be entered into with counterparties selected among first class financial institutions specialised in the relevant type of transaction, subject to prudential supervision and belonging to the categories of counterparties approved by the CSSF.

(b) Counterparty Risk

In accordance with its investment objective and policy, a Sub-Fund may trade 'over-the-counter' (OTC) financial derivative instruments such as non-exchange traded futures and options, forwards, swaps or contracts for difference. OTC derivatives are instruments specifically tailored to the needs of an individual investor that enable the user to structure precisely its exposure to a given position. Such instruments are not afforded the same protections as may be available to investors trading futures or options on organised exchanges, such as the performance guarantee of an exchange clearing house. The counterparty to a particular OTC derivative transaction will generally be the specific entity involved in the transaction rather than a recognised exchange clearing house. In these circumstances the Sub-Fund will be exposed to the risk that the counterparty will not settle the transaction in accordance with its terms and conditions because of a dispute over the terms of the contract (whether or not bona fide) or because of the insolvency, bankruptcy or other credit or liquidity problems of the counterparty. This could result in substantial losses to the Sub-Fund.

Participants in OTC markets are typically not subject to the credit evaluation and regulatory oversight to which members of 'exchange-based' markets are subject. Unless otherwise indicated in the Prospectus for a specific Sub-Fund, the Company will not be restricted from dealing with any particular counterparties.

The Company's evaluation of the creditworthiness of its counterparties may not prove sufficient. The lack of a complete and foolproof evaluation of the financial capabilities of the counterparties and the absence of a regulated market to facilitate settlement may increase the potential for losses. The Company may select counterparties located in various jurisdictions. Such local counterparties are subject to various laws and regulations in various jurisdictions that are designed to protect their customers in the event of their insolvency. However, the practical effect of these laws and their application to the Sub-Fund and its assets are subject to substantial limitations and uncertainties. Because of the large number of entities and jurisdictions involved and the range of possible factual scenarios involving the insolvency of a counterparty, it is impossible to generalize the effect of their insolvency on the Sub-Fund and its assets.

Investors should assume that the insolvency of any counterparty would generally result in a loss to the Sub-Fund, which could be material.

If there is a default by the counterparty to a transaction, the Company will under most normal circumstances have contractual remedies and in some cases collateral pursuant to the agreements related to the transaction. However, exercising such contractual rights may involve delays and costs. If one or more OTC counterparties were to become insolvent or the subject of liquidation proceedings, the recovery of securities and other assets under OTC derivatives may be delayed and the securities and other assets recovered by the Company may have declined in value.

Regardless of the measures that the Company may implement to reduce counterparty credit risk there can be no assurance that a counterparty will not default or that the Sub-Fund will not sustain losses on the transactions as a result. Such counterparty risk is accentuated for contracts with longer maturities or where the Sub-Fund has concentrated its transactions with a single or small group of counterparties.

(c) Management of Collateral and Collateral Policy

General

In the context of OTC financial derivative transactions the Sub-Fund may receive collateral with a view to reduce its counterparty risk. This section sets out the collateral policy applied by the Sub-Fund in such case. All assets received by the Sub-Fund in the context of efficient portfolio management techniques shall be considered as collateral for the purpose of this section.

Eligible Collateral

Collateral received by the Sub-Fund may be used to reduce its counterparty risk exposure if it complies with the criteria set out in applicable laws, regulations and CSSF-Circulars issued from time to time notably in terms of liquidity and issuer credit quality, valuation, correlation, collateral diversification, risks linked to the management of collateral and enforceability. In particular, collateral should comply with the following conditions:

- (i) Liquidity and issuer credit quality – any collateral received other than cash shall be of high quality, highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation.
- (ii) Valuation – collateral received shall be valued on at least a daily basis and assets that exhibit high price volatility shall not be accepted as collateral unless suitably conservative haircuts are in place;
- (iii) Correlation – the collateral received by the Sub-Fund shall be issued by an entity that is independent from the counterpart and is expected not to display a high correlation with the performance of the counterpart;
- (iv) Collateral diversification (asset concentration) – collateral shall be sufficiently diversified in terms of country, markets and issuers. The criterion of sufficient diversification with respect to issuer concentration is considered to be respected if the Sub-Fund receives from a counterpart of efficient portfolio management and OTC financial derivative transactions a basket of collateral with a maximum exposure to a given issuer of 20% of the respective Sub-Fund's net asset value. When the Sub-Fund is exposed to different counterparts, the different baskets of collateral shall be aggregated to calculate the 20% limit of exposure to a single issuer. By way of derogation from this sub-paragraph, the Sub-Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a Member State, one or more of its local authorities, a third country, or a public

international body to which one or more Member States belong. In such a case, the Sub-Fund should receive securities from at least six different issues, but securities from any single issue should not account for more than 30% of the respective Sub-Fund's net asset value. The list of eligible jurisdictions includes, but is not limited to, Canada, Denmark, Finland, France, Germany, the Netherlands, Norway, Sweden, Switzerland, the United Kingdom and the United States of America;

Besides, collateral received shall also comply with the provisions of Article 48(2) of the 2010 Law;

- (v) it should be capable of being fully enforced by the Sub-Fund at any time without reference to or approval from the counterparty;
- (vi) Risks linked to the management of collateral, such as operational and legal risks, shall be identified, managed and mitigated by the risk management process;
- (vii) Where there is a title transfer, the collateral received shall be held by the depository of the Sub-Fund. For other types of collateral arrangement, the collateral can be held by a third party custodian which is subject to prudential supervision, and which is unrelated to the provider of the collateral;

Subject to the abovementioned conditions, collateral received by the Sub-Fund may consist of the following instruments as accepted by the Commission Delegated Regulation (EU) 2016/2251 of the 4 October 2016 supplementing Regulation (EU) No 648/2012 of the European Parliament and of the Council of 4 July 2012 (hereafter referred to as "CDR 2016/2251"):

- Cash in an OECD country currency in accordance with Article 4(1) (a) of CDR 2016/2251,
- Debt securities issued or guaranteed by Member States' central governments or central banks in accordance with Article 4(1) (c) of CDR 2016/2251,
- Debt securities issued by Member States' regional governments or local exposures whose exposures are treated as exposures to the central government of that Member State listed in Article 115(2) of the Regulation (EU) 575/2013,
- Debt securities issued by multilateral banks listed in Article 117(2) of the Regulation (EU) of 575/2013,
- Debt securities issued by international organisations listed in Article 118 of the Regulation (EU) No 575/2013,
- Corporate bonds,
- Convertible bonds provided they can be converted only into equities which are included in an index specified pursuant to point (a) of Article 197(8) of the Regulation (EU) No 575/2013,
- Equities included in an index specified pursuant to point (a) of Article 197(8) of the Regulation (EU) No 575/2013.

Level of Collateral

The Sub-Fund will determine the required level of collateral for OTC financial derivatives transactions by reference to the applicable counterparty risk limits set out in this Prospectus and taking into account the nature and characteristics of transactions, the creditworthiness and identity of counterparties and prevailing market conditions.

Rules for application of Haircuts

Collateral will be valued on a daily basis using available market prices and the value of collateral will be adjusted by applying relevant haircuts. For this purpose, in accordance with Article 6 of CDR 2016/2251, the Sub-Fund will rely on the credit quality assessments issued by a recognised External Credit Assessment Institution or the credit quality

of (ECAI) of an export credit agency and thus will use standard haircuts to be applied by asset type, maturity and credit quality of the issuer.

The following haircuts will be applied:

Cash Collateral

- (i) Cash variation margin shall be subject to a haircut of 0%
- (ii) Cash initial margin shall be subject to a haircut of 8% when the cash initial margin has been posted in a currency other than the currency in which the payments in case of early termination or default have to be made in accordance with the single derivative contract, the relevant exchange of collateral agreement or the relevant credit support annex ('termination currency').

In case no termination currency has been set out, the above haircut of 8% shall apply to the market value of all the assets posted as collateral.

Non-Cash Collateral

Haircuts applicable to debt securities

Table 1 Debt securities

Collateral	Credit Quality Step	Maturity		
		≤ 1 year	>1 ≤ 5 year(s)	> 5 years
Debt securities issued or guaranteed by Member States' central governments or central banks in accordance with Article 4(1) (c) of CDR 2016/2251	1	0.5%	2%	4%
Debt securities issued by Member States' regional governments or local exposures whose exposures are treated as exposures to the central government of that Member State listed in Article 115(2) of Regulation (EU) 575/2013 and in accordance with CDR 2016/2251.	2-3	1%	3%	6%
Debt securities issued by multilateral banks listed in Article 117(2) of Regulation (EU) of 575/2013 and in accordance with CDR 2016/2251.				

Debt securities issued by international organisations listed in Article 118 of the Regulation (EU) No 575/2013 and in accordance with CDR 2016/2251				
Convertible bonds provided they can be converted only into equities which are included in an index specified pursuant to point (a) of article 197(8) of Regulation (EU) No 575/2013	1-3	15%		
Corporate bonds in accordance with CDR 2016/2251.	1	1%	4%	8%
	2-3	2%	6%	12%

To determine the credit quality step, the second best rating from Moody's, S&P and Fitch shall be used and mapped using the table below. For the avoidance of the doubt, no credit quality step 4 is mapped since all debt securities shall be having an issuer rating of investment grade.

Table 2 – Credit Quality step mapping table

Credit Rating Agency	Rating type	Credit Quality Step		
		1	2	3
Fitch Ratings	Long-term Issuer Credit ratings scale	AAA, AA	A	BBB
Moody's Investors Service	Global long-term rating scale	Aaa, Aa	A	Baa
Standard & Poor's ratings Services	Long-term issuer credit ratings scale	AAA, A	A	BBB

(i) Equities in main indices and bonds convertible to equities in main indices shall have a haircut of 15 %.

(ii) Non cash initial margin posted in a currency other than the currency in which the payments in case of early termination or default have to be made in accordance with the single derivative contract, the relevant exchange of collateral agreement or the relevant credit support annex ('termination currency') shall be subject to an additional haircut of 8%.

In case no termination currency has been set out, the above haircut of 8% shall apply to the market value of all the assets posted as collateral.

(iii) Non-Cash variation margin posted in a currency other than those agreed in an individual derivative contract, the relevant governing master netting agreement or the relevant credit support annex shall be subject to an additional haircut of 8%.

The Company reserves the right to review and amend the above haircuts at any time when the market conditions have changed and when and if this is deemed in the best interest of the Sub-Fund.

Reinvestment of Collateral

Non-Cash Collateral received by a Sub-Fund may not be sold, re-invested or pledged.

Restrictions on the re-use of Cash Collateral

Cash Collateral received by a Sub-Fund shall neither be re-invested nor pledged.

6. Risk Factors

Before making an investment decision with respect to Shares of any Class in any Sub-Fund, prospective investors should carefully consider all of the information set out in this Prospectus and the Annex relating to the relevant Sub-Fund, as well as their own personal circumstances. Prospective investors should have particular regard to, among other matters, the considerations set out in this Section and under the heading "Risk Profile" and "Specific Risk Considerations" in the relevant Annex. The risk factors referred to therein, and in this document, alone or collectively, may reduce the return on the Shares of any Sub-Fund and could result in the loss of all or a proportion of a Shareholder's investment in the Shares of any Sub-Fund. The price of the Shares of any Sub-Fund can go down as well as up and their value is not guaranteed. Shareholders may not receive, at redemption or liquidation, the amount that they originally invested in any Class of Shares or any amount at all.

The risks may include or relate to equity markets, bond markets, foreign exchange rates, interest rates, credit risk, the use of derivatives, counterparty risk, market volatility and political risks. The risk factors set out in this Prospectus and the relevant Annex are not exhaustive. There may be other risks that a prospective investor should consider that are relevant to its own particular circumstances or generally.

An investment in the Shares of any Sub-Fund is only suitable for investors who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom.

Before making any investment decision with respect to the Shares, any prospective investors should consult their own stockbroker, bank manager, lawyer, solicitor, accountant and/or financial adviser and carefully review and consider such an investment decision in the light of the foregoing and the prospective investor's personal circumstances.

The Company is intended to be a medium to long-term investment vehicle (depending on the investment policy of the relevant Sub-Funds). Shares may however be redeemed on each Valuation Day, unless otherwise stipulated in the relevant Annex. Substantial redemptions of Shares by Shareholders within a limited period of time could cause the Company to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of both the Shares being redeemed and the outstanding Shares. In addition, regardless of the period of time in which redemptions occur, the resulting reduction in the Net Asset Value per Share could make it more difficult for the Company to generate trading profits or recover losses.

6.1. General

Reliance on the Investment Manager and Dependence on Key Personnel

The Investment Manager will have the responsibility for the Sub-Fund's investment activities. Investors must rely on the judgment of the Investment Manager in exercising this responsibility. The Investment Manager and its principals are not required to, and will not devote substantially all of their business time to the investment activities of the Sub-Fund. In addition, since the performance of the Sub-Fund is wholly dependent on the skills of the Investment Manager if the services of the Investment Manager or its principals were to become unavailable, such unavailability might have a detrimental effect on the Sub-Fund and its performance. Neither the Investment Manager nor its principals or its or their affiliates are required to devote its or their full time to the affairs of the Sub-Fund, and each of them shall allocate as much time to the business of the Sub-Fund as it or they deem necessary in its or their sole and absolute discretion. The Investment Manager and its affiliates are also engaged in other similar business activities to which they devote substantial time.

Historical Performance

The past performance of the Sub-Fund or any other investment vehicle managed by the Investment Manager or any of its affiliates is not meant to be an indication of its potential future performance. The nature of, and risk associated with, the Sub-Fund may differ substantially from those investments and strategies undertaken historically by the Investment Manager, its affiliates or the Sub-Fund. In addition, market conditions and investment opportunities may not be the same for the Sub-Fund as they had been in the past, and may be less favourable. Therefore, there can be no assurance that the Sub-Fund's assets will perform as well as the past investments managed by the Investment Manager or its affiliates. It is possible that significant disruptions in, or historically unprecedented effects on, the financial markets and/or the businesses in which the Sub-Fund invests in may occur, which could diminish any relevance the historical performance data of the Sub-Fund may have to the future performance of the Sub-Fund.

Business Risk

There can be no assurance that the Sub-Funds will achieve their investment objectives in respect of any of the strategies employed. The investment results of the Sub-Funds are reliant upon the success of the strategies implemented by the respective Investment Manager

Concentration of Investments

Although a Sub-Fund's policy is to diversify its investment portfolio, a Sub-Fund may at certain times hold relatively few investments subject to the overall investment restrictions. A Sub-Fund could be subject to significant losses if it holds a large position in a particular investment that declines in value or is otherwise adversely affected, including default of the issuer

Declining Performance with Asset Growth

Trading large positions may adversely affect prices and performance. In addition, there can be no assurance that appropriate investment opportunities will be available to accommodate future increases in assets under management which may require the Investment Manager to modify its investment decisions for the Sub-Fund because it cannot deploy all the assets in the manner it desires. There can be no assurance whatsoever as to the effect of an increase in equity under management may have on an Investment Manager's future performance.

Effect of Substantial Redemptions

Substantial redemptions by Shareholders within a short period of time could require a Sub-Fund to liquidate securities

positions more rapidly than would otherwise be desirable, possibly reducing the value of the Sub-Fund's assets and/or disrupting the Investment Manager's investment strategy. Reduction in the size of a Sub-Fund could make it more difficult to generate a positive return or to recoup losses due to, among other things, reductions in the Sub-Fund's ability to take advantage of particular investment opportunities or decreases in the ratio of its income to its expenses.

Leverage

The Sub-Funds may achieve some leverage through the use of financial derivatives instruments for the purpose of making investments. The use of leverage creates special risks and may significantly increase the Sub-Funds' investment risk. Leverage creates an opportunity for greater yield and total return but, at the same time, will increase the exposure of a Sub-Fund to capital risk.

Profit Sharing

In addition to receiving an Investment Management Fee, the Investment Manager of a Sub-Fund may also receive a Performance Fee based on the appreciation in the value of the Sub-Fund's assets and accordingly the Performance Fee will increase with regard to unrealised appreciation, as well as realised gains. Accordingly, a Performance Fee may be paid on unrealised gains which may subsequently never be realised. The Performance Fee may create an incentive for an Investment Manager to make investments for a Sub-Fund which are riskier than would be the case in the absence of a fee based on the performance of the Sub-Fund.

Model Risk

Certain strategies require the use of quantitative valuation models as developed by third parties. As market dynamics shift over time (for example, due to changed market conditions and participants), a previously highly successful model often becomes outdated or inaccurate, the Investment Manager may not recognise that fact before substantial losses are incurred. There can be no assurance that any Investment Manager will be successful in continuing to develop and maintain effective quantitative models.

Trade Execution Risk

Many of the trading techniques used by the Sub-Funds require the rapid and efficient execution of transactions. Inefficient executions can eliminate the small pricing differentials that the Investment Manager may seek to exploit and impact, possibly materially, the profitability of a Sub-Fund's positions.

Other Trading Activities of the Investment Manager and its Affiliates

The Investment Manager and its principals, directors, officers, partners, members, managers, shareholders, employees and affiliates trade or may trade for their own accounts, and certain of such persons have sponsored or may in the future sponsor or establish other public and private investment funds. The Investment Manager and its affiliates may trade for accounts other than the Sub-Fund's account and will remain free to trade for such other accounts and to utilise trading strategies and formulae in trading for such accounts which are the same as or different from the ones that the Investment Manager will utilise in making trading decisions on behalf of the Sub-Fund. In addition, and if and when applicable, in their respective proprietary trading, the Investment Manager or its affiliates may take positions the same as or different than those taken on behalf of the Sub-Fund in accordance with the Investment Manager's and its affiliates' internal policies. The records of any such trading will not be available for inspection by investors except to the extent required by law. Because of price volatility, occasional variations in liquidity, and differences in order execution, it might not be possible for the Investment Manager and its affiliates to obtain identical trade execution for all their respective clients. When block orders are filled at different prices, the

Investment Manager and its affiliates will assign the executed trades on a systematic basis among all client accounts.

Selection of Brokers and Dealers

The policy of the Investment Manager regarding purchases and sales for its portfolios is that primary consideration will be given to obtaining the most favourable execution of the transactions in seeking to implement the investment strategy of the Sub-Fund. The Investment Manager will effect transactions with those brokers, dealers, futures commission merchants, banks and other counterparties (collectively, "brokers and dealers") which the Investment Manager believes provide the most favourable net prices and who are capable of providing efficient executions. Additional considerations include the ability of brokers and dealers to provide internal and external research services, special execution capabilities, clearance, settlement or other services including communications and data processing and other similar equipment and services and the furnishing of stock quotation and other similar information. The Investment Manager also may cause a broker or dealer who provides such certain services to be paid a commission or, in the case of a dealer, a dealer spread for executing a portfolio transaction, which is in excess of the amount of commission or spread another broker or dealer would have charged for effecting that transaction. On some occasions the Investment Manager may "step out" a commission or send part of a commission to a broker who did not execute the order. Prior to making such an allocation to a broker or dealer, however, the Investment Manager will make a good faith determination that such commission or spread was reasonable in relation to the value of the brokerage, research or other services provided, viewed in terms of that particular transaction or in terms of all the transactions over which the Investment Manager or its affiliates exercise trading discretion and will ensure that the relevant Sub-Fund derives a direct or indirect economic interest from such an allocation.

Block Orders

When the Investment Manager and its affiliates deems the purchase or sale of securities to be in the best interest of the Sub-Fund and of other clients of the Investment Manager and its affiliates, the Investment Manager and its affiliates may aggregate the securities to be purchased or sold in order to obtain superior execution and/or lower brokerage expenses. In such event, allocation of the securities purchased or sold, as well as expenses incurred in the transaction, shall be made in a manner in which the Investment Manager and its affiliates consider, in their sole and absolute discretion, to be the most equitable. When there is a limited supply of an investment opportunity, the Investment Manager and its affiliates shall allocate investment opportunities among the Sub-Fund and other accounts managed by the Investment Manager and its affiliates in a manner which they determines, in their sole and absolute discretion, to be fair and reasonable.

Epidemics, Pandemics, and Outbreaks of Disease

The Company and its service providers' activities could be materially adversely affected by outbreaks of disease, epidemics and public health issues globally. A novel coronavirus was first detected in late December 2019 and is causing an outbreak of respiratory disease in countries around the world. On February 11, 2020 the World Health Organisation (the "WHO") named the disease "COVID-19" and on March 11, 2020 the WHO declared a pandemic. Countries that have already suffered outbreaks of the disease are likely to suffer a continued increase in recorded cases of the disease. Furthermore, the disease is likely to spread to additional countries around the world. Although the long-term effects of COVID-19 (and the actions and measures taken by governments around the world to halt the spread of the virus) cannot currently be predicted, previous occurrences of other epidemics, pandemics and outbreaks of disease, such as H5N1, H1N1 and the Spanish flu, had material adverse effects on the economies, equity markets and operations of those countries and jurisdictions in which they were most prevalent. A continued escalation in the COVID-19 outbreak could see a continual decline in global economic growth (worst-case predictions estimate that global economic growth could be halved and according to the OECD, plunge several countries into recession.). Many businesses around the world have curtailed their travel and meeting plans. This is likely to slow business activity, including in particular international business activity. The spread of COVID-19 may have an adverse

impact on the Company and its Sub-Funds. Covid-19 may negatively impact the business activities of the Investment Manager and other service providers to the Company, resulting, for example, in employees being either absent from work or to work remotely for prolonged periods of time. The ability of the employees of the Investment Manager and/or other service providers of the Company to work effectively on a remote basis may adversely impact the day-to-day operations of the Company.

Sustainability Risks

In March 2018, the European Commission published an Action Plan on Financing Sustainable Growth (the “EU Action Plan”) that set out an EU strategy for sustainable finance. The EU Action Plan identified several legislative initiatives, including Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (“SFDR”). SFDR requires transparency with regard to the integration of evaluations of environmental, social or governance events or conditions that, if they occur, could cause an actual or a potential material negative impact on the value of the investments made by a financial product (“Sustainability Risks”) and consideration of adverse sustainability impacts of the actions financial products and financial market participants.

At the date of this Prospectus, it is difficult to predict the full extent of the impact of SFDR and the EU Action Plan on the Fund [and its Sub-Funds]. The Board of Directors reserves the right to adopt such arrangement as it deems necessary or desirable to ensure that the Fund [and its Sub-Funds] complies with any applicable requirements of the SFDR and any other applicable legislation or regulations related to the EU Action Plan. In particular, the Management Company and the Fund await the further consultation and/or guidance on the level 2 regulatory technical standards (the “RTS”), and the adoption by the EU institutions of the RTS. Once adopted, this Prospectus and/or the websites of the Management Company and Portfolio Manager may be updated to include further disclosures as required.

Principal adverse impacts of investment decisions on sustainability factors are not currently considered due to the lack of available and reliable data. The situation will however be reviewed going forward.

Due to the nature of the Fund’s investment strategy and types of securities it holds, the Fund is exposed to varied Sustainability Risks which include, but are not limited to:

- corporate governance malpractices (e.g. board structure, executive remuneration);
- shareholder rights (e.g. election of the likely directors, capital amendments);
- changes to regulation (e.g. greenhouse gas emissions restrictions, governance codes);
- physical threats (e.g. extreme weather, climate change, water shortages);
- brand and reputational issues (e.g. poor health & safety records, cyber security breaches);
- supply chain management (e.g. increase in fatalities, lost time injury rates, labour relations); and
- work practices (e.g. observation of health, safety and human rights provisions).

Specific information on the risks of investing (including Sustainability Risks, where applicable) can be found in the relevant Sub-Fund supplement.

6.2. Market Risks

Valuation of the Sub-Fund's Assets

Investors in the Shares should be aware that an investment in the Shares involves assessing the risk of an investment linked to the Sub-Fund's assets. The value of the Sub-Fund's assets may vary over time and may increase or decrease by reference to a variety of factors which may include, amongst others, corporate actions, macro-economic factors and speculation.

Exchange Rates

Investors in the Shares should be aware that such an investment may involve exchange rate risks. For example (i) the Sub-Fund's assets may be denominated in a currency other than the Reference Currency; (ii) the Shares may be denominated in a currency other than the currency of the investor's home jurisdiction; and/or (iii) the Shares may be denominated in a currency other than the currency in which an investor wishes to receive his monies. Exchange rates between currencies are determined by factors of supply and demand in the international currency markets which are influenced by macro- economic factors, speculation and central bank and government intervention (including the imposition of currency controls and restrictions). Fluctuations in exchange rates may affect the value of the Shares. Some Sub-Funds may have the ambition to fully hedge the currency risk so that the classes of Shares receive a similar performance in local currency terms. Deviations in performance between different currency-hedged classes of Shares may occur.

Interest Rate

Interest rates are determined by factors of supply and demand in the international money markets which are influenced by macro- economic factors, speculation and central bank and government intervention. Fluctuations in short term and/or long term interest rates may affect the value of the Shares. Fluctuations in interest rates of the currency in which the Shares are denominated and/or fluctuations in interest rates of the currency or currencies in which the Sub-Fund's assets are denominated may affect the value of the Shares.

Market Volatility

Market volatility reflects the degree of instability and expected instability of the performance of the Shares, the Sub-Fund's assets. The level of market volatility is not purely a measurement of the actual volatility, but is largely determined by the prices for instruments which offer investors protection against such market volatility. The prices of these instruments are generally determined by forces of supply and demand in the options and derivatives markets. These forces are, themselves, affected by factors such as actual market volatility, expected volatility, macro-economic factors and speculation.

Liquidity and Market Characteristics

In some circumstances, investments may become relatively illiquid making it difficult to dispose of them at the prices quoted on the various exchanges. Accordingly, a Sub-Fund's ability to respond to market movements may be impaired and the Sub-Fund may experience adverse price movements upon liquidation of its investments. Settlement of transactions may be subject to delay and administrative uncertainties.

Market Liquidity and Leverage

Changes in overall market leverage, deleveraging as a consequence of a decision by the counterparties with which a Sub-Fund enters into repurchase/reverse repurchase agreements or derivative transactions, to reduce the level of leverage available, or the liquidation by other market participants of the same or similar positions, may also adversely affect the Sub-Fund's portfolio.

Credit Risk

An investment in bonds or other debt securities involves counterparty risk of the issuer of such bonds or debt securities which may be evidenced by the issuer's credit rating. An investment in bonds or other debt securities issued by issuers with a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than that of more highly rated issuers. In the event that any issuer of bonds or other debt securities experiences financial or economic difficulties this may affect the value of the bonds or other debt securities

(which may be zero) and any amounts paid on such bonds or other debt securities (which may be zero). This may in turn affect the Net Asset Value per Share.

Risk of Loss

An investment in the Shares is speculative and entails substantial risk. An investor could lose all or substantially all of its investment in any Sub-Fund. The Shares are only suitable for persons willing to accept and able to absorb such risks. No one should consider investing more than they can afford to lose.

Alternative investment strategies are subject to a "risk of ruin" to which traditional strategies are not.

Stagnant Markets

Although volatility is one indication of market risk, certain investment strategies rely for their profitability on market volatility contributing to the mispricings which they are designed to identify. In periods of trendless, stagnant markets and/or deflation, alternative investment strategies have materially diminished prospects for profitability.

Volatility Trading

Market volatility is a derivative of directional market movements and is itself often materially more volatile than underlying reference asset prices. Price movements are influenced by many unpredictable factors, such as market sentiment, inflation rates, interest rate movements and general economic and political conditions.

At any given time, different market participants will have different views on the level of market volatility; if the Investment Manager incorrectly estimates market volatility, the Investment Manager will misprice the options which it trades.

Volatility strategies depend on mispricings and changes in volatility. In periods of trendless, stagnant markets and/or deflation, alternative investment strategies have materially diminished prospects for profitability.

Relative Value Strategies

The success of relative value trading is dependent on the ability to exploit relative mispricings among interrelated instruments. Although relative value positions are considered to have a lower risk profile than directional trades as the former attempt to exploit price differentials not overall price movements, relative value strategies are by no means without risk. Mispricings, even if correctly identified, may not converge within the time frame within which a Sub-Fund maintains its positions. Even pure "riskless" arbitrage - which is rare - can result in significant losses if the arbitrage cannot be sustained (due, for example, to margin calls) until expiration. A Sub-Fund's relative value strategies are subject to the risks of disruptions in historical price relationships, the restricted availability of credit and the obsolescence or inaccuracy of its or third-party valuation models. Market disruptions may also force a Sub-Fund to close out one or more positions. Such disruptions have in the past resulted in substantial losses for relative value strategies.

Directional Trading

Certain of the positions taken by a Sub-Fund may be designed to profit from forecasting absolute price movements in a particular instrument. Predicting future prices is inherently uncertain and the losses incurred, if the market moves against a position, will often not be hedged. The speculative aspect of attempting to predict absolute price movements is generally perceived to exceed that involved in attempting to predict relative price fluctuations.

Event Driven Strategies

The success of event driven trading depends on the successful prediction of whether various corporate events will occur or be consummated. The consummation of mergers, exchange offers, tender offers and other similar transactions can be prevented or delayed, or the terms changed, by a variety of factors. If a proposed transaction appears likely not to be consummated or in fact is not consummated or is delayed, the market price of the securities purchased by a Sub-Fund may decline sharply and result in losses to such Sub-Fund.

Commodity and Energy Trading

A Sub-Fund may from time to time have a significant commitment to commodity and energy index trading (i.e., trading in indices on electricity, natural gas, oil, crops and meats and related derivative instruments, including swaps, options and futures). Commodity index and energy index trading involves certain financial risks that are qualitatively different from those incurred in trading securities and other financial instruments.

Distressed Strategies

Investment Managers may invest in securities of issuers in weak financial condition, experiencing poor operating results, having substantial financial needs or negative net worth, facing special competitive or product obsolescence problems, or issuers that are involved in bankruptcy or reorganisation proceedings. Investments of this type involve substantial financial business risks that can result in substantial or total losses. Among the problems involved in investments in troubled issuers is the fact that information as to the conditions of such issuers may be limited, thereby reducing the Investment Manager's ability to monitor the performance and to evaluate the advisability of continued investments in specific situations. The market prices of such securities are also subject to abrupt and erratic market movements and above-average price volatility, and the spread between the bid and ask prices of such securities may be greater than normally expected. It may take a number of years for the market price of such securities to reflect their intrinsic value.

Distressed securities not only exhibit a higher degree of risk as compared to the risks inherent to the conventional investments in fixed-income securities, but also modify the importance of those and even become subject to risk types which are almost irrelevant for the debt securities of good standing. So, the liquidity of the security may become a superior risk as compared to the credit risk or may even be the most significant risk to which the holder of the distressed security is exposed.

Furthermore, a judge risk gains importance (so-called "J-risk") in the sector of the distressed securities. As stated above, the distressed securities may be involved in the bankruptcy process. During this process, it is usual that several court trials take place. Particular risks arise resulting from the uncertainty of the outcome of this trials, in particular out of the decisions made by the relevant judge.

Credit risk gains on importance as compared to the securities issued by companies whose operations are "going concern".

Credit Default Swaps

A Sub-Fund may purchase and sell credit derivatives contracts - primarily credit default swaps both for hedging and other purposes. Credit default swaps generally trade on the basis of theoretical pricing and valuation models, which may not accurately value such swap positions when established or when subsequently traded or unwound under actual market conditions.

Below Investment Grade Securities

The Company may invest in fixed-income instruments which are or are deemed to be the equivalent in terms of quality to securities rated below investment grade by Moody's Investors Service, Inc. and Standard & Poor's Corporation and accordingly involve great risk. Such securities are regarded as predominantly speculative with respect to the issuer's capacity to pay interest and repay principal in accordance with the terms of the obligations and involve major risk to adverse conditions. These securities offer higher returns than bonds with higher ratings as compensation for holding an obligation of an issuer perceived to be less creditworthy. While all security investments have some degree of risk, these types of securities may be subject to greater market fluctuations and risk of loss of income and principal than are investments in lower yielding fixed-income securities with higher ratings.

Conflicts Relating to Equity and Debt Ownership by the Sub-Fund and Affiliates

The Sub-Fund and other accounts maintained by the Investment Manager may at various times hold both debt and equity interests in issuers that are financially distressed or might become bankrupt. During negotiations among creditors or bankruptcy proceedings of such issuers, the Sub-Fund and such other holders may have competing claims for the remaining assets of such issuers.

Trading in Securities of Emerging Market Issuers

The Sub-Fund may trade in securities of issuers located in emerging markets - subject to the UCITS regulations governing trades of this nature. The economies of certain emerging market countries may be vulnerable to changes in international trading patterns, trade barriers and other protectionist or retaliatory measures. Investments in emerging markets also may be adversely affected by governmental actions such as the imposition of capital controls, nationalisation of companies or industries, expropriation of assets or the imposition of punitive taxes. In addition, certain governments may prohibit or impose substantial restrictions on foreign investing in capital markets or in certain industries. Any such action could severely affect security prices, impair the Sub-Fund's ability to purchase or sell emerging market securities or otherwise adversely affect the Sub-Fund. Other emerging market risks may include, without limitation, difficulties in pricing securities and difficulties in enforcing favourable legal judgments in courts. Investments in emerging market securities will only be made on an ancillary basis and do not form a central part of the strategy.

Regulated Markets in Emerging Market Countries

Trading on Regulated Markets in emerging market countries may be conducted in such a manner that all participants are not afforded an equal opportunity to execute certain trades and may also be subject to a variety of political influences and the possibility of direct government intervention. If settlement procedures are unable to keep pace with the volume of transactions it will be difficult to conduct such transactions. Any difficulty with clearance or settlement procedures on such Regulated Markets may expose the Sub-Fund to losses. Any trading in emerging markets will be subject to the UCITS regulations governing trades of this nature.

Access to Non-Public Information May Affect the Ability of the Sub-Fund to Sell Investments

From time to time, the Sub-Fund, through the principals and/or employees or agents of the Investment Manager, may have access to non-public information following execution of a nondisclosure agreement or under other circumstances. Such access to non-public information may have the effect of impairing the Investment Manager's ability to sell or buy the related investments when, and upon the terms, it might otherwise desire, including as a result of applicable securities laws.

Uncovered Risks

The Investment Manager, from time to time, employs various hedging techniques in an attempt to reduce the risk of highly speculative investments in securities. Not all positions will be hedged, and there remains a substantial risk, however, that hedging techniques may not always be possible or effective in limiting losses. Hedging transactions also limit the opportunity for gain if the value of a hedged portfolio position should increase.

6.3. Use of Derivatives

While the prudent use of derivatives can be beneficial, derivatives also involve risks different from, and, in certain cases, greater than, the risks presented by more traditional investments. The following is a general discussion of important risk factors and issues concerning the use of derivatives that investors should understand before investing in a Sub-Fund.

Debt Securities

A Sub-Fund may invest in derivatives of debt securities which will subject the Sub-Fund to credit, liquidity and interest rate risks. Evaluating credit risk for debt securities involves uncertainty because credit rating agencies throughout the world have different standards, making comparison across countries difficult.

Forward Foreign Exchange Contracts

A forward foreign exchange contract is a contractually binding obligation to purchase or sell a particular currency at a specified date in the future. Forward foreign exchange contracts are not uniform as to the quantity or time at which a currency is to be delivered and are not traded on exchanges. Rather, they are individually negotiated transactions. Forward foreign exchange contracts are generally effected through a trading system known as the interbank market. It is not a market with a specific location but rather a network of participants electronically linked. Documentation of transactions generally consists of an exchange of telex or facsimile messages. There is no limitation as to daily price movements on this market and in exceptional circumstances there have been periods during which certain banks have refused to quote prices for forward foreign exchange contracts or have quoted prices with an unusually wide spread between the price at which the bank is prepared to buy and that at which it is prepared to sell. Transactions in forward foreign exchange contracts are not regulated by any regulatory authority nor are they guaranteed by an exchange or clearing house. A Sub-Fund is subject to the risk of the inability or refusal of its counterparties to perform with respect to such contracts. Any such default would eliminate any profit potential and compel a Sub-Fund to cover its commitments for resale or repurchase, if any, at the then current market price. These events could result in significant losses.

Developing Markets

A Sub-Fund may invest in derivatives of developing market debt securities, foreign exchange instruments and equities which may lead to additional risks being encountered when compared with investments in developed markets.

Market Risk

This is a general risk that applies to all investments meaning that the value of a particular derivative may change in a way which may be detrimental to a Sub-Fund's interests.

Synthetic Short Selling

Synthetic short selling involves trading on margin and can involve greater risk than investments based on a long

position. A synthetic short sale of a security involves the risk of a theoretically unlimited increase in the market price of the underlying security.

Control and Monitoring

Derivative products are highly specialised instruments that require investment techniques and risk analysis different from those associated with equity and fixed income securities. The use of derivative techniques requires an understanding not only of the underlying assets of the derivative but also of the derivative itself, without the benefit of observing the performance of the derivative under all possible market conditions. In particular, the use and complexity of derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to a Sub-Fund and the ability to forecast the relative price, interest rate or currency rate movements correctly.

Liquidity Risk

Liquidity risk exists when a particular instrument is difficult to purchase or sell. If a derivative transaction is particularly large or if the relevant market is illiquid, it may not be possible to initiate a transaction or liquidate a position at an advantageous price (however, the Company will only enter into OTC Derivatives if it is allowed to liquidate such transactions at any time at fair value).

Counterparty Risk

The Sub-Funds are subject to the risk of the insolvency of its counterparties (such as broker-dealers, futures commission merchants, banks or other financial institutions, exchanges or clearing houses).

The Sub-Funds may enter into transactions in OTC markets, which will expose the Sub-Funds to the credit of its counterparties and their ability to satisfy the terms of such contracts. For example, the Sub-Funds may enter into swap arrangements or other derivative techniques as specified in the relevant Annexes, each of which expose the Sub-Funds to the risk that the counterparty may default on its obligations to perform under the relevant contract. In the event of a bankruptcy or insolvency of a counterparty, the Sub-Funds could experience delays in liquidating the position and significant losses, including declines in the value of its investment during the period in which the Company seeks to enforce its rights, inability to realise any gains on its investment during such period and fees and expenses incurred in enforcing its rights. There is also a possibility that the above agreements and derivative techniques are terminated due, for instance, to bankruptcy, supervening illegality or change in the tax or accounting laws relative to those at the time the agreement was originated. However this risk is limited in view of the investment restrictions laid down in Section 5.2.3

Absence of Regulation in OTC Transactions

The Sub-Fund may engage in OTC transactions. In general, there is less governmental regulation and supervision in the OTC markets than of transactions entered into on regulated exchanges.

Risks of Stock Index Options

The Sub-Fund may purchase and sell call and put options on both securities and stock indices. A stock index measures the movement of a certain group of stocks by assigning relative values to the common stocks included in the index. The effectiveness of purchasing or selling stock index options as a hedging technique will depend upon the extent to which price movements in assets that are hedged correlate with price movements of the stock index selected.

Additional risks associated with an underlying of OTC Derivatives linked to specific types of securities or assets

There are special risk considerations associated with an underlying of OTC Derivatives of which the performance is linked directly or indirectly to the following types of securities or assets. The degree of exposure to such factors will depend on the precise way in which an underlying of OTC Derivatives is linked to such assets.

Futures and Options

There are special risk considerations associated with an underlying of OTC Derivatives of which the performance is linked to futures, options or other derivative contracts. Depending on the nature of the underlying assets, reference rates or other derivatives to which they relate and on the liquidity in the relevant contract, the prices of such instruments may be highly volatile and hence risky in nature.

Real Estate

There are special risk considerations associated with an underlying of OTC Derivatives of which the performance is linked to securities of companies principally engaged in the real estate industry. These include: the cyclical nature of real estate values, risks related to general and local economic conditions, overbuilding and increased competition, increases in property taxes and operating expenses, demographic trends and variations in rental income, changes in zoning laws, casualty or condemnation losses, environmental risks, regulatory limitations on rents, changes in neighbourhood values, related party risks, changes in the appeal of properties to tenants, increases in interest rates and other real estate capital market influences. Generally, increases in interest rates will increase the costs of obtaining financing, which could directly and indirectly decrease the value of an underlying of OTC Derivatives and thus the Sub-Fund's investments.

Commodities and Energies

Prices of commodity indices and energy indices are influenced by, among other things, various macro-economic factors such as changing supply and demand relationships, weather conditions and other natural phenomena, agricultural, trade, fiscal, monetary, and exchange control programmes and policies of governments (including government intervention in certain markets) and other unforeseeable events.

Emerging Market Assets

Exposure to emerging markets assets generally entails greater risks than exposure to well-developed markets, including potentially significant legal economic and political risks.

Emerging markets are by definition "in transformation" and are therefore exposed to the risk of swift political change and economic downturn. In recent years, many emerging market countries have undergone significant political, economic and social change. In many cases, political concerns have resulted in significant economic and social tensions and in some cases both political and economic instability has occurred. Political or economic instability may affect investor confidence, which could in turn have a negative impact on the prices of emerging market exchange rates, securities or other assets.

The prices of emerging market exchange rates, securities or other assets are often highly volatile. Movements in such prices are influenced by, among other things, interest rates, changing market supply and demand, external market forces (particularly in relation to major trading partners), trade, fiscal, monetary programmes, policies of governments, and international political and economic events and policies.

In emerging markets, the development of securities markets usually is at an early stage. This could lead to risks and practices (such as increased volatility) that are not common in more developed securities markets, which may negatively affect the value of securities listed on the exchanges of such countries. In addition, markets of emerging market countries are often characterised by illiquidity in the form of a low turnover of some of the listed securities.

It is important to note that, during times of global economic slowdown, emerging market exchange rates, securities and other assets are more likely than other forms of investment with lower risks to be sold during any "flight to quality", and their value may decrease accordingly.

Risks associated with the underlying of OTC Derivatives

There is no assurance that an underlying of OTC Derivatives will continue to be calculated and published on the basis described in this Prospectus or that it will not be amended significantly. Any change to the underlying of OTC Derivatives may adversely affect the value of the Shares. The past performance of an underlying of OTC Derivatives is not necessarily a guide to its future performance.

Where an underlying of OTC Derivatives consists of an index it will not be actively managed and the selection of the component indices, assets or securities will be made in accordance with the relevant index composition rules and eligibility criteria and not by reference to any performance criteria or performance outlook. Accordingly, the composition of the index is not designed to follow recommendations or research reports issued by the index sponsor, its affiliates or any other person. No index sponsor has any obligation to take the needs of the Company or the investors into consideration in determining, composing or calculating any underlying of OTC Derivatives.

Other Risks

Other risks in using derivatives include the risk of differing valuations of derivatives arising out of different permitted valuation methods and the inability of derivatives to correlate perfectly with underlying securities, rates and indices. Many derivatives, in particular OTC Derivatives, are complex and often valued subjectively and the valuation can only be provided by a limited number of market professionals which often are acting as counterparties to the transaction to be valued. Inaccurate valuations can result in increased cash payment requirements to counterparties or a loss of value to a Sub-Fund. However, this risk is limited as the valuation method used to value OTC Derivatives must be verifiable by an independent auditor.

Derivatives do not always perfectly or even highly correlate or track the value of the securities, rates or indices they are designed to track. Consequently, a Sub-Fund's use of derivative techniques may not always be an effective means of, and sometimes could be counterproductive to, following a Sub-Fund's investment objective.

Futures

Futures markets are highly volatile and a high degree of leverage is typical of a futures trading account. As a result, a relatively small price movement in a futures contract may result in substantial losses to a Sub-Fund. Moreover, most commodity exchanges limit fluctuations in futures contract prices during a single day by regulations referred to as "daily price fluctuation limits" or "daily limits." Such regulations could prevent the Sub-Fund from promptly liquidating unfavourable positions and thus subject the Sub-Fund to substantial losses.

6.4. Additional Risk Factors when investing in Shares listed on a stock exchange Listing Procedure

The Company may apply for the listing of certain Classes of the Shares on the Luxembourg Stock Exchange or any other stock exchange as determined by the Board of Directors. There can be no certainty, however, that a listing on

such stock exchanges will be achieved.

Liquidity and Secondary Trading

Even though the Shares are listed on one or more stock exchanges, there can be no certainty that there will be liquidity in the Shares on one or more of the stock exchanges or that the market price at which the Shares may be traded on a stock exchange will be the same as the Net Asset Value per Share. There can be no guarantee that once the Shares are listed on a stock exchange they will remain listed or that the conditions of listing will not change.

Trading in Shares on a stock exchange may be halted due to market conditions or because in the stock exchanges' view, trading the Shares is inadvisable. In addition, trading in the Shares may be subject to a halt in trading caused by extraordinary market volatility pursuant to stock exchanges' rules. If trading on a stock exchange is halted, investors in Shares may not be able to sell their Shares until trading resumes.

Although, where applicable, the Shares are listed on a stock exchange, it may be that the principal market for some Shares may be in the OTC market. The existence of a liquid trading market for the Shares may in such case depend on whether brokers/dealers will make a market in such Shares. Although as a condition precedent to listing on certain stock exchanges one or more market makers, being financial institutions, might be appointed to offer prices for the Shares, there can be no assurance that a market will continually be made for any of the Shares or that such market will be or remain liquid. The price at which Shares may be sold will be adversely affected if trading markets for the Shares are limited or absent.

Variation of Net Asset Value per Share and Trading Prices on the Secondary Market

The Net Asset Value per Share will fluctuate with changes in the market value of the Sub-Fund's assets, the derivative techniques used and changes in the exchange rate between the Reference Currency or, if different, the listing currency of a Share and any relevant foreign currency of such Sub-Fund's assets. The market price of the Shares will fluctuate in accordance with the changes in the Net Asset Value per Share and the supply and demand on the stock exchange on which the Shares are listed. The Company cannot predict whether the Shares will trade below, at or above their Net Asset Value per Share. Price differences may be due, in large part, to the fact that supply and demand forces in the secondary market for the Shares will be closely related, but not identical to the same forces influencing the trading prices of the Sub-Fund's assets, individually or in the aggregate, at any point in time. Furthermore, the listing on multiple exchanges of the Shares may result in price differences between such exchanges because of fiscal, regulatory or other market factors.

6.5. Specific Restrictions in Connection with the Shares

Investors should note that there may be restrictions in connection with the subscription, holding and trading in the Shares as specified, as the case may be, in the relevant Annex. Such restrictions may have the effect of preventing the investor from freely subscribing, holding or transferring the Shares. In addition to the features described below, such restrictions may also be caused by specific requirements such as a Minimum Subscription Amount or due to the fact that certain Sub-Funds may be closed to additional subscriptions after the Initial Offering Period.

Minimum Redemption Amount

The Shareholders may be required to apply for redemption in respect of a minimum number of Shares in order to redeem such Shares. As a result, Shareholders holding less than such specified minimum number of Shares will either have to sell such Shares via a stock exchange or purchase additional Shares, in which case the Shareholders may be liable for any related transaction costs and/or expenses of a tax nature. Investors should review this Prospectus and the relevant Annex to ascertain whether and to what extent such provisions may apply.

Redemption Notice and Certifications

If the Shares are subject to provisions concerning delivery of a redemption notice, as mentioned under "Subscriptions, Redemptions and Conversions" of the Prospectus and/or in the relevant Annex, and such notice is received by the Administrative Agent after the redemption deadline, it will not be deemed to be duly delivered until the next following Banking Day. Such delay may increase or decrease the redemption price from what it would have been but for such late delivery of the redemption notice.

The failure to deliver any certifications required could result in the loss or inability to receive amounts or deliveries otherwise due under the Shares. Investors should review this Prospectus and the relevant Annex to ascertain whether and how such provisions apply to the Shares.

6.6. Market Disruption Events & Settlement Disruption Events

A determination of a market disruption event or a settlement disruption event in connection with any of the Sub-Fund's assets may have an effect on the value of the Shares and may delay settlement in respect of the Sub-Fund's assets and/or the Shares.

6.7. Taxation

Investors in the Shares should be aware that they may be required to pay income tax, withholding tax, capital gains tax, wealth tax, stamp taxes or any other kind of tax on distributions or deemed distributions of a Sub-Fund, capital gains within a Sub-Fund, whether or not realised, income received or accrued or deemed received within a Sub-Fund etc., and this will be according to the laws and practices of the country where the Shares are purchased, sold, held or redeemed and in the country of residence or nationality of the Shareholder

Investors should be aware of the fact that they might have to pay taxes on income or deemed income received by or accrued within a Sub-Fund. Taxes might be calculated based on income received and/or deemed to be received and/or accrued in a Sub-Fund in relation to their direct investments, whereas the performance of a Sub-Fund, and subsequently the return investors receive after redemption of the Shares, might partially or fully depend on the performance of underlying assets. This can have the effect that the investor has to pay taxes for income or/and a performance which he does not, or does not fully, receive.

Investors who are in any doubt as to their tax position should consult their own independent tax advisers. In addition, investors should be aware that tax regulations and their application or interpretation by the relevant taxation authorities' change from time to time. Accordingly, it is not possible to predict the precise tax treatment, which will apply at any given time.

6.8. Change of Law

The Company must comply with regulatory constraints, such as a change in the laws affecting the Investment Restrictions, which might require a change in the investment policy and objectives followed by a Sub-Fund.

6.9. Political Factors

The performance of the Shares or the possibility to purchase, sell, or redeem may be affected by changes in general economic conditions and uncertainties such as political developments, changes in government policies, the

imposition of restrictions on the transfer of capital and changes in regulatory requirements.

6.10. Interested Dealings

The Directors, the Management Company, the Investment Manager, the Depositary, the Administrative Agent, each Global Distributor and any of their respective subsidiaries, affiliates, associates, agents, directors, officers, employees or delegates (together the "**Interested Parties**" and, each, an "**Interested Party**") may:

- (a) contract or enter into any financial, banking or other transaction with one another or with the Company including, without limitation, investment by the Company, in securities in any company or body any of whose investments or obligations form part of the assets of the Company or any Sub-Fund, or be interested in any such contracts or transactions;
- (b) invest in and deal with Shares, securities, assets or any property of the kind included in the property of the Company for their respective individual accounts or for the account of a third party; and
- (c) deal as agent or principal in the sale, issue or purchase of securities and other investments to, or from, the Company through, or with, the Investment Manager or the Depositary or any subsidiary, affiliate, associate, agent or delegate thereof.

Any assets of the Company in the form of cash may be invested in certificates of deposit or banking investments issued by any Interested Party. Banking or similar transactions may also be undertaken with or through an Interested Party (provided it is licensed to carry out this type of activities).

There will be no obligation on the part of any Interested Party to account to Shareholders for any benefits so arising and any such benefits may be retained by the relevant party. Any such transactions must be carried out as if effected on normal commercial terms negotiated at arm's length.

6.11. Conflicts of Interest and Resolution of Conflict

Investors, in acquiring Shares, are relying on the good faith, experience and expertise of the Directors, the Management Company, the Global Distributor, the Investment Manager, the Depositary and the Administrative Agent. The above mentioned entities are subject to a number of conflicts of interest in connection with the services to be provided to each Sub-Fund.

Each of the Directors, the Management Company, the Global Distributor, the Investment Manager, the Depositary and the Administrative Agent may, each in the course of its business, have potential conflicts of interests with the Company. The Company may appoint employees of the Management Company as Directors and the fiduciary duties of such Directors may compete with or be different from the interests of the Management Company. Each of the Directors, the Management Company, the Global Distributor, the Investment Manager, the Depositary and the Administrative Agent will have regard to their respective duties to the Company and other persons when undertaking any transactions where conflicts or potential conflicts of interest may arise. In the event that such conflicts do arise, each of such persons will undertake or shall be requested by the Company to undertake to use its reasonable endeavours to resolve any such conflicts of interest fairly (having regard to its respective obligations and duties) and to ensure that the Company and the Shareholders are fairly treated.

The professional services provided by the Investment Manager are not exclusive to the relevant Sub-Fund. The Investment Manager devotes only such time to the business of the Sub-Fund as the Investment Manager determines is necessary. The Investment Manager and its principals are entitled to engage, and presently do engage, in a

number of other activities, including, for example, managing other funds, accounts and investment partnerships. Accordingly, conflicts may arise with respect to the time and resources that the Investment Manager, its principals and employees may devote to the Sub-Fund's business.

Similarly, the Directors and the employees of the Management Company and the Depositary may be engaged in any other activities such as directors or officers of other companies or entities. Consequently, conflicts may arise with respect to the time and resources that the Directors and the employees of the Management Company and the Depositary may devote to the Company.

FundRock Management Company S.A. has been appointed by the Company to act as Management Company and Global Distributor (unless any other Global Distributor has been appointed for each Sub-Fund as specifically disclosed in the relevant Annex) and Skandinaviska Enskilda Banken AB (publ), Luxembourg Branch has been appointed by the Company as Depositary of the Sub-Funds. FundRock Management Company S.A. and Skandinaviska Enskilda Banken AB (publ), Luxembourg Branch or any of their employees, agents, affiliates, subsidiaries (the "Related Affiliates") may perform further or alternative roles relating to the Company and/or the Sub-Funds, including for example (i) being the counterparty in respect of any investments of the Company, (ii) being involved in arrangements relating to the relevant investments (for example as a derivative counterparty, or a calculation agent), (iii) being appointed as sub-Depositary by the Depositary and the Company, (iv) acting as a market maker in respect of Shares, (v) being responsible for providing valuations which may form the basis of calculating the Net Asset Value per Share in respect of any Sub-Fund and/or (vi) sponsor or otherwise be involved in a variety of structured products such as participating notes, structured funds, indices, options or swaps linked in whole or in part to the performance of one or more Sub-Funds. FundRock Management Company S.A., Skandinaviska Enskilda Banken AB (publ), Luxembourg Branch and the Related Affiliates may receive compensation for providing certain services to the Company and/or the Sub-Funds.

The Directors acknowledge that FundRock Management Company S.A., Skandinaviska Enskilda Banken AB (publ), Luxembourg Branch and the Related Affiliates may have a potential conflict of interest by virtue of acting in the various capacities mentioned in the preceding paragraph or as counterparties to derivative transactions or other contracts entered into by the Company and by virtue of providing valuations of such derivative transactions or contracts. However, the Directors expect that FundRock Management Company S.A., Skandinaviska Enskilda Banken AB (publ), Luxembourg Branch and the Related Affiliates acting as a counterparty will be a person suitable and competent to provide such valuations in the strict observance of the applicable rules, including rules aiming to guarantee independent valuations, and who will do so at a cost to the Company that will be in line with costs that would be incurred if the services were provided by an independent third party.

FundRock Management Company S.A., Skandinaviska Enskilda Banken AB (publ), Luxembourg Branch and the Related Affiliates may have relationships with the Investment Manager (and other funds, accounts or investment partnerships managed by the Investment Manager) unrelated to the business of the Company and the Sub-Funds and may receive compensation in connection with such relationships. Such relationships can include, among others, prime brokerage and lending arrangements, as well as issuing derivative instruments to them and assisting them in financial structuring.

FundRock Management Company S.A., Skandinaviska Enskilda Banken AB (publ), Luxembourg Branch and the Related Affiliates may from time to time come into possession of confidential information relating to an Investment Manager which FundRock Management Company S.A., Skandinaviska Enskilda Banken AB (publ), Luxembourg Branch and the Related Affiliates will not use for the benefit of the Company and the Sub-Funds, due to confidentiality concerns or legal considerations. In addition, Related Affiliates may also develop analyses and/or evaluations of the Investment Manager, as well as buy or sell interests in the Investment Manager, on behalf of their proprietary or client accounts. FundRock Management Company S.A., Skandinaviska Enskilda Banken AB (publ), Luxembourg Branch and the Related Affiliates regard its analyses, evaluations and purchase and sale activities as proprietary

and confidential, and will not disclose any of the foregoing to Shareholders.

Limits of Risk Disclosure

The above outline of risk factors associated with the Sub-Funds and the Shares does not purport to be a complete explanation of the risks involved in an investment in the Sub-Funds. Prospective investors should read this entire Prospectus and consult with their own advisers before deciding whether to invest in a Sub-Fund. An investment in a Sub-Fund should only be made by investors who understand the nature of, do not require more than limited liquidity in, and can bear the economic risks associated with the investment.

7. Subscriptions, Redemptions and Conversions

7.1. Subscriptions

During the Initial Offering Period of a Sub-Fund or a Class, the Company is offering the Shares at the Initial Subscription Price plus the Sales Charge (if applicable) under the terms and conditions as set forth in the Annex relating to the relevant Sub-Fund. The Company may offer Shares in one or several Sub-Funds and/or in one or more Classes of Shares in each Sub-Fund.

The Board of Directors may in its discretion decide to cancel the offering of a Sub-Fund. The Board of Directors may also decide to cancel the offering of a new Class of Shares. In such case, investors having made an application for subscription will be duly informed and any subscription monies already paid will be returned. For the avoidance of doubt, no interest will be payable on such amount prior to their return to the investors.

After the Initial Offering Period, the Company may offer Shares of each existing Class in each existing Sub-Fund on any day that is a Valuation Day, unless otherwise stipulated in the Annex relating to the relevant Sub-Fund.

The Board of Directors may decide that for a particular Class or Sub-Fund no further Shares will be issued after the Initial Offering Period (as will be set forth in the relevant Annex). However, the Board of Directors reserves the right to authorise at any time and without notice the issue and sale of Shares for Sub-Funds that were previously closed for further subscriptions. Such decision will be made by the Board of Directors with due regard to the interest of the existing Shareholders.

The Company may, in its discretion, create new Sub-Funds with different investment objectives and policies or new Classes of Shares within each Sub-Fund at any time, details of which shall be set forth in the Annex relating to the relevant Sub-Fund.

Shareholders or prospective investors may subscribe for a Class of Shares in a Sub-Fund at a subscription price per Share equal to:

- (a) the Initial Subscription Price plus the Sales Charge (if applicable) where the subscription relates to the Initial Offering Period; or
- (b) the Net Asset Value per Share as of the Valuation Day applicable to the subscription plus the Sales Charge (if applicable) where the subscription relates to a subsequent offering (other than the Initial Offering Period) of Shares of an existing Class in an existing Sub-Fund.

The Company may agree to issue Shares as consideration for a contribution in kind of securities to any investor who requests, in compliance with the conditions set forth by the Company, in particular the obligation to deliver a valuation report from the auditor of the Fund which shall be available for inspection and provided that such securities comply

with the investment objectives, policies and restrictions of the relevant Sub-Fund, insofar as required by Luxembourg law. Any costs incurred in connection with a contribution in kind of securities shall be borne by the relevant investor unless the Company considers that the contribution in kind is in the interest of the Company or made to protect the interests of the Company, in which case such costs may be borne in all or in part by the Company. Shares will be issued at their respective issue price against the contribution in kind valued this way.

The applicable Sales Charge (which can be up to 5% of the Initial Subscription Price or the relevant Net Asset Value) will be specified in the Annex relating to the relevant Sub-Fund.

7.2. Subscription Procedure

Subscriptions may be made only by investors who are not Restricted Persons by:

- (a) submitting a written subscription request to the Global Distributor(s) or the Registrar and Transfer Agent to be received by the Registrar and Transfer Agent at the time specified in the Annex relating to each Sub-Fund; and
- (b) delivering to the account of the Depositary cleared funds for the full amount of the subscription price (plus any Sales Charge, if applicable) of the Shares being subscribed for pursuant to the subscription request, within the timeframe specified in the relevant Annex.

Subscribers for Shares must indicate the allocation of the subscription monies among one or more of the Sub-Funds offered by the Company.

In the event that the subscription order is incomplete (i.e., all requested information and documentation are not received by the Registrar and Transfer Agent by the deadline set out in the relevant Annex) the subscription order will be rejected and a new subscription order will have to be submitted.

The Company reserves the right to cancel an application if subscription monies are not received on an account of the Company in cleared funds and in the reference currency of the relevant Share Class within the time limit specified in the relevant Annex.

The minimum amount (if any) of Shares of the same Class or of the same Sub-Fund for which a subscriber or Shareholder must subscribe in each Sub-Fund is the amount stipulated in the Annex relating to the relevant Sub-Fund as the Minimum Subscription Amount.

In the event that the Company decides to reject any application to subscribe for, or the purchase of Shares, the monies transferred by a relevant applicant will be returned to the prospective investor without undue delay (unless otherwise provided for by law or regulations).

The number of Shares issued to a subscriber or Shareholder in connection with the foregoing procedures will be equal to the subscription monies provided by the subscriber or Shareholder, after deduction of the Initial Sales Charge (if any), divided by

- (a) the Initial Subscription Price, in relation to subscriptions made in connection with an Initial Offering Period, or
- (b) the Net Asset Value per Share of the relevant Class and in the relevant Sub-Fund as of the relevant Valuation Day.

With regard to the Initial Offering Period, Shares will be issued on the first Banking Day following the end of the Initial

Offering Period, unless otherwise specified in the Annex relating to each Sub-Fund.

The Company shall recognise rights to fractions of Shares up to three decimal places, rounded up or down to the nearest decimal point. Any purchases of Shares will be subject to the ownership restrictions set forth below. Fractional Shares shall have no right to vote but shall have the right to participate pro rata in distributions and allocation of liquidation proceeds.

Pursuant to the applicable laws and regulations, professional obligations have been outlined to prevent the use of investment funds for money laundering purposes. As a result of such provisions, the identity of individual subscribers and/or corporate entities shall be disclosed to the Company (and the Registrar and Transfer Agent which is responsible for collecting and checking such information). Details about the required information and documentation will be outlined in the application form for Shares. Such information shall be collected for compliance reasons only and shall be covered by confidentiality rules incumbent upon the Company and its appointed agents in Luxembourg.

7.3. Initial Offering Period, Minimum Initial Subscription Amount and Minimum Subsequent Subscription Amount

The Initial Offering Period, the Minimum Initial Subscription Amount and the Minimum Subsequent Subscription Amount, may vary according to the Sub-Fund and the Class of Shares. The Board of Directors reserves the right from time to time to waive any requirements relating to an Initial Offering Period, a Minimum Initial Subscription Amount and a Minimum Subsequent Subscription Amount as and when it determines in its reasonable discretion and by taking into consideration the equal treatment of Shareholders.

7.4. Register of Beneficial Owners

Any natural person who ultimately owns or controls the Company through direct or indirect ownership of more than 25% of the Shares of the Company or voting rights in the Company, or through other means of control (for the purpose of this section, the "Beneficial Owner"), must be registered on behalf of the Company as a Beneficial Owner in the register of beneficial ownership as provided for by the Luxembourg Law of 13 January 2019 setting up a register of beneficial owners (the "RBO Law"). Any such Beneficial Owner is obliged by the RBO Law to provide the Company and the Management Company with such further information as may be required by the Company in order to comply with the RBO Law.

7.5. Ownership Restrictions / Ineligible Applicants

The subscription form requires each prospective applicant for Shares to represent and warrant to the Company that, among other things, he is able to acquire and hold Shares without violating applicable laws. A person who is a Restricted Person may not invest in the Company. The Shares may not be offered, issued or transferred to any person that would qualify as a Restricted Person.

The Company has not been and will not be registered under the United States Investment Company Act of 1940 as amended (the "Investment Company Act"). The Shares of the Company have not been and will not be registered under the United States Securities Act of 1933 as amended (the "Securities Act") or under the securities laws of any state of the US and such units may be offered, sold or otherwise transferred only in compliance with the Securities Act of 1933 and such state or other securities laws. The Shares of the Company may not be offered or sold within the US or to or for the account, of any US Person. For these purposes, US Person is as defined in Rule 902 of Regulation S under the Securities Act.

Rule 902 of Regulation S under the Securities Act defines "US Person" to include inter alia any natural person resident

of the United States and with regards to investors other than individuals, (i) a corporation or partnership organised or incorporated under the laws of the US or any state thereof; (ii) a trust (a) of which any trustee is a US Person except if such trustee is a professional fiduciary and a co-trustee who is not a US Person has sole or shared investment discretion with regard to trust assets and no beneficiary of the trust (and no settlor if the trust is revocable) is a US Person or (b) where a court is able to exercise primary jurisdiction over the trust and one or more US fiduciaries have the authority to control all substantial decisions of the trust and (iii) an estate (a) which is subject to US tax on its worldwide income from all sources; or (b) for which any US Person is executor or administrator except if an executor or administrator of the estate who is not a US Person has sole or shared investment discretion with regard to the assets of the estate and the estate is governed by foreign law.

The term "US Person" also means any entity organised principally for passive investment (such as a commodity pool, Investment Company or other similar entity) that was formed:

(a) for the purpose of facilitating investment by a US Person in a commodity pool with respect to which the operator is exempt from certain requirements of Part 4 of the regulations promulgated by the United States Commodity Futures Trading Commission by virtue of its participants being non-US Persons or (b) by US Persons principally for the purpose of investing in securities not registered under the Securities Act, unless it is formed and owned by "accredited investors" (as defined in Rule 501 (a) under the Securities Act) who are not natural persons, estates or trusts.

Therefore, each applicant for Shares must certify that it is either (a) not a US Person, (b) not a Specified US Person within the meaning or (c) a "qualified purchaser" within the meaning of Section 2(a)(51) of the Investment Company Act and might be requested to prove that they are not Restricted Persons.

Shareholders are required to notify the Registrar and Transfer Agent of any change in their domiciliation status.

Prospective investors are advised to consult their legal counsel prior to investing in Shares of the Company in order to determine their status as non US Persons/specified US Person and as non-Restricted Persons.

The Company may, in its sole discretion, decline to accept an application to subscribe for Shares from any prospective subscriber, including any Restricted Person or any person failing to make the certification set forth in (a), (b) or (c) above. The Company may at any time at its discretion temporarily limit, suspend or completely discontinue the issue of shares, in as far as this is deemed to be necessary in the interests of the existing Shareholders as an entirety, to protect the Management Company, to protect the Company in the interests of the investment policy or in the case of endangering specific investment objectives of the Company.

Shares may not be transferred to or owned by any Restricted Person. The Shares are subject to restrictions on transferability to a US Person and may not be transferred or re-sold except pursuant to an exemption from registration under the Securities Act. In the absence of an exemption, any resale or transfer of any of the Shares in the United States or to US Persons may constitute a violation of US law (see "Important Information - Selling Restrictions"). It is the responsibility of the Board of Directors to verify that Shares are not transferred in breach of the above.

The Company will require from each registered Shareholder acting on behalf of other investors that any assignment of rights to Shares be made in compliance with applicable securities laws in the jurisdictions where such assignment is made and that in unregulated jurisdictions such assignment be made in compliance with the minimum holding requirement.

Any prospective Shareholder shall only be issued Shares for Institutional Investors if such person provides a representation that he qualifies as an Institutional Investor pursuant to Luxembourg law.

7.6. Redemptions

Shares in a Sub-Fund may be redeemed at the request of the Shareholders on those Valuation Days as stipulated

in the Annex relating to each Sub-Fund. Redemption requests must be sent in writing to the Global Distributor(s) or the Registrar and Transfer Agent or such other place as the Company may advise. Redemption request must be received by the Registrar and Transfer Agent at the time specified in the Annex relating to each Sub-Fund, failing which the redemption request will be treated as received for the following Valuation Day and Shares will be redeemed based on the redemption price applicable for that Valuation Day.

The minimum number of Shares subject to a redemption and/or the Minimum Redemption Amount may vary according to the Sub-Fund or the Class of Shares.

Requests for redemption must be for either a number of Shares or an amount denominated in the relevant currency of the Class of Shares of the Sub-Fund.

A Shareholder who redeems his Shares will receive an amount per Share redeemed equal to the Net Asset Value per Share as of the applicable Valuation Day for the relevant Class in the relevant Sub-Fund (less, as the case may be, a redemption fee as stipulated in the Annex relating to each Sub-Fund).

Payment of the redemption proceeds shall be made within the timeframe specified in the Annex for the relevant Sub-Fund.

Redemption of Shares may be suspended for certain periods of time as described under the Section "SUSPENSION OF DETERMINATION OF THE NET ASSET VALUE, ISSUE AND REDEMPTION AND CONVERSION OF SHARES".

The Company reserves the right to reduce proportionally all requests for redemptions in a Sub-Fund/Class to be executed on one Valuation Day whenever the total proceeds to be paid for the Shares so tendered for redemption exceed 10% of the total net assets of that specific Sub-Fund/Class.

The portion of the non-proceeded redemptions will then be proceeded by priority on subsequent Valuation Days (but subject always to the foregoing 10% limit).

Redemption requests are irrevocable (except during any period where the determination of the Net Asset Value, the issue, redemption and conversion of shares is suspended) and proceeds of the redemption will be remitted to the account indicated by the Shareholder in its redemption request. The Company reserves the right not to redeem any Shares if it has not been provided with evidence satisfactory to the Company that the redemption request was made by a Shareholder of the Company. Failure to provide appropriate documentation to the Registrar and Transfer Agent may result in the withholding of redemption proceeds.

If a Shareholder wants to redeem Shares of the Company, a Redemption Charge, if provided for in the Annex relating to each Sub-Fund, may be levied on the amount to be paid to the Shareholder.

In exceptional circumstances the Board of Directors may offer to a Shareholder a 'redemption in kind', i.e. the Shareholder receives a portfolio of assets of equivalent value to the appropriate cash redemption payment. In such circumstances the Shareholder may always refuse the redemption in kind and request a cash redemption payment in the reference currency of the Class. Where the Shareholder agrees to accept redemption in kind it will, as far as possible, receive a representative selection of the Sub-Fund's holdings pro-rata to the number of Shares redeemed and the Company will make sure that the remaining Shareholders do not suffer any loss there from. To the extent required by law, the value of the redemption in kind will be certified by a report drawn up by the auditors of the Company in accordance with the requirements of Luxembourg law. The redeeming Shareholder shall normally bear the costs resulting from the redemption in kind (mainly costs relating to the drawing up of an auditor's report, if any) unless the Company considers that the redemption in kind is in the interest of the Company or made to protect the interest of the Company.

The Company may redeem Shares of any Shareholder if the Directors of the Company determine that any of the representations given by the Shareholder were not true and accurate or have ceased to be true and accurate or that the continuing ownership of Shares by the Shareholder would cause an undue risk of adverse tax consequences to the Company or any of its Shareholders. The Company may also redeem Shares of a Shareholder if it determines that the continuing ownership of Shares by such Shareholder may be prejudicial to the Company or any of its Shareholders.

The Company has the right to require the compulsory redemption of all Shares held by or for the benefit of a Shareholder if the Company determines that the Shares are held by or for the benefit of any Shareholder that is or becomes an Ineligible Applicant as described under "Subscriptions". The Company also reserves the right to require compulsory redemption of all Shares held by a Shareholder in a Sub-Fund if the Net Asset Value of the Shares held in such Sub-Fund by the Shareholder is less than the applicable minimum holding requirement.

The Company reserves the right to redeem any Shares which are or become owned, directly or indirectly, by a Restricted Person or (a) in the case of Regulation S Shares, are or become owned, directly or indirectly, by a US Person or (b) in the case of US Person Shares, are or become owned, directly or indirectly, by a US Person who is not a "qualified purchaser" within the meaning of Section 2(a)(51) of the Investment Company Act in accordance with the Articles of Association.

When the Company becomes aware that a Shareholder (A) is a Restricted Person or is holding Shares for the account or benefit of a Restricted Person; (B) is holding Shares in breach of any law or regulation or otherwise in circumstances having or which may have adverse regulatory, tax, pecuniary or material administrative disadvantages for the Company or its Shareholders; or (C) has failed to provide any information or declaration required by the Company within ten (10) days of being requested to do so, the Company will either (i) direct such Shareholders to redeem or to transfer the relevant Shares to a person who is qualified or entitled to own or hold such Shares or (ii) redeem the relevant Shares as further set out in the Articles of Association.

If it appears at any time that a holder of Shares of a Class restricted to Institutional Investors is not an Institutional Investor, the Company will either redeem the relevant Shares in accordance with the above provisions or convert such Shares into Shares of a Class which is not restricted to Institutional Investors (provided there exists such a Class with similar characteristics) and notify the relevant Shareholder of such conversion.

Any person who becomes aware that he is holding Shares in contravention of any of the above provisions and who fails to transfer or redeem his Shares pursuant to the above provisions shall indemnify and hold harmless the Management Company, the Company, the Depositary, the Administration Agent, the Registrar and Transfer Agent, the Investment Manager and the Shareholders of the Company (each an "Indemnified Party") from any claims, demands, proceedings, liabilities, damages, losses, costs and expenses directly or indirectly suffered or incurred by such Indemnified Party arising out of or in connection with the failure of such person to comply with his obligations pursuant to any of the above provisions.

7.7. Conversion of Shares

Unless otherwise decided by the Board of Directors and stated in the Annex for the relevant Sub-Fund, Shareholders are allowed to convert all, or part, of the Shares of a given Class into Shares of the same Class of another Sub-Fund. Unless otherwise decided by the Board of Directors and stated in the relevant Annex, conversions from Shares of one Class of Shares of a Sub-Fund to Shares of another Class of Shares of either the same or a different Sub-Fund are permitted. Shareholders are not allowed to convert all, or part, of their Shares into Shares of a Sub-Fund which is closed for further subscriptions after the Initial Offering Period (as will be set forth in the relevant Annex).

If the criteria to become a Shareholder of such other Class and/or such other Sub-Fund are fulfilled, the Shareholder shall make an application to convert Shares by sending a written request for conversion to the Global Distributor or

the Registrar and Transfer Agent. The conversion request must be received by the Administrative Agent at the time specified in the Annex relating to each Sub-Fund. The conversion request must state either the amount in the relevant currency of the first Sub-Fund or the number of Shares of the relevant Classes in the relevant Sub-Fund, which the Shareholder wishes to convert. A Conversion Charge, in favour of the two Sub-Funds concerned, up to 1% (one per cent) of the Net Asset Value of the new Sub-Fund may be levied to cover conversion costs. The same rate of Conversion Charge will be applied to all conversion requests received in respect of the same Valuation Day. The applicable Conversion Charge, if any, will be stipulated in the Annex relating to the relevant Sub-Fund.

Conversion of Shares shall be effected on the relevant Valuation Day, by the simultaneous:

- (a) redemption of the number of Shares of the relevant Class in the relevant Sub-Fund specified in the conversion request at the applicable Net Asset Value per Share of the relevant Class of Shares in the relevant Sub-Fund; and
- (b) issue of Shares on that Valuation Day in the new Sub-Fund or Class, into which the original Shares are to be converted, at the applicable Net Asset Value per Share of the relevant Class in the (new) Sub-Fund.

Subject to any currency conversion (if applicable) the proceeds resulting from the redemption of the original Shares shall be applied immediately as the subscription monies for the Shares in the new Class or Sub-Fund into which the original Shares are converted.

Where Shares denominated in one currency are converted into Shares denominated in another currency, the number of such Shares to be issued shall be calculated by converting the proceeds resulting from the redemption of the Shares into the currency in which the Shares to be issued are denominated. The exchange rate for such currency conversion shall be calculated by the Depositary in accordance with the rules laid down in the Section "CALCULATION OF THE NET ASSET VALUE" hereafter.

8. Prohibition of Late Trading and Market Timing

Late Trading is to be understood as the acceptance of a subscription (or conversion or redemption) order after the relevant cut-off times (as specified in the relevant Annex) in respect of the relevant Valuation Day and the execution of such order at the price based on the Net Asset Value applicable to such same day. Late Trading is strictly forbidden.

Market Timing is to be understood as an arbitrage method through which an investor systematically subscribes and redeems or converts Shares of the Company within a short time period, by taking advantage of time differences and/or imperfections or deficiencies in the method of determination of the Net Asset Value of the relevant Sub-Fund. Market Timing practices may disrupt the investment management of the portfolios and harm the performance of the relevant Sub-Fund.

In order to avoid such practices, Shares are issued at an unknown price and neither the Company, nor the Global Distributor and the Sub-Distributor(s) will accept orders received after the relevant cut-off times.

The Company reserves the right to refuse subscription, redemption and conversion orders into a Sub-Fund by any person who is suspected of market timing activities.

9. Management of the Company

The Company shall be managed by the Board of Directors. The Board of Directors is vested with the broadest powers to perform all acts of administration and disposition in the Company's interests. All powers not expressly reserved by

law to the general meeting of Shareholders fall within the competence of the Board of Directors.

The Directors are responsible for the overall management and control of the Company. They will review the operations of the Company and the Management Company.

The Directors are not required to devote their full time and attention to the business of the Company. They may be engaged in any other business and/or be concerned or interested in or act as directors or officers of any other company or entity.

The Company may indemnify any Director or officer, and his heirs, executors and administrators against expenses reasonably incurred by him or her in connection with any action, suit proceeding to which he or she may be made a party by reason of his or her being or having been a director or officer of the Company or, at its request, of any other company of which the Company is a shareholder or creditor and from which he or she is not entitled to be indemnified, except in relation to matters where he or she shall be finally adjudged in such action, suit or proceeding to be liable for gross negligence or wilful misconduct; in the event of a settlement, indemnification shall be provided only in connection with such matters covered by the settlement as to which the Company is advised by counsel that the person to be indemnified did not commit such a breach of duty. The foregoing right of indemnification shall not exclude other rights to which he or she may be entitled.

10. The Management Company

The Directors of the Company have appointed FundRock Management Company S.A. as the Management Company of the Company to be responsible on a day-to-day basis, under supervision of the Directors, for providing administration, investment management and distribution services in respect of all Sub-Funds.

The Management Company has delegated the administration functions, including the registrar and transfer functions to European Fund Administration S.A.

The Management Company has delegated the investment management functions to the Investment Managers, as specified in the Annex for the relevant Sub-Fund.

The Management Company also acts as Global Distributor of the Company.

The Management Company was incorporated for an unlimited period on 10 November 2004 in the form of a "*société anonyme*" in Luxembourg under the name of "RBS (Luxembourg) S.A.". With effect from 31 December 2015, it changed its name to FundRock Management Company S.A. It is authorised and regulated by the CSSF as (i) a management company subject to Chapter 15 of the Law of 2010, and (ii) as alternative investment fund manager regulated under Chapter 2 of the law of 12 July 2013 on alternative investment funds managers, as amended from time to time. It has a subscribed and paid-up capital of EUR 10,000,000.

It has its registered office in Luxembourg at 33, rue de Gasperich, L-5826 Hesperange. The articles of incorporation of the Management Company were published in the *Mémorial C*, official gazette of the Grand-Duchy of Luxembourg, as of 6 December 2004. The last amendment of the articles was published on 31 March 2016.

The Management Company shall also ensure compliance of the Company with the investment restrictions and oversee the implementation of the Company's strategies and investment policy.

The Management Company shall also send reports to the Directors on a periodic basis and inform each Director without delay of any non-compliance of the Company with the investment restrictions.

The Management Company will receive periodic reports from Investment Managers detailing each Sub-Funds'

performance and analyzing its investment portfolio. The Management Company will receive similar reports from the Company's other service providers in relation to the services which they provide.

The Management Company will monitor on a continuing basis the activities of the third parties to which it has delegated functions. The agreements entered into between the Management Company and the relevant third parties provide that the Management Company can give at any time further instruction to such third parties and that it can withdraw their mandate with immediate effect if this is in the interest of the shareholders of the Company. The Management Company's liability towards the Company is not affected by the fact that it has delegated certain functions to third parties.

The accounts of the Management Company are audited by an independent authorised auditor. This task has been entrusted to Deloitte Audit S.à r.l..

11. The Investment Manager

The Management Company has appointed an Investment Manager to carry out investment management services and be responsible for the relevant Sub-Fund's investment activities within the parameters and restrictions set out in this Prospectus and the relevant Annex. The identity of any appointed Investment Manager will be specified in the Annex relating to the relevant Sub-Funds. The Investment Manager may be assisted by one or more advisers or delegate its functions, with the approval of the CSSF and the Management Company, to one or more sub-managers. In case sub-managers are appointed, the Prospectus will be updated accordingly.

Unless otherwise stated in the relevant Annex, the Investment Manager is responsible for, among other matters, identifying and acquiring the investments of the Company subject always to the overall policies, direction, control and responsibility of the Management Company.

The Investment Manager is required to adhere strictly to the guidelines laid down by the Management Company. In particular, the Investment Manager is required to ensure that the assets of the Company and each Sub-Fund are invested in a manner consistent with the Company's and the Sub-Funds' investment restrictions and that cash belonging to the Company and each Sub-Fund is invested in accordance with the guidelines laid down by the Directors and the Management Company.

12. The Depositary and Paying Agent

Pursuant to a depositary and paying agent services agreement dated 4 August 2016 (the "Depositary Agreement"), Skandinaviska Enskilda Banken AB (publ), Luxembourg Branch, registered with the Luxembourg trade and companies register under number B39819 and having its place of business at 4, rue Peternelchen, L-2370 Howald, a branch of Skandinaviska Enskilda Banken AB (publ), a credit institution incorporated in Sweden and registered with the Swedish Companies Registration Office under number 502032-9081 with its registered office in Stockholm, Sweden has been appointed as depositary of the Company (the "Depositary"). The Depositary will also provide paying agent services to the Company.

The Depositary has been appointed for the safe-keeping of the assets of the Company which comprises the custody of financial instruments, the record keeping and verification of ownership of other assets of the Company as well as the effective and proper monitoring of the Company's cash flows in accordance with the provisions of the Law of 17 December 2010, as amended from time to time, and the Depositary Agreement.

In addition, the Depositary shall also ensure that (i) the sale, issue, repurchase, redemption and cancellation of Shares are carried out in accordance with Luxembourg law and the Articles of Incorporation; (ii) the value of the Shares is calculated in accordance with Luxembourg law and the Articles of Incorporation; (iii) the instructions of the

Management Company or the Company are carried out, unless they conflict with applicable Luxembourg law and/or the Articles of Incorporation; (iv) in transactions involving the Company's assets any consideration is remitted to the Company within the usual time limits; and (v) the Company's incomes are applied in accordance with Luxembourg law and the Articles of Incorporation.

In carrying out its functions the Depositary acts honestly, fairly, professionally and independently and solely in the interest of the investors. The Depositary is on an ongoing basis analysing, based on applicable laws and regulations as well as its conflict of interest policy potential conflicts of interests that may arise while carrying out its functions. The Depositary has put in place policies and procedures ensuring that it (i) identifies all conflicts of interests and (ii) takes all reasonable steps to avoid those conflicts of interest. Where a conflict of interest cannot be avoided, the Depositary will manage, monitor and disclose that conflict of interest in order to prevent adverse effects on the interests of the Company and of the investors.

When performing its activities, the Depositary obtains information relating to funds which could theoretically be misused (and thus raise potential conflict of interests issues) in relation to e.g. the interests of other clients of the SEB Group, whether engaging in trading in the same securities or seeking other services, particularly in the area of offering services competing with the interests of other counterparties used by the funds/fund managers, and the interests of the Depositary's employees in personal account dealings. Potential conflicts of interests in the SEB Group can be further exemplified as not market equivalent pricing of the depositories' services and the undue influence in the management and board of directors of the funds/fund managers by the Depositary, and vice versa.

Consequently, to mitigate the potential conflicts of interest, it has been ensured that the activities of a depositary function are physically, hierarchically and systematically separated from other functions of the Depositary in order to establish information firewalls. Moreover, the depositary function has a mandate and a veto to approve or decline fund clients independent of other functions and has its own committees for escalation of matters connected to its role as a depositary, where other functions with potentially conflicting interests are not represented.

For further details on management, monitoring and disclosure of potential conflicts of interest please refer to Instruction for Handling of Conflicts of Interest in Skandinaviska Enskilda Banken AB (publ), Luxembourg Branch which can be found on the following webpage:

<https://sebgroup.lu/conflictsofinterest>

In compliance with the provisions of the Depositary Agreement and the Law of 17 December 2010, as amended from time to time, the Depositary may, subject to certain conditions and in order to effectively conduct its duties, delegate part or all of its safe-keeping duties in relation to financial instruments that can be held in custody, duly entrusted to the Depositary for custody purposes, and/or all or part of its duties regarding the record keeping and verification of ownership of other assets of the Company to one or more delegate(s), as they are appointed by the Depositary from time to time.

In order to avoid any potential conflicts of interest, irrespective of whether a given delegate is part of the SEB Group or not, the Depositary exercise the same level of due skill, care and diligence both in relation to the selection and appointment as well as in the on-going monitoring of the relevant delegate. Furthermore, the conditions of any appointment of a delegate that is member of the SEB Group will be negotiated at arm's length in order to ensure the interests of the investors. Should a conflict of interest occur and in case such conflict of interest cannot be neutralized, such conflict of interest as well as the decisions taken will be disclosed to the investors and the Prospectus revised accordingly. An up-to-date list of these delegates can be found on the following webpage:

<https://sebgroup.lu/globalcustodynetwork>

Where the law of a third country requires that financial instruments are held in custody by a local entity and no local entity satisfies the delegation requirements of article 34bis, paragraph 3, lit. b) i) of the Law of 17 December 2010, the Depositary may delegate its functions to such local entity to the extent required by the law of that third country for as long as there are no local entities satisfying the aforementioned requirements.

In order to ensure that its tasks are only delegated to delegates providing an adequate standard of protection, the Depositary has to exercise all due skill, care and diligence as required by the Law of 17 December 2010 in the selection and the appointment of any delegate to whom it intends to delegate parts of its tasks and has to continue to exercise all due skill, care and diligence in the periodic review and ongoing monitoring of any delegate to which it has delegated parts of its tasks as well as of any arrangements of the delegate in respect of the matters delegated to it. In particular, any delegation is only possible when the delegate at all times during the performance of the tasks delegated to it segregates the assets of the Company from the Depositary's own assets and from assets belonging to the delegate in accordance with the Law of 17 December 2010. The Depositary's liability shall not be affected by any such delegation unless otherwise stipulated in the Law of 17 December 2010 and/or the Depositary Agreement.

An up-to-date information regarding the Depositary, its duties and the conflicts of interest that may arise, any safekeeping functions delegated by the Depositary, the list of delegates and any conflicts of interests that may arise from such delegation, is available to the investors upon request at the registered office of the Management Company.

The Depositary is liable to the Company or its investors for the loss of a financial instrument held in custody by the Depositary and/or a delegate. In case of loss of such financial instrument, the Depositary has to return a financial instrument of an identical type or the corresponding amount to the Company without undue delay. In accordance with the provisions of the Law of 17 December 2010, the Depositary will not be liable for the loss of a financial instrument, if such loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary.

The Depositary shall be liable to the Company and to the investors for all other losses suffered by them as a result of the Depositary's negligent or intentional failure to properly fulfil its duties in accordance with applicable law, in particular the Law of 17 December 2010 and/or the Depositary Agreement.

The Company and the Depositary may terminate the Depositary Agreement at any time by giving ninety (90) days' notice in writing. In case of a voluntary withdrawal of the Depositary or of its removal by the Company, the Depositary must be replaced at the latest within two (2) months after the expiry of the aforementioned termination notice by a successor depositary to whom the Company's assets are to be delivered and who will take over the functions and responsibilities of the Depositary. If the Management Company/Company does not name such successor depositary in time the Depositary may notify the CSSF of the situation. The Management Company/Company will take the necessary steps, if any, to initiate the liquidation of the Company, if no successor depositary bank has been appointed within two (2) months after the expiry of the aforementioned termination notice of ninety (90) days.

13. The Administrative Agent, Registrar and Transfer Agent

By virtue of the Administrative Agent, Registrar and Transfer Agent Agreement, European Fund Administration S.A. has been appointed to act as Administrative Agent, to carry out all the administrative duties in relation to the administration of the Company, including the calculation of the Net Asset Value of the Shares and the provision of accounting services to the Company in accordance with the law and the Articles of Association.

In its capacity as Registrar and Transfer Agent for the Company, European Fund Administration S.A. processes all subscriptions, redemptions, conversions, cancellation and transfers of Shares and is keeping the register of Shareholders of the Company.

Moreover the Registrar and Transfer Agent will be responsible for the delivery of Share certificates, if requested, the

safekeeping of all non-issued Share certificates of the Company, for accepting Shares certificates rendered for replacement, redemption or conversion and for providing and supervising the mailing of reports, notices and other documents to the Shareholders, as further described in the above mentioned agreement.

European Fund Administration S.A. is an independent and highly specialised company offering a complete range of innovative middle and back office outsourcing solutions, delivered with a personal touch to the most exacting clients in the global fund industry. With 2,450 funds representing EUR 80 billion under administration European Fund Administration S.A. is Europe's leading independent fund administration specialist.

14. Global Distributor and Sub-Distributors

The Management Company also acts as the Global Distributor. The Global Distributor may appoint one or more **Sub-Distributor**.

The Management Company may exceptionally appoint other global distributors to distribute Shares of Sub-Funds. If another global distributor different from FundRock Management Company S.A. is appointed by the Management Company to distribute Shares of a Sub-Fund in one or several jurisdictions, the details of such global distributor may be specified in the relevant Annex. Global Distributors and Sub-Distributors may establish and administer one or more investment plans for the benefit of retail investors wishing to invest in certain Sub-Funds.

The Management Company expects that in relation to Shares to be offered to retail investors the relevant Global Distributor and/or Sub-Distributor will offer to enter into arrangements with the relevant investors to provide nominee services to those investors in relation to the Shares or arrange for third party nominee service providers to provide such nominee services to the underlying investors.

All nominee service providers must be (i) professionals of the financial sector of a country which are subject under their local regulations to anti money laundering rules equivalent to those required by Luxembourg law or (ii) professionals established in another country provided they are a subsidiary of a professional of the financial sector of a country referred in (i) above and they are obliged to follow anti money laundering rules equivalent to those required by Luxembourg law because of internal group policies. Whilst and to the extent that such arrangements subsist, such underlying investors will not appear in the Register of the Company and will have no direct right of recourse against the Company.

Any Global Distributors, Sub-Distributors or nominee service providers holding their Shares through Euroclear or Clearstream Luxembourg or any other relevant clearing system as an accountholder also will not be recognised as the registered Shareholder in the Register. The relevant nominee of Euroclear or Clearstream Luxembourg or the other relevant clearing system will be recognised as the registered Shareholder in the Register in such event, and in turn would hold the Shares for the benefit of the relevant accountholders in accordance with the relevant arrangements. Unless specified in the Relevant Annex, US Person Shares will be issued in physical, certificated form only and will not be eligible for clearance or settlement through Euroclear or Clearstream Luxembourg or any other relevant clearing system.

The terms and conditions of any distribution agreement including arrangements to provide nominee services will have to allow that an underlying investor who has invested in the Company through a nominee, may at any time, require the transfer in his name of the Shares subscribed through the nominee. After this transfer, the investor will receive evidence of his shareholding at the confirmation of the transfer from the nominee.

Shareholders may subscribe directly to the Company without having to go through a Global Distributor or a nominee.

15. Fees, Compensation and Expenses borne by the Company

The Company shall bear the following expenses:

- (a) All taxes owed on the Company's assets and income;
- (b) Bank fees, possible registration, brokerage and settlement fees for transactions in assets making up the Company's portfolio, as well as fees on transfers referring to redemptions of Shares;
- (c) The fees of directors, auditors and legal advisors, the costs of preparing, printing and distributing all prospectuses, explanatory memoranda, reports and other necessary documents concerning the Company and its Sub-Funds, including the KIID, PRIIPs KID (as and when required, as well as any documentation in relation to PRIIPs KIDs and any information or documentation that may be required for the distribution of the Shares), any fees and expenses involved in registering and maintaining the registration of the Company and its Sub-Funds with any governmental agency and stock exchange, the costs of publishing prices and the operational expenses, and the cost of holding shareholders' meetings; and
- (d) The cost of extraordinary measures, in particular experts' or counsels' fees or law suits necessary to protect Shareholders' interests;
- (e) Any additional out-of-pocket expenses.

All fees will be determined in accordance with the applicable market standards in Luxembourg.

Fees which are directly attributable to a particular Sub-Fund will be allocated to that Sub-Fund. Expenses which are not directly attributable to a particular Sub-Fund are allocated among the Sub-Funds concerned, in proportion to the Net Asset Value of each Sub-Fund. Fees applicable to one Class of Shares may differ from the fees applicable to other Classes of Shares.

Fees and other expenses will be borne by each Sub-Fund as follows or as specifically disclosed in the relevant Annex.

The Management Company will receive in respect of each Sub-Fund a total management company fee (the "Total Management Company Fee") which will include fees for the provision of its services. Unless indicated to the contrary in the relevant Sub-Fund Appendix, the Total Management Company Fee, which is expressed as a percentage of the Net Asset Value of the relevant Sub-Fund, will not exceed 0.40% per annum. The Management Company will be reimbursed for reasonable out-of-pocket expenses relating to the services thereto. Each Sub-Fund may also pay additional fees to the Management Company Fee for specific services as may be disclosed in the relevant Annex.

In addition, each Sub-Fund will pay to the relevant Investment Manager an investment management fee (the "Investment Management Fee") or investment management services fees (the "Investment Management Services Fees") split between i) the Investment Management Fee and ii) the research fee. The research fee will be allocated to the separate research payment account set up by the Investment Manager and used for the remuneration of studies performed on specific economic sectors (industry and companies surveys) as well as for macro-economic research received from the brokers. The maximum budget that may be allocated to the research costs of the concerned Sub-Fund is disclosed in the relevant Annex and Investment Management Agreement.

The Company may also pay a Performance Fee to the Investment Manager of the relevant Sub-Fund if specified in the relevant Annex. The calculation of the Performance Fee will be detailed in the relevant Schedule to this Prospectus.

The Company may also pay a distribution fee to the Global Distributor(s) if specified in the relevant Annex. In addition to the distribution fee, the Global Distributor(s) may be entitled to receive the Sales Charge, Redemption Charge and Conversion Charge as further specified in the relevant Annex. The fees and commissions payable to the Global Distributor(s) shall include any fees and/or commissions payable by the Global Distributor(s) to any Sub-Distributors which may be appointed by the Global Distributor(s).

The fees and/or commissions payable to a duly appointed Global Distributor(s) are not intended to cover, among others, the costs listed below. For the avoidance of doubt, the list below is not meant to provide an exhaustive list of all these costs:

- (a) The cost of printing prospectuses, confirmations or certificates, and the costs of preparing and filing administrative documents, prospectuses and explanatory memoranda with all the authorities, including official associations of brokers, having jurisdiction over the Company and the issue of the Company's Shares;
- (b) The cost of preparing and distributing, in languages required in the interest of Shareholders, of annual and semi-annual reports and other reports and documents required in accordance with the laws or regulations of the authorities designated above, the cost of preparing and distributing notices to Shareholders, the fees of independent legal and expert advice and all similar operating costs;
- (c) The expenses relating to the printing and distribution of any sales literature of any kind relating to the Company and its Sub-Funds and advertising and promotional costs of any kind;
- (d) The fees and reasonable out-of-pocket expenses relating to the ongoing costs of registrations of the Company and its Sub-Funds with any regulatory authority other than Luxembourg. These costs will include, but not be limited to, the costs and expenses of any rating agency, of listing and maintaining a listing of the Shares on any stock exchange and fees payable to an index sponsor, of legal advice, translation, paying agents, Net Asset Value publication in newspapers and jurisdictional tax disclosure requirements.

Each Sub-Fund will pay an Administrative Agent Fee to the Administrative Agent as further specified in the relevant Annex. The Administrative Agent Fee is intended to cover the fees and expenses in connection with the provision of administrative and registrar and transfer agent services to each Sub-Fund. In addition to the Administrative Agent Fee, the Administrative Agent can charge other fees in connection with the provision of administrative services to each Sub-Fund in accordance with Luxembourg standard market practice.

The fees and expenses to be paid to the Depositary are calculated on the basis set out in the Depositary Agreement. The Depositary will be reimbursed for reasonable out-of-pocket expenses relating to the services thereto.

The Depositary Fee will be borne by the respective Sub-Fund or paid by the Management Company as the case may be, as further specified in the respective Annex.

16. Dividends

Whether Capitalisation or Distribution Shares will be issued in relation to a particular Sub-Fund will be described in the relevant Annex. Each year the general meeting of Shareholders will decide, based on a proposal from the Board of Directors, for each Sub-Fund and for Distribution Shares, on the distribution of dividends. A dividend may be distributed, either in cash or Shares. Dividends may include a capital distribution, provided that after distribution the net assets of the Company total more than EUR 1,250,000.

In addition to the distributions mentioned in the preceding paragraph, the Board of Directors may decide the payment of interim dividends in the form and under the conditions provided by law.

Payments will be made in the currency of the relevant Share Class of the relevant Sub-Fund. With regard to Shares held through Euroclear or Clearstream Luxembourg (or their successors), dividends shall be paid by bank transfer to the relevant bank. Dividends remaining unclaimed for five years after their declaration will be forfeited and revert to the relevant Share Class of the relevant Sub-Fund.

However, no dividends will be distributed if the payment amount is below fifty (50) EUR or its equivalent in another currency or such other amount to be decided by the Directors. Such amount will automatically be reinvested.

Dividends may be declared separately in respect of each Share Class in each Sub-Fund by a resolution of the Shareholders of the relevant Share Class in the relevant Sub-Fund at the annual general meeting of Shareholders.

17. Tax Aspects

17.1. Luxembourg

The Company's assets are subject to a subscription tax ("*taxe d'abonnement*") in the Grand Duchy of Luxembourg of 0.05% p.a. of the net assets (except Sub-Funds or Classes of Shares reserved to Institutional Investors that can benefit from the reduced tax rate of 0.01% p.a. of the net assets as stipulated in the Annex relating to each Sub-Fund) payable quarterly. The Company's income is not taxable in Luxembourg. No tax will be deducted at source from any dividends paid by the Company. Income received from the Company may be subject to withholding taxes in the country of origin of the issuer of the security, in respect of which such income is paid. No duty or tax is payable in Luxembourg in connection with the issue of Shares of the Company, except for one lump sum capital levy which is payable at incorporation.

Under current legislation, Shareholders are not subject to any capital gains, income, withholding, estate, inheritance or other taxes in Luxembourg, except for those Shareholders domiciled, resident or having a permanent establishment in Luxembourg.

17.2. Common Reporting Standard

The Company is subject to the Standard for Automatic Exchange of Financial Account Information in Tax matters (the "Standard") and its Common Reporting Standard (the "CRS") as set out in the Luxembourg law dated 18 December 2015 on the Common Reporting Standard (*loi relative à l'échange automatique de renseignements relatifs aux comptes financiers en matière fiscale*) (the "CRS Law").

The CRS Law is based on the European Directive 2014/107/EU of 9 December 2014 amending provisions of Directive 2011/16/EU on administrative cooperation in the field of taxation and the OECD's multilateral agreements.

The intention of CRS is to safeguard against tax evasion. Accordingly, under the terms of the CRS Law, the Company is likely to be treated as a Luxembourg Reporting Financial Institution. Consequently, the Company is required to collect personal and financial information as described in Annex I of the CRS Law with effect from 1 January 2016 and without prejudice to other applicable data protection provisions as set out in the Company documentation, the Company is required to annually report this information to the Luxembourg tax authority (the "LTA").

The Company's ability to satisfy its reporting obligations under the CRS Law will depend on each investor providing the Company with the Information, along with the required supporting documentary evidence. In this context, the investors are hereby informed that, the Company will process the Information for the purposes as set out in the CRS Law. The investors undertake to inform the Company or the Management Company, if applicable, of the processing of their Information by the Company.

The investors are further informed that the Information related to Reportable Persons within the meaning of the CRS Law will be disclosed to the LTA annually for the purposes set out in the CRS Law.

The investors undertake to immediately inform the Company of, and provide the Company with all supporting documentary evidence of any changes related to the Information after occurrence of such changes.

Any investor that fails to comply with the Company's Information or documentation requests may be held liable for penalties imposed on the Company and attributable to such investor's failure to provide the Information or subject to disclosure of the Information by the Company to the LTA.

If you are in doubt, you should consult your tax advisor, stockbroker, bank manager, solicitor, account or other financial advisor regarding the possible implications of CRS on an investment in the Company.

17.3. Other Jurisdictions

Interest, dividend and other income realised by the Company on the sale of securities of non-Luxembourg issuers, may be subject to withholding and other taxes levied by the jurisdictions in which the income is sourced. It is impossible to predict the rate of foreign tax the Company will pay since the amount of the assets to be invested in various countries and the ability of the Company to reduce such taxes is not known.

The information set out above is a summary of those tax issues which could arise in the Grand Duchy of Luxembourg and does not purport to be a comprehensive analysis of the tax issues which could affect a prospective subscriber. It is expected that Shareholders may be resident for tax purposes in many different countries. Consequently, no attempt is made in this Prospectus to summarise the tax consequences for each prospective investor of subscribing, converting, holding, redeeming or otherwise acquiring or disposing of Shares in the Company. These consequences will vary in accordance with the law and practice currently in force in a Shareholder's country of citizenship, residence, domicile or incorporation and with his or her personal circumstances.

17.4. Foreign Account Tax Compliance Act ("FATCA")

The Hiring Incentives to Restore Employment Act (the "Hire Act") was signed into US law in March 2010. It includes special provisions laid down in the Foreign Account Tax Compliance Act, generally known as "FATCA". The intention of FATCA is that details of US investors holding assets outside the US will be reported by financial institutions to the Internal Revenue Service (IRS), as a safeguard against US tax evasion.

This regime will become effective in phases between 1 July 2014 and 15 March 2018. Based on the Treasury Regulations §1.1471-§1.1474 issued on 17 January 2013 (the "Treasury Regulations") the Company is a "Financial Institution". As a result of the Hire Act, and to discourage non-US Financial Institutions from staying outside this regime, on or after 1 July 2014, a Financial Institution that does not enter and comply with the regime will be subject to a US withholding tax of 30% on gross proceeds as well as on income from the US and, on or after 1 January 2017,

also potentially on non-US investments.

Luxembourg has entered into a Model I Intergovernmental Agreement (“IGA”) with the United States. Under the terms of the IGA, the Company will be obliged to comply with the provisions of FATCA under the terms of the IGA and under the terms of Luxembourg legislation implementing the IGA (the “Luxembourg IGA legislation”), rather than under the US Treasury Regulations implementing FATCA.

In order to protect Shareholders from the effect of any penalty withholding, it is the intention of the Company to be compliant with the requirements of the FATCA regime and hence, qualify as a so-called “participating financial institution” as defined in the IGA.

The Company qualifies as a so-called “sponsored financial institution” as defined in the IGA. The Administration Agent qualifies as a so-called “sponsoring financial institution”. The Administration Agent agrees to sponsor the Company for the purpose and within the meaning of the IGA. **The Company intends not to register with the IRS and intends to be so-called** “non-reporting sponsored financial institutions” within the meaning of the IGA. In case the Company would be subject to reporting obligations under the FATCA regulation, the Administration Agent will register the Company as its sponsoring entity with the IRS and hence, the Management Company will comply as set out in article 2 and 4 as well as Annex II, Chapter IV, section A. 3 of the IGA in due time (i.e. not later than 90 (ninety) days after the reportable event has first been identified) with all due diligence, withholding, registration and reporting obligations on behalf of the Company regarding certain holdings by and payments made to (a) certain US investors, (b) certain US controlled foreign entity investors and (c) non-US financial institution investors that do not comply with the terms of the Luxembourg IGA legislation. Further, the Administration Agent will perform any requirements that the Company would have been required to perform if it were a reporting Luxembourg financial institution as defined in the IGA. Under the Luxembourg IGA, such information will be onward reported by the Luxembourg tax authorities to the IRS under the general information exchange provisions of the US-Luxembourg Income Tax Treaty. The Administration Agent is required to monitor its own and the Company’s status as being a participating financial institution and a non-reporting entity on an ongoing basis and has to ensure that the Administration Agent and the Company meet the conditions for such status over the time.

In cases where investors invest in the Company through an intermediary or a distributor, investors are reminded to check whether such intermediary is FATCA compliant and hence, qualifies as a participating financial institution as defined in the IGA. In case any of the Company’s distributor should change its status as participating financial institution, such distributor will notify the Management Company within ninety (90) days from the change in status of such change and the Management Company is entitled a) to redeem all Shares held through such distributor, b) to convert such Shares into direct holdings of the Company, or c) to transfer such Shares to another nominee within six (6) months of the change in status. Further, any agreement with a distributor can be terminated in case of such change in status of the distributor within ninety (90) days of notification of the distributor’s change in status.

Although the Company and the Management Company will attempt to satisfy any obligations imposed on it to avoid the imposition of the US withholding tax, no assurance can be given that the Company and the Management Company will be able to satisfy these obligations. If the Company becomes subject to a withholding tax as a result of the FATCA regime, the value of the Shares held by the Shareholders may suffer material losses.

Other jurisdictions currently are in the process of adopting tax legislation concerning the reporting of information. The Company also intends to comply with such other similar tax legislation that may apply to the Company, although the precise requirements are not fully known yet. As a result, the Company may need to seek information about the tax status of investors under the laws of such jurisdictions for disclosure to the relevant governmental authorities.

If you are in any doubt, you should consult your tax advisor, stockbroker, bank manager, solicitor, accountant or other financial adviser regarding the possible implications of FATCA on an investment in the Company.

17.5. Future Changes in Applicable Law

The foregoing description of Luxembourg tax consequences of an investment in, and the operations of, the Company is based on laws and regulations which are subject to change through legislative, judicial or administrative action. Further legislation could be enacted that could subject the Company to income taxes or subject Shareholders to increased income taxes.

THE TAX AND OTHER MATTERS DESCRIBED IN THIS PROSPECTUS DO NOT CONSTITUTE, AND SHOULD NOT BE CONSIDERED AS, LEGAL OR TAX ADVICE TO PROSPECTIVE SUBSCRIBERS AND SHAREHOLDERS. PROSPECTIVE SUBSCRIBERS AND SHAREHOLDERS SHOULD CONSULT THEIR OWN COUNSEL REGARDING TAX LAWS AND REGULATIONS OF ANY OTHER JURISDICTION WHICH MAY BE APPLICABLE TO THEM.

18. Calculation of the Net Asset Value

The Company, each Sub-Fund and each Class of Shares in a Sub-Fund have a Net Asset Value determined in accordance with the Company's Articles of Association. The reference currency of the Company is Euro (EUR). The Net Asset Value of each Sub-Fund shall be calculated in the Reference Currency of the Sub-Fund (and the Net Asset Value of each Class of Shares shall be directly calculated in the Reference Currency of the Share Class as it is stipulated in the Annex relating to the relevant Sub-Fund) and shall be determined by the Administrative Agent as of each Valuation Day as stipulated in the Annex relating to the relevant Sub-Fund, by calculating the aggregate of:

- (a) the value of all assets of the Company which are allocated to the relevant Sub-Fund in accordance with the provisions of the Company's Articles of Association; less
- (b) all the liabilities of the Company which are allocated to the relevant Sub-Fund in accordance with the provisions of the Company's Articles of Association, and all fees attributable to the relevant Sub-Fund which are accrued but unpaid as of the relevant Valuation Day.

The Net Asset Value per Share shall be calculated in the Reference Currency of the relevant Sub-Fund and shall be calculated by the Administrative Agent as of the Valuation Day of the relevant Sub-Fund by dividing the Net Asset Value of the relevant Sub-Fund by the number of Shares which are in issue on such Valuation Day in the relevant Sub-Fund (including Shares in relation to which a Shareholder has requested redemption on such Valuation Day).

If the Sub-Fund has more than one Class of Shares in issue, the Administrative Agent shall calculate the Net Asset Value for each Class of Shares by dividing the portion of the Net Asset Value of the relevant Sub-Fund attributable to a particular Class of Shares by the number of Shares of such Class in the relevant Sub-Fund which are in issue on such Valuation Day (including Shares in relation to which a Shareholder has requested redemption on such Valuation Day).

The Net Asset Value per Share will be rounded up or down up to two decimal places in the currency in which the Net Asset Value of the relevant Shares are calculated.

The allocation of assets and liabilities of the Company between Sub-Funds (and within each Sub-Fund between the different Classes of Shares) shall be effected so that:

- (a) The subscription price received by the Company on the issue of Shares, and reductions in the value of the Company as a consequence of the redemption of Shares, shall be attributed to the Sub-Fund (and within that Sub-Fund, the Class of Shares) to which the relevant Shares belong.
- (b) Assets acquired by the Company upon the investment of the subscription proceeds and income and

capital appreciation in relation to such investments which relate to a specific Sub-Fund (and within a Sub-Fund, to a specific Class of Shares) shall be attributed to such Sub-Fund (or Class of Shares in the Sub-Fund).

- (c) Assets disposed of by the Company as a consequence of the redemption of Shares and liabilities, expenses and capital depreciation relating to investments made by the Company and other operations of the Company, which relate to a specific Sub-Fund (and within a Sub-Fund, to a specific Class of Shares) shall be attributed to such Sub-Fund (or Class of Shares in the Sub-Fund).
- (d) Where the use of foreign exchange transactions, instruments or financial techniques relates to a specific Sub-Fund (and within a Sub-Fund, to a specific Class of Shares) the consequences of their use shall be attributed to such Sub-Fund (or Class of Shares in the Sub-Fund).
- (e) Where assets, income, capital appreciations, liabilities, expenses, capital depreciations or the use of foreign exchange transactions, instruments or techniques relate to more than one Sub-Fund (or within a Sub-Fund, to more than one Class of Shares), they shall be attributed to such Sub-Funds (or Classes of Shares, as the case may be) in proportion to the extent to which they are attributable to each such Sub-Fund (or each such Class of Shares).
- (f) Where assets, income, capital appreciations, liabilities, expenses, capital depreciations or the use of foreign exchange transactions, instruments or techniques cannot be attributed to a particular Sub-Fund they shall be divided equally between all Sub-Funds or, in so far as is justified by the amounts, shall be attributed in proportion to the relative Net Asset Value of the Sub-Funds (or Classes of Shares in the Sub-Fund) if the Company, in its sole discretion, determines that this is the most appropriate method of attribution.
- (g) Upon payment of dividends to the Shareholders of a Sub-Fund (and within a Sub-Fund, to a specific Class of Shares) the net assets of this Sub-Fund (or Class of Shares in the Sub-Fund) are reduced by the amount of such dividend.

The assets of the Company will be valued as follows:

- (a) Securities or Money Market Instruments quoted or traded on an official stock exchange or any other Regulated Market, are valued on the basis of the last known price, and, if the securities or Money Market Instruments are listed on several stock exchanges or Regulated Markets, the last known price of the stock exchange which is the principal market for the security or Money Market Instrument in question, unless these prices are not representative.
- (b) For securities or Money Market Instruments not quoted or traded on an official stock exchange or any other Regulated Market, and for quoted securities or Money Market Instruments, but for which the last known price is not representative, valuation is based on the probable sales price estimated prudently and in good faith by the Board of Directors of the Company.
- (c) Units/shares issued by open-ended investment funds shall be valued at their last available net asset value.
- (d) The liquidating value of forward or options contracts that are not traded on exchanges or on other Regulated Markets shall be determined pursuant to the policies established in good faith by the Board of Directors, on a basis consistently applied. The liquidating value of futures or options contracts traded on exchanges or on other Regulated Markets shall be based upon the last available settlement prices

of these contracts on exchanges and Regulated Markets on which the particular futures or options contracts are traded; provided that if a futures or options contract could not be liquidated on such Banking Day with respect to which a Net Asset Value is being determined, then the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may, in good faith and pursuant to verifiable valuation procedures, deem fair and reasonable.

- (e) Liquid assets and Money Market Instruments with a maturity of less than 12 months may be valued at nominal value plus any accrued interest or using an amortised cost method (it being understood that the method which is more likely to represent the fair market value will be retained). This amortised cost method may result in periods during which the value deviates from the price the relevant Sub-Fund would receive if it sold the investment. The Investment Managers may, from time to time, assess this method of valuation and recommend changes, where necessary, to ensure that such assets will be valued at their fair value as determined in good faith pursuant to procedures established by the Board of Directors. If the Board of Directors believes that a deviation from the amortised cost per Share may result in material dilution or other unfair results to Shareholders, the Board of Directors shall take such corrective action, if any, as it deems appropriate, to eliminate or reduce, to the extent reasonably practicable, the dilution or unfair results.
- (f) The swap transactions will be consistently valued based on a calculation of the net present value of their expected cash flows. For certain Sub-Funds using OTC Derivatives as part of their main investment policy, the valuation method of the OTC Derivatives may be further specified in the relevant Annex relating to that Sub-Fund.
- (g) Accrued interest on securities shall be included if it is not reflected in the security price.
- (h) Cash shall be valued at nominal value, plus accrued interest.
- (i) All assets denominated in a currency other than the Reference Currency of the relevant Class of Shares shall be converted at the mid-market conversion rate between the Reference Currency of this Class of Shares and the currency of denomination.
- (j) All other securities and other permissible assets as well as any of the above mentioned assets for which the valuation in accordance with the above subparagraphs would not be possible or practicable, or would not be representative of their fair value, will be valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors.

19. Suspension of Determination of the Net Asset Value, Issue, Redemption and Conversion of Shares

The Company may at any time and from time to time suspend the determination of the Net Asset Value of Shares of any Sub-Fund, the issue of the Shares of such Sub-Fund to subscribers and the redemption of the Shares of such Sub-Fund from its Shareholders as well as conversions of Shares of any Class in a Sub-Fund:

- (i) when one or more stock exchanges or markets, which provide the basis for valuing a substantial portion of the assets of the Company, or when one or more foreign exchange markets in the currency in which a substantial portion of the assets of the Company are denominated, are closed otherwise than for ordinary holidays or if dealings therein are restricted or suspended;
- (ii) when, as a result of political, economic, military or monetary events or any circumstances outside the responsibility and the control of the Board of Directors, disposal of the assets of the Company is not

reasonably or normally practicable without being seriously detrimental to the interests of the Shareholders;

- (iii) in the case of a breakdown in the normal means of communication used for the valuation of any investment of the Company or if, for any reason beyond the responsibility of the Board of Directors, the value of any asset of the Company may not be determined as rapidly and accurately as required;
- (iv) if, as a result of exchange restrictions or other restrictions affecting the transfer of funds, transactions on behalf of the Company are rendered impracticable or if purchases and sales of the Company's assets cannot be effected at normal rates of exchange any period when the Net Asset Value of one or more investment funds in which any Sub-Fund has invested and when the assets of the investment fund(s) represent a significant part of the proportion of assets of any Sub-Fund cannot be calculated with accuracy and cannot reflect the true market value of the Net Asset value of the investment fund(s) during a Valuation Day.
- (v) during any period when the Company is unable to repatriate funds for the purpose of making payments on the redemption of such Shares or during which any transfer of funds involved in the realisation or acquisition of investments or payments due on redemption of such Shares cannot in the opinion of the Board be effected at normal rates of exchange;
- (vi) if the Company or a Class of Shares is being or may be wound up on or following the date on which notice is given of the meeting of Shareholders at which a resolution to wind up the Company or a Class of Shares is proposed;
- (vii) if the Board has determined that there has been a material change in the valuations of a substantial proportion of the investments of the Company attributable to a particular Class of Shares in the preparation or use of a valuation or the carrying out of a later or subsequent valuation; and/or
- (viii) during any other circumstance or circumstances where a failure to do so might result in the Company or its Shareholders incurring any liability to taxation or suffering other pecuniary disadvantages or any other detriment which the Company or its Shareholders might so otherwise have suffered.

Any such suspension may be notified by the Company in such manner as it may deem appropriate to the persons likely to be affected thereby. The Company shall notify Shareholders requesting redemption of their Shares of such suspension. The determination of the Net Asset Value of Shares of any Sub-Fund, the issue of the Shares of any Sub-Fund to subscribers and the redemption and conversion of Shares by Shareholders may also be suspended in the event of the publication of a notice convening an extraordinary general meeting of Shareholders for the purpose of winding up the Company as from the time of such publication.

20. General Information

20.1. Auditor

The independent auditor for the Company is PricewaterhouseCoopers, *société coopérative*.

20.2. Financial Year

The financial year of the Company ends on 31 December each year.

20.3. Reports and Notices to Shareholders

Audited annual reports as of the end of each financial year will be established as of 31 December. In addition, unaudited semi-annual reports will be established as per the last day of the month of June. Those financial reports will provide for information on each of the Sub-Fund's assets as well as the consolidated accounts of the Company and be made available to the Shareholders free of charge at the registered office of the Company and of the Depositary.

The financial statements of each Sub-Fund will be established in the Reference Currency of the Sub-Fund but the consolidated accounts will be in Euro (EUR).

Audited annual reports shall be published within 4 months following the end of the financial year and unaudited semi-annual reports shall be published within 2 months following the end of the period to which they refer.

Information on the Net Asset Value of each Sub-Fund may be obtained at the registered office of the Company.

20.4. Shareholders' meetings

The annual general meeting of the Shareholders in the Company will be held at the registered office of the Company or at the place specified in the convening notice at a date and time decided by the Board of Directors being no later than six months after the end of the Company's previous financial year. .

If and to the extent legally required, notices of general meetings shall be published in one Luxembourg newspaper and in the *Recueil électronique des sociétés et associations* in Luxembourg and in such other newspapers as the Directors may determine.

Such notices shall contain the agenda, the date and place of the meeting, the conditions of admission to the meeting and they shall refer to the applicable quorum and majority requirements.

The meetings of Shareholders of Shares of a particular Sub-Fund or Class may decide on matters which are relevant only for the Sub-Fund or Class concerned.

20.5. Historical information

If available, past performance information will be included in the Key Investor Information Documents, which are available free of charge from the registered office of the Company.

20.6. Documents available to investors

The following documents shall also be available for inspection by Shareholders during normal business hours on any Banking Day at the registered office of the Company:

- (a) Management Company Agreement between the Management Company and the Company;
- (b) Depositary Agreement between the Management Company, the Company and the Depositary;
- (c) Administrative Agent, Registrar and Transfer Agent Agreement between the Management Company and the Administrative Agent;
- (d) Articles of Association; and

- (e) latest available annual/semi-annual report

20.7. Change of Address

Registered Shareholders must notify the Company and the Registrar and Transfer Agent in writing, at the address indicated above, of any changes or other account information.

21. Policies

Conflicts of interest

The Board of Directors, the Management Company, the Investment Managers and the other service providers of the Company, and/or their respective affiliates, members, employees or any person connected with them may be subject to various conflicts of interest in their relationships with the Company.

The Board of Directors has adopted and implemented a conflicts of interest policy in accordance with its Code of Conduct.

The Management Company, the Company and the Investment Managers have adopted and implemented a conflicts of interest policy and have made appropriate organisational and administrative arrangements to identify and manage conflicts of interests so as to minimise the risk of the Company's interests being prejudiced, and if they cannot be avoided, ensure that the Company's investors are treated fairly.

In the conduct of its business the Management Company and the adopted a conflict of interest policy (the "Conflict of Interest Policy") to identify, manage and where necessary prohibit any action or transaction that may give rise to conflicts entailing a material risk of damage to the interest of the Company or its shareholders. The Management Company strives to manage any conflicts in a manner consistent with the highest standards of integrity and fair dealing. For this purpose, it has implemented procedures that shall ensure that any business activities involving a conflict which may harm the interests of the Company or its shareholders, are carried out with an appropriate level of independence and that any conflicts are resolved fairly.

Notwithstanding its due care and best effort, there is a risk that the organizational or administrative arrangements made by the Management Company for the management of conflicts of interest are not sufficient to ensure with reasonable confidence, that risks of damage to the interests of the Company or its shareholders will be prevented. In such case where a conflict of interest cannot be avoided and/or requires particular action, the Management Company or the Board of Directors will report to shareholders in an appropriate durable medium and give reasons for this decision.

A paper version of the Conflicts of Interest Policy is available free of charge at the registered office of the Management Company.

Detailed information regarding the Conflict of Interest Policy can also be found on the following webpage of the Management Company: <https://www.fundrock.com/conflict-of-interest/>

Preferential treatment of investors

Shareholders are being given a fair treatment by ensuring that they are subject to the same rights and, as the case may be, the same obligations vis-à-vis the Company (as such rights are obligations notably result from the Articles and this Prospectus) as those to which other shareholders, having invested in, and equally or similarly contributed

to, the same class of Shares, are subject to. Notwithstanding the foregoing paragraph, it cannot be excluded that a shareholder be given a preferential treatment in the meaning of, and to the widest extent, allowed by, the Articles. Whenever a shareholder obtains preferential treatment or the right to obtain a preferential treatment, a description of that preferential treatment, the type of shareholders who obtained such preferential treatment and, where relevant, their legal or economic links with the Company or the Management Company will be made available at the registered office of the Management Company subject the same limits required by the Law.

Remuneration Policy

The Management Company has established and applies a remuneration policy in accordance with principles laid out under the Directive 2009/65/EC and any related legal and regulatory provisions applicable in Luxembourg.

The remuneration policy is aligned with the business strategy, objectives, values and interests of the Management Company, the Company and of the shareholders of the Company, and which includes, inter alia, measures to avoid conflicts of interest. The remuneration policy is consistent with and promotes sound and effective risk management and does not encourage risk taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the Company.

As an independent management company relying on a full-delegation model (i.e. delegation of the collective portfolio management function), the Management Company ensures that its remuneration policy adequately reflects the predominance of its oversight activity within its core activities. As such, it should be noted that the Management Company's employees who are identified as risk-takers under Directive 2009/65/EC are not remunerated based on the performance of the UCITS under management.

An up-to-date version of the remuneration policy (including, but not limited to, the description of how remuneration and benefits are calculated, as well as the identity of the persons responsible for awarding the remuneration and benefits and the composition of the remuneration committee) is available at: http://www.fundrock.com/pdf/Fundrock_Remuneration_policy.pdf. A paper version of this remuneration policy is made available free of charge at the Management Company's registered office.

The Management Company's remuneration policy, in a multi-year framework, ensures a balanced regime where remuneration both drives and rewards the performance of its employees in a measured, fair and well-thought-out fashion which relies on the following principles*:

- identification of the persons responsible for awarding remuneration and benefits (under the supervision of the remuneration committee and subject to the control of an independent internal audit committee);
- identification of the functions performed within the Management Company which may impact the performance of the entities under management;
- calculation of remuneration and benefits based on the combination of individual and company's performance assessment;
- determination of a balanced remuneration (fixed and variable);
- implementation of an appropriate retention policy with regards to financial instruments used as variable remuneration;
- deferral of variable remuneration over 3-year periods;
- implementation of control procedures/adequate contractual arrangements on the remuneration guidelines set up by the Management Company's respective portfolio management delegates.

*It should be noted that, upon issuance of final guidelines, this remuneration policy may be subject to certain amendments and/or adjustments.

Other Policies

The Management Company will make the following additional information available at its registered office upon request in accordance with Luxembourg laws and regulations: the procedures relating to complaints handling, the strategy followed for the exercise of voting rights of the Company, the best execution policy and the procedure for the giving and receiving of inducements.

22. Reorganisation, Liquidation and Merger of the Company or Sub-Funds

The duration of the Company is not limited by the Articles of Association. The Company may be wound up by decision of an extraordinary general meeting of Shareholders. If the total net assets of the Company falls below two-thirds of the minimum capital prescribed by law (i.e. EUR 1,250,000), the Board of Directors must submit the question of the Company's dissolution to a general meeting of Shareholders for which no quorum is prescribed and which shall pass resolutions by simple majority of the Shares represented at the meeting.

If the total net assets of the Company fall below one-fourth of the minimum capital prescribed by law (i.e. EUR 1,250,000), the Board of Directors must submit the question of the Company's dissolution to a general meeting of Shareholders for which no quorum is prescribed. A resolution dissolving the Company may be passed by Shareholders holding one-fourth of the Shares represented at the meeting.

The meeting must be convened so that it is held within a period of forty days from the date of ascertainment that the net assets have fallen below two-thirds or one-fourth of the legal minimum, as the case may be.

If the Company is dissolved, the liquidation shall be carried out by one or several liquidators in accordance with the provisions of Luxembourg laws and regulations. The liquidator(s) will realise each Sub-Fund's assets in the best interests of the Shareholders and apportion the proceeds of the liquidation, after deduction of liquidation costs, amongst the Shareholders of the relevant Sub-Fund according to their respective *pro rata*. Any amounts unclaimed by the Shareholders at the closing of the liquidation of the Company will be deposited with the *Caisse de Consignation* in Luxembourg until the statutory limitation period has lapsed for a duration of thirty (30) years. If amounts deposited remain unclaimed beyond the prescribed time limit, they shall be forfeited.

The Board of Directors of the Company may decide to liquidate any Sub-Fund if a change in the economic or political situation relating to the Sub-Fund justifies such liquidation or if the assets of a Sub-Fund fall to a level that no longer allow the Sub-Fund to be managed in an economically efficient and rational manner (i.e. below the equivalent of EUR 15,000,000). The Board of Directors will further liquidate any Sub-Fund if it is in the best interest of the Shareholders. The liquidation shall be carried out in accordance with the provisions of Luxembourg laws and regulations. The decision to liquidate will be notified to the relevant Shareholders and/or, if so required under applicable laws and regulations, published by the Company in a Luxembourg newspaper and/or in any other newspaper(s) in those countries where the Shares are sold, as determined by the Board of Directors from time to time, prior to the effective date of the liquidation. The notice and/or the publication will indicate the reasons for, and the procedures of, the liquidation operations. Unless the Board of Directors decides otherwise in the interests of, or in order to keep equal treatment between the Shareholders, the Shareholders of the Sub-Fund or Class concerned may continue to request redemption or conversion of their Shares free of Redemption or Conversion Charge. However, the liquidation costs will be taken into account in the redemption and conversion price. Liquidation proceeds which could not be distributed to the Shareholders upon the conclusion of the liquidation of a Sub-Fund or Class will be deposited with the *Caisse de Consignation* on behalf of such beneficiaries.

A merger of a Sub-Fund or Class with another Sub-Fund of the Company or with a sub-fund of another UCITS,

whether subject to Luxembourg law or not, may be decided by the Board of Directors, unless the Board of Directors decides to submit the decision for a merger of a Sub-Fund or Class to a general meeting of Shareholders of that Sub-Fund. No quorum is required for this meeting and decisions are taken by a simple majority of the votes cast.

In the case of a merger of a Sub-Fund where, as a result, the Company ceases to exist, the merger shall, notwithstanding the foregoing paragraph, be decided by a meeting of Shareholders of the Sub-Fund resolving in accordance with the quorum and majority requirements for amending the Articles.

The merger decision will be published (or notified as the case may be) to the relevant shareholders and such publication and/or notification will contain information in relation to the new Sub-Fund, Class or the relevant undertaking for collective investment in accordance with the Law of 17 December 2010 and applicable regulations. Such publication and/or notification will be made at least 30 days before the last day for requesting the redemption of the Shares or as the case may be, conversion without any charge other than those legally permitted.

SCHEDULE 1

CALCULATION OF PERFORMANCE FEES

The information contained in this Schedule should be read in conjunction with the full text of the Prospectus of which this forms an integral part.

1. Calculation of Performance Fee by application of a "Claw-Back Mechanism"

In respect of certain Sub-Funds and certain Share Classes, the Investment Manager is entitled to receive from the net assets of each Sub-Fund or Share Class a performance based incentive fee (the "Performance Fee"). The rate at which the Performance Fee shall be applied (the "Performance Fee Rate") and the "Calculation Period" for each Sub-Fund is set out in the table "Summary of Shares" in the relevant Annex. The first Calculation Period will commence on the Valuation Day immediately following the close of the Initial Offering Period. The Performance Fee will be calculated and accrued on each Valuation Day as an expense of the relevant Share Class and will be payable to the Investment Manager in arrears at the end of each Calculation Period. The "Claw-Back Mechanism" refers to the methodology of performance fee calculation as further prescribed under Section 1.3 below. It does not infer that any Performance Fees paid to the investment manager can be clawed back in future Calculation periods of negative performance, if any.

1.1 Daily Share Class Return

On each Valuation Day, the "Adjusted Net Asset Value" is calculated in respect of each Share Class of any Sub-Fund for which a Performance Fee applies. The Adjusted Net Asset Value is the Net Asset Value (which includes all fees and expenses to be borne by the relevant Share Class), adjusted for any dividend distributions and any subscriptions and redemptions dealt with on that Valuation Day, and any Performance Fee accrued throughout that Valuation Day.

The "Daily Share Class Return" is calculated on each Valuation Day, as the difference between the Net Asset Value (adjusted by adding back any accrued Performance Fee) on such Valuation Day and the Adjusted Net Asset Value on the previous Valuation Day, expressed as a percentage of the previous Valuation Day's Adjusted Net Asset Value for that Share Class.

1.2 Daily Benchmark Return

The "Daily Benchmark Return" is determined on each Valuation Day by taking the percentage difference between the Performance Fee Benchmark on such Valuation Day and the Performance Fee Benchmark on the previous Valuation Day. The Performance Fee Benchmark is determined on the basis of quotations available from independent sources, rounded upwards, to the nearest four decimal places and computed in accordance with prevailing market practices.

1.3 Claw-Back Mechanism

Following a Calculation Period in which no Performance Fee has been charged, no Performance Fee will accrue until such time as the cumulative Daily Share Class Return (since the last Valuation Day of the Calculation Period in which a Performance Fee was charged) exceeds the cumulative Daily Benchmark Return (since the last Valuation Day of the Calculation Period in which a Performance Fee was charged).

If no Performance Fee has been charged since the launch of the Share Class, no Performance Fee will accrue until such time as the cumulative Daily Share Class Return since the launch of that Share Class exceeds the cumulative Daily Benchmark Return since the launch of that Share Class.

1.4 Excess Return

On any Valuation Day, the "Excess Return" is given by the difference between the Daily Share Class Return and the Daily Benchmark Return. If however on any Valuation Day the difference between the Daily Share Class Return and the Daily Benchmark Return exceeds the difference between the cumulative Daily Share Class Return (since the last Valuation Day of the last accounting year in which a Performance Fee was charged) and the cumulative Daily Benchmark Return (since the last Valuation Day of the last accounting year in which a Performance Fee was charged), then the Excess Return for that Valuation Day is given by the difference between the cumulative Daily Share Class Return and the cumulative Daily Benchmark Return.

Additionally, if on any Valuation Day the difference between the cumulative Daily Share Class Return and the cumulative Daily Benchmark Return is zero or negative then the Excess Return for that Valuation Day will also be zero.

1.5 Performance Fee Accruals

The "Daily Performance Fee Accrual" is calculated each Valuation Day, and is equal to the Performance Fee Rate multiplied by the Excess Return multiplied by the previous Valuation Day's Adjusted Net Asset Value for that Share Class.

Subject to the provisions of the Claw-Back Mechanism described in 1.3 above, if on any Valuation Day the Daily Share Class Return exceeds the Daily Benchmark Return, the Performance Fee accrual is increased by the amount of the Daily Performance Fee Accrual. If, however, on any Valuation Day the Daily Share Class Return does not exceed the Daily Benchmark Return, the Performance Fee accrual is correspondingly reduced by the amount of that Valuation Day's Daily Performance Fee Accrual. The Performance Fee accrual will never be reduced below zero.

No Performance Fee will be accrued until such time as the cumulative Daily Share Class Return (since the last Calculation Period in which a Performance Fee was charged) exceeds the cumulative Daily Benchmark Return (since the last Calculation Period in which a Performance Fee was charged).

Additionally, if at any time during a given accounting year the Performance Fee accrual has been reduced to zero, no new Performance Fee is accrued until such time as the cumulative Daily Share Class Return (since the last Calculation Period in which a Performance Fee was charged) exceeds the cumulative Daily Benchmark Return (since the last Calculation Period in which a Performance Fee was charged).

The Performance Fee accrued on any Valuation Day is reflected in the Net Asset Value per Share on the basis of which subscriptions and redemptions may be accepted.

Example of calculation

Day	Change in NAV	-	Change in Benchmark	=	Difference	X	Performance Fee rate	=	Daily Accrual	+/-	Cumulative Accrual
1	+1.0%	-	+0.5%	=	+0.5%	X	10%	=	+0.050%	+	+0.050%
2	+0.5%	-	+0.75%	=	-0.25%	X	10%	=	-0.025%	-	+0.025%
3	-1.25%	-	-1.5%	=	+0.25%	X	10%	=	+0.025%	+	+0.050%

1.6 Performance Fee Redemptions

If a redemption is made from the relevant Share Class as of a Valuation Day other than the end of a Calculation Period, the Performance Fee (if accrued as of the date of such redemption) shall be crystallized in respect of the Shares being redeemed and paid to the Investment Manager. On any Valuation Day, the "Performance Fee Redemption" is given by the previous Valuation Day Performance Fee accrual expressed as a percentage of the previous Valuation Day Net Asset Value multiplied by the redemption amount.

1.7 Computation of Performance Fees

Performance Fees are calculated by the Administrative Agent and audited annually by the independent auditors of the Company. The Board may make such adjustments of accruals as it deems appropriate to ensure that the accrual represents fairly and accurately the Performance Fee liability that may eventually be payable by the Sub-Fund or Share Class to the Investment Manager.

1.8 Payment of Performance Fees

The Performance Fee payable is equal to the Performance Fee accrued at the end of the relevant Calculation Period. Performance Fees payable to the Investment Manager in any Calculation Period are not refundable in any subsequent Calculation Periods.

In the case of liquidation or merger of a Sub-Fund to which a Performance Fee is applicable, the Performance Fee will be paid on the last Valuation Day before its liquidation or merger.

2. Calculation of Performance Fee by application of a "High Water Mark Mechanism"

Some Sub-Funds may follow a High Water Mark for the calculation of their Performance Fee. The purpose of the High Water Mark is to ensure that the Investment Manager is not in effect paid a Performance Fee more than once for the same performance.

2.1. Calculation of Performance Fee

Where the Investment Manager is entitled to receive from the net assets of each Sub-Fund or Class, as set out in the table "Summary of Shares" in the relevant Annex, a performance-based incentive fee (the "Performance Fee"), this Performance Fee will be equal to the given percentage (the "Performance Fee Rate") of the Share Class Return (defined in 2.2 below) in excess of the greater of the Benchmark Return (as set out in 2.4 below, if applicable) and the High Water Mark Return (defined in 2.3 below), where applicable, (the "Excess Return"), calculated as described below. The first Calculation Period will commence on the Valuation Day immediately following the close of the Initial Offering Period. The Performance Fee will be calculated and accrued on each Valuation Day as an expense of the relevant Share Class and will be payable to the Investment Manager in arrears at the end of each Calculation Period.

2.2. Share Class Return

On each Valuation Day, the Net Asset Value of each Class of each Sub-Fund for which a Performance Fee applies, which includes all fees and expenses to be borne by the relevant Share Class, is adjusted for any dividend distributions and for subscriptions and redemptions dealt with on that Valuation Day, if any, and any Performance Fee accrued through that Valuation Day in respect of such Class is added back (the "Adjusted Net Asset Value"). For purposes of calculating the Performance Fee, the "Share Class Return" is computed on each Valuation Day, as the difference between the Net Asset Value (adjusted by adding back any accrued Performance Fee) on such Valuation Day and the Adjusted Net Asset Value on the previous Valuation Day, expressed as a return based on the previous Valuation Day's Adjusted Net Asset Value for that Class.

2.3. High Water Mark Return

A high water mark is the point after which a Performance Fee becomes payable. The high water mark will be the higher of the Net Asset Value at launch of the Share Class, or the Net Asset Value at which the last Performance Fee has been paid.

The "High Water Mark Return" is defined as the return necessary, since the start of the Calculation Period, to equal the Net Asset Value per Share of each Class of each Sub-Fund at the end of the previous Calculation Period in which a Performance Fee was charged. If no Performance Fee has been charged since the launch of the Class of Shares, the High Water Mark Return is the return necessary to equal the initial Net Asset Value per Share of that Class of Shares.

2.4. Benchmark Return (if applicable)

The "Benchmark Return" is determined on each Valuation Day by taking the percentage difference between the benchmark on such Valuation Day and the benchmark on the previous Valuation Day. The benchmark is determined on the basis of quotations available from independent sources, rounded upwards, to the nearest four decimal places and computed in accordance with prevailing market practices. For sub-funds which use a fixed return component to their benchmark the "Benchmark Return" should be reset to zero at the beginning of each calculation period.

2.5. Performance Fee Accruals

If the Share Class Return exceeds the Benchmark Return (if applicable) and the cumulative Share Class Return exceeds the High Water Mark Return, the Performance Fee accrual is increased by the Performance Fee Rate multiplied by the Excess Return multiplied by the previous Valuation Day's Adjusted Net Asset Value for that Class. If the Share Class Return does not exceed the Benchmark Return (if applicable), the Performance Fee accrual is reduced (but not below zero) by the Performance Fee Rate multiplied by the negative Excess Return multiplied by the previous Valuation Day's Adjusted Net Asset Value for that Class. Following a period of negative Excess Return whereby the Performance Fee accrual has been reduced to zero, no new Performance Fee is accrued until such time as the cumulative Share Class Return exceeds the greater of the High Water Mark Return and the cumulative Benchmark Return (if applicable) since the beginning of the Calculation Period. The Performance Fee accrued on any Valuation Day is reflected in the Net Asset Value per Share on the basis of which subscriptions and redemptions may be accepted.

Example of calculation

Day	Change in NAV	-	Change in Benchmark	=	Difference	X	Performance Fee rate	=	Daily Accrual	+/-	Cumulative Accrual
1	+1.0%	-	+0.015%	=	+0.985%	X	10%	=	+0.098%	+	+0.098%
2	+0.2%	-	+0.015%	=	+0.185%	X	10%	=	+0.018%	+	+0.116%
3	-0.50%	-	+0.015%	=	-0.515%	X	10%	=	-0.051%	-	+0.065%

2.6. Performance Fee Redemptions

If a redemption is made from the relevant Share Class as of a Valuation Day other than the end of a Calculation Period, the Performance Fee (if accrued as of the date of such redemption) shall be crystallized in respect of the Shares being redeemed and paid to the Investment Manager. On any Valuation Day, the "Performance Fee Redemption" is given by the previous Valuation Day Performance Fee accrual expressed as a percentage of the previous Valuation Day Net Asset Value multiplied by the redemption amount.

2.7. Computation of Performance Fees

Performance Fee computations are made by the Administrative Agent and audited annually by the auditors of the Company. The Board may make such adjustments of accruals as it deems appropriate to ensure that the accrual represents fairly and accurately the Performance Fee liability that may eventually be payable by the Sub-Fund or

Class to the Investment Manager.

2.8. Payment of Performance Fees

The Performance Fee payable is equal to the Performance Fee accrued at the end of the relevant Calculation Period. Performance Fees payable to the Investment Manager in any Calculation Period are not refundable in any subsequent Calculation Periods.

3. Calculation of Performance Fee by application of "Equalisation Mechanism"

3.1. Calculation of Performance Fee

In respect of certain Sub-Funds and certain Share Classes the Investment Manager will also be entitled to receive a performance fee paid out of the Sub-Fund's assets (the "Performance Fee"). The rate at which the Performance Fee shall be applied (the "Performance Fee Rate") and the "Calculation Period" for each Sub-Fund is set out in the table "Summary of Shares" in the relevant Annex. The first Calculation Period will commence on the Valuation Day immediately following the close of the Initial Offering Period. The Performance Fee will be calculated and accrued on each Valuation Day as an expense of the relevant Share Class and will be payable to the Investment Manager in arrears at the end of each Calculation Period.

3.2. Performance Fee Accruals

The Performance Fee is deemed to accrue on each Valuation Day. For each Calculation Period, the Performance Fee in respect of each class of Share will be equal to the Performance Fee Rate multiplied by the appreciation in the Net Asset Value per each Share of that class of any Sub-Fund during that Calculation Period above the Base Net Asset Value per each Share of that class. The Base Net Asset Value per each Share class is the greater of the Net Asset Value of that Share at the time of issue of that Share (adjusted with a prevailing Benchmark as outlined in 3.3 below, if applicable) and the highest Net Asset Value of that Share achieved as of the end of any previous Calculation Period (if any) during which such Share was in issue (adjusted with a prevailing Benchmark as outlined in 3.3 below, if applicable). The Performance Fee in respect of each Calculation Period will be calculated by reference to the Net Asset Value attributable to the Share before making any deduction for accrued Performance Fee.

3.3. Benchmark

The "Benchmark" is determined on each Valuation Day by taking the percentage difference between the benchmark on such Valuation Day and the benchmark at the end of the previous Calculation period in which a Performance fee was charged. The benchmark is determined on the basis of quotations available from independent sources, rounded upwards, to the nearest four decimal places and computed in accordance with prevailing market practices.

3.4. Adjustments

If an investor subscribes for Shares at a time when the Net Asset Value per Share is other than the Peak Net Asset Value per Share, certain adjustments will be made to reduce inequities that could otherwise result to the subscriber or to the Investment Manager. The Peak Net Asset Value per Share ("Peak Net Asset Value per Share") is the greater of (i) the price at which Shares were issued on the expiry of the Initial Offering Period (adjusted with a prevailing Benchmark, if applicable) and (ii) the greater of the Net Asset Value per each class of Share in effect immediately after the end of a Calculation Period in respect of which a Performance Fee (other than a Performance Fee Redemption, as outlined in 3.9 below) was charged (adjusted with a prevailing Benchmark, if applicable).

3.4.1. Performance Fee Redemption

If Shares are subscribed for at a time when the Net Asset Value per Share is less than the relevant Peak Net Asset Value per Share, the investor will be required to pay a Performance Fee with respect to any subsequent appreciation in the value of those Shares. With respect to any appreciation in the value of those Shares from the Net Asset Value per Share at the date of subscription up to the relevant Peak Net Asset Value per Share, the Performance Fee will be charged at the end of each Calculation Period by redeeming at par value such number of Shares held by the

Shareholder as have an aggregate Net Asset Value (after accrual for any Performance Fee) equal to the Performance Fee Rate multiplied by any such appreciation (a "Performance Fee Redemption").

The aggregate Net Asset Value of the Shares so redeemed will be paid to the Investment Manager as a Performance Fee. Performance Fee Redemptions are employed to ensure that the Sub-Fund maintains a uniform Net Asset Value per Share. As regards the remaining Shares held by the Shareholder, any appreciation in those Shares above the relevant Peak Net Asset Value per Share will be charged a Performance Fee in the normal manner described above.

3.4.2. Equalisation Credit

If Shares are subscribed for at a time when the Net Asset Value per Share is greater than the relevant Peak Net Asset Value per Share, the Shareholder will be required to pay an amount in excess of the then current Net Asset Value per Share equal to Performance Fee Rate multiplied by the difference between the then current Net Asset Value per Share (before accrual for the Performance Fee) and the relevant Peak Net Asset Value per Share (an "Equalisation Credit"). At the date of subscription the Equalisation Credit will equal the Performance Fee per Share accrued with respect to the other Shares of the same class in the Sub-Fund (the "Maximum Equalisation Credit"). The Equalisation Credit is payable to account for the fact that the Net Asset Value per Share has been reduced to reflect an accrued Performance Fee to be borne by existing Shareholders and serves as a credit against Performance Fees that might otherwise be payable by the Sub-Fund but that should not, in equity, be charged against the Shareholder making the subscription because, as to such Shares, no favourable performance has yet occurred. The Equalisation Credit ensures that all Shareholders in the Sub-Fund have the same amount of capital at risk per Share.

The additional amount invested as the Equalisation Credit will be at risk in the Sub-Fund and will therefore appreciate or depreciate based on the performance of the Sub-Fund subsequent to the issue of the relevant Shares but will never exceed the Maximum Equalisation Credit. In the event of a decline as at any Valuation Day in the Net Asset Value per Share, the Equalisation Credit will also be reduced by an amount equal to the Performance Fee Rate multiplied by the difference between the Net Asset Value per Share (before accrual for the Performance Fee) at the date of issue and as at the Valuation Day. Any subsequent appreciation in the Net Asset Value per Share will result in the recapture of any reduction in the Equalisation Credit but only to the extent of the previously reduced Equalisation Credit up to the Maximum Equalisation Credit.

At the end of each Calculation Period, if the Net Asset Value per Share (before accrual for the Performance Fee) exceeds the relevant prior Peak Net Asset Value per Share, that portion of the Equalisation Credit equal to Performance Fee rate multiplied by the excess, multiplied by the number of Shares subscribed for by the Shareholder, will be applied to subscribe for additional Shares for the Shareholder. Additional Shares will continue to be so subscribed for at the end of each Calculation Period until the Equalisation Credit, as it may have appreciated or depreciated in the Sub-Fund after the original subscription for Shares was made, has been fully applied.

If the Shareholder redeems his Shares before the Equalisation Credit has been fully applied, the Shareholder will receive additional redemption proceeds equal to the Equalisation Credit then remaining multiplied by a fraction, the numerator of which is the number of Shares being redeemed and the denominator of which is the number of Shares held by the Shareholder immediately prior to the redemption in respect of which an Equalisation Credit was paid on subscription.

3.5. Computation of Performance Fees

Performance Fees are calculated by the Administrative Agent and audited annually by the independent auditors of the Company. The Board may make such adjustments of accruals as it deems appropriate to ensure that the accrual represents fairly and accurately the Performance Fee liability that may eventually be payable by the Sub-Fund or Share Class to the Investment Manager.

3.6. Payment of Performance Fees

The Performance Fee payable is equal to the Performance Fee accrued at the end of the relevant Calculation Period. Performance Fees payable to the Investment Manager in any Calculation Period are not refundable in any subsequent Calculation Periods.

In the case of liquidation or merger of a Sub-Fund to which a Performance Fee is applicable, the Performance Fee will be paid on the last Valuation Day before its liquidation or merger.

FIRST ANNEX

SEB PRIME SOLUTIONS – SISSENER CANOPUS

This Annex is valid only if accompanied by the currently valid Prospectus of SEB PRIME SOLUTIONS. This Annex refers only to SEB PRIME SOLUTIONS – SISSENER CANOPUS (the **Sub-Fund**).

1. Investment Objective, Methodology and Strategy

Investment Objective

The investment objective of the Sub-Fund is to achieve a sound absolute return by combining a long/short strategy with derivatives and other relating strategies to maximise the return.

Investment Methodology

The Sub-Fund is actively managed and the investment objectives, strategy and marketing do not refer to a benchmark. The Sub-Fund's performance fee is calculated with reference to a benchmark.

The Sub-Fund will invest predominantly in listed stocks either directly or through financial derivative instruments, mainly contracts for differences and unfunded total return swaps.

However, the Sub-Fund may also invest in fixed income securities, convertible bonds and any other eligible transferable securities issued in the Nordic Countries, but also in the European and the US market. All investments will be made in accordance with the investment restrictions as described in Section 5 of the general part of the Prospectus.

The Sub-Fund is also allowed to invest in liquid assets on an ancillary basis. From time to time 100% of the Sub-Fund's net assets may be invested in liquid assets with due regard to the principle of risk spreading. Such assets may be kept in the form of cash deposits or in money market instruments. Leverage will only be achieved through financial derivatives instruments.

The global exposure of the Sub-Fund will be monitored by using the Value-at-Risk (VaR) methodology in accordance with applicable CSSF circulars. The level of the absolute VaR for the Sub-Fund will not exceed 20%.

The Sub-Fund's expected level of leverage will be primarily determined using the sum of the notionals, taking into account financial derivative instruments concluded by the Sub-Fund. In respect of financial derivative instruments which do not have a notional value, the calculation will be based on the market value of the equivalent position in the underlying assets. Based on this methodology, the leverage shall not exceed 500% of the Net Asset Value of the Sub-Fund. Please note that the actual level of leverage may be higher.

Financial derivative instruments may be used as an integral part of the investment strategy as well as for hedging purposes.

The equity positions will predominantly be traded on Regulated Markets and/or OTC on an

arm's length basis with counterparties approved by the Board of Directors. Where the Investment Manager wishes to take short positions, it will do so exclusively through the use of financial derivative instruments.

The Sub-Fund's assets will, together with any cash or cash equivalents and any fees and expenses, be valued on each Valuation Day in order to determine the Net Asset Value of the Sub-Fund. The pricing of OTC derivative contracts will be performed independently of the trading desks of the OTC counterparties, which are the counterparties to the Sub-Fund in respect of OTC derivative contracts. When applying the limits specified in Section 5.2.3 of the Prospectus to the OTC derivative transactions, reference should be made to the net counterparty risk exposure. Thus, the Company may choose to reduce the gross counterparty risk of the Sub-Fund's OTC derivative transactions by causing the relevant counterparty to deliver to the Depositary eligible collateral in accordance with applicable CSSF Circulars. To the extent that the Sub-Fund's Depositary receives such collateral, it will be enforceable by the Company at all times and will be marked to market at any time. The amount of collateral to be delivered in accordance with applicable CSSF Circulars will be at least equal to the value by which the gross exposure limit has been exceeded.

Investment Strategy

The Sub-Fund's portfolio will be managed in accordance with an active investment strategy with an emphasis on fundamental analysis at company and macro level of the companies issuing the instruments in which the Sub-Fund intends to invest. In this fundamental analysis the following factors will be ascribed considerable weight:

- Earnings prospects
- Debt-servicing ability
- Cost position
- Competitive position
- Developments in supply and demand in the market in which the companies operate.

Company visits and assessments of company management teams will be key investment criteria. The central assessment criteria will further include past performance by company management and its ability to exploit the company's strategic possibilities. Emphasis will be placed on good corporate governance practice by the companies and on the liquidity of the financial instruments in which investments shall be made. This will include assessing the past history and actions of management, directors and dominant shareholders with respect to minority shareholders and information and transactions between close associates. In implementing the investment strategy, considerable weight will also be attached to long-term market trends. The Investment Manager will at all times be critical when selecting companies, with account being taken of the prevailing market conditions. The choice of instruments and allocation of assets will be determined largely by the view of the market at any given time. Equity capital instruments, debt instruments and derivatives will be used to optimise the portfolio. An investment in options may provide occasionally for high volatility, but also for additional opportunities to make profits. Such an investment will - as far as possible - only be made in well-established companies with healthy earnings and healthy balance sheets. Key selection criteria will be the price of instruments in the market relative to fundamental values and prospects for the future. The style of investment may vary over time depending on valuation and market prospects. As a result of the investment strategy, the portfolio may at times appear to be highly biased in a certain direction.

Efficient Portfolio Management

The Sub-Fund does not make use of any securities financing transactions, within the meaning of the Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse.

Total Return Swaps

The Sub-Fund will enter into unfunded Total Return Swap transactions or other financial derivative instruments with similar characteristics, within the meaning of the Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse, to gain or reduce exposure to bonds and stocks, being compliant with the investment policy of the Sub-Fund, as well as to hedge the existing long positions or exposures.

Maximum and expected proportion of the unfunded Total Return Swaps

The expected proportion of assets under management that can be subject to unfunded TRS is 30% of the assets under management of the Sub-Fund (expressed as the sum of the notionals) while the maximum proportion shall not exceed 60% of the assets under management of the Sub-Fund (expressed as the sum of the notionals). For any avoidance of doubt diversification rules applicable at the Sub-Fund level shall apply to the underlying assets of the TRS.

Specification of how assets subject to Total Return Swap are safe-kept

When the Sub-Fund is the total return payer of the TRS (i.e. owns the reference asset of the TRS), the Depositary is entitled to perform its duties by ensuring the safe-keeping of the reference asset of the TRS.

Disclosure of policy on profit-sharing

The Sub-Fund is entitled to receive 100% (no profit-sharing agreement) of the revenues earned from the Total Return Swap transactions.

ESG Goals

The Sub-Fund qualifies as an Article 8 financial product under SFDR.

The Investment Manager takes several ESG considerations into account, e.g. environmental objective such as renewable energy, raw materials, water and land preservation and protection, the production of waste, and greenhouse gas emissions, and impact on biodiversity. Additionally, the Investment Manager will consider impact on the circular economy, and whether investments have an impact on economic activities that contributes to a social objective, in particular an investment that contributes to tackling inequality or that fosters social cohesion, social integration and labor relations or an investment in human capital or economically or socially disadvantaged communities.

The Investment Strategy used to fulfil the Sub-Fund's ESG considerations is an integral in the overall investment strategy of the Sub-Fund. The Sub-Fund's portfolio will be managed in accordance with an active investment strategy with an emphasis on fundamental analysis at company and macro level of the companies issuing the instruments in which the Sub-Fund intends to invest. As part of this fundamental analysis, the Investment Manager will assess the ESG-related risks and/or opportunities such as listed above. The Investment Manager aims to assess materiality of these ESG-related risks and/or opportunities in fundamental analysis based on the principles described under *Positive Tilt* below.

The Investment Manager will seek 3rd party support for ESG-related data and information, when necessary, to fulfil the Investment Strategy.

Negative Screening

1. The Investment Manager has defined two approaches to exclusion and negative screening:

Ethical exclusion of companies based on “what they do” i.e. the nature of their core business. The Sub-Fund’s policy with regard to ethical exclusion is based on complying with the exclusion list as defined by Norges Bank Investment Management. The Sub-Fund should not be invested in companies that contribute to violations of fundamental ethical norms, manufacture certain types of weapons, base their operations on coal, or produce tobacco. The Ministry of Finance has issued guidelines and set up an independent Council on Ethics to assess companies and make recommendations on exclusion and observation. The Investment Manager has continual oversight and monitor companies excluded from the investment universe. The Investment Manager will apply the same ethical exclusion guidelines to companies not included in the exclusion list as defined by Norges Bank Investment Management. will apply the same ethical guidelines for investments as established by the Ministry of Finance for the Government Pension Fund Global (“GPFG”). The Investment Manager will mirror the GPFG’s exclusion list and exclude the same companies from the Sub-fund’s portfolio.”

2. Risk based exclusion of companies based on “*company behaviour*”, as deemed by the Investment Manager. The Investment Manager has the freedom to exclude companies where ESG-related risks are deemed of great potential detrimental character.

Positive Tilt

Core to aligning investments with the Sub-Fund’s ESG goals are the recognition that ESG consideration are important drivers of value. The competitive position held by market participants determines their share of overall value added. Trends and challenges will alter the forces of competition exerted on a company. Companies that embrace change by seizing opportunities and by managing risks are likely to enhance their competitive position. Seizing opportunities and/or managing risks better than peers should lead to higher return on invested capital and/or lower financing costs. Shareholder value is a function of both return on invested capital (ROIC) and the weighted cost of capital (WACC). Seizing opportunities better than peers will lead to higher free cash flow (FCF) to the firm. By focusing on how companies engage on ESG related risks and opportunities and trying to assess how these flows through to the financial parameters of ROIC, WACC and FCF to the firm the portfolio management team seek to identify investments opportunities with a positive tilt. This positive tilt analysis is integrated into financial analysis of the company.

THERE IS NO ASSURANCE THAT THE SUB-FUND WILL BE SUCCESSFUL AND WILL ACHIEVE ITS INVESTMENT OBJECTIVES. AN INVESTMENT IN THE SUB-FUND IS SPECULATIVE AND INVOLVES SUBSTANTIAL RISKS. SUBSCRIBERS ARE SPECIFICALLY DIRECTED TO SECTION 6 OF THE PROSPECTUS FOR A DISCUSSION OF THE VARIOUS RISK FACTORS AND OTHER CONSIDERATIONS SURROUNDING AN INVESTMENT IN THE SUB-FUND.

2. Risk Profile

An investment in the Sub-Fund is designated to be a medium term investment and is not intended as a complete investment program. Investors should not expect to obtain short-term

gains from such investment. The Sub-Fund is suitable for experienced and sophisticated investors who can afford to set aside the capital for the medium term and who seek a high investment risk.

This is a complex product where typical investors are expected to be informed and to have an understanding of derivative instruments.

3. Specific Risk Considerations

In addition to the risk factors mentioned in section 6 of the Prospectus, investors should note that an investment in the Sub-Fund entails the following specific risks.

Long-Short Strategy Risk

Investors should note that the investment strategy of, and risks inherent to, the Sub-Fund are not typically encountered in traditional equity long-only positions. The Sub-Fund may use derivative instruments as part of its investment strategy. Such instruments are inherently volatile and the Sub-Fund could potentially be exposed to additional risks and costs should the market move against it. The Sub-Fund may also use derivative instruments to take short positions on some investments. Should the value of such investments increase, it will have a negative effect in the Sub-Fund's value. In extreme market conditions, the Sub-Fund may be faced with theoretically unlimited losses. Such extreme market conditions could mean that investors could, in certain circumstances, face minimal or no returns or may even suffer a loss on such investments.

New Sub-Fund

The Sub-Fund has no operating history and an indeterminate amount of time may be required to achieve operating efficiency and profitable operations. No assurance can be given that the Sub-Fund will achieve its investment objectives and thus investment in the Sub-Fund entails a certain degree of risk.

Sustainability Risk

Assets held by the Sub-Fund may be subject to partial or total loss of value because of the occurrence of a Sustainability Risk (as described in the General Risks section of this Prospectus) due to fines, reduction of demand in the asset's products or services, physical damage to the asset or its capital, supply chain disruption, increased operating costs, inability to obtain additional capital, or reputational damage.

A Sustainability Risk event may arise and impact a specific investment or may have a broader impact on an economic sector, geographical or political region or country which may impact the portfolio of the Sub-Fund in its entirety.

4. Reference Currency

The reference currency of the Sub-Fund is Norwegian Krone (NOK).

In order to protect Shareholders of Classes not denominated in NOK from the impact of currency movements, the relevant currencies may, at the discretion of the Investment Manager, be hedged, in full or in part, back to the NOK. The costs and effects of this hedging will be reflected in the Net Asset Value and in the performance of these Classes.

5. Banking Day, Valuation Day, Net Asset Value and Dealing Day

Banking Day of the Sub-Fund will be every full day on which banks are open for business in

Luxembourg and Norway.

The Valuation Day of the Sub-Fund will be every Banking Day.

The Dealing Day of the Sub-Fund will be every Banking Day in any week provided that in any case where such Dealing Day would fall on a day which is not a Banking Day such Dealing Day shall then be the next Banking Day following such day.

6. Subscription

Shares in the Sub-Fund may be subscribed for on any Dealing Day at the Net Asset Value plus, if applicable, a Sales Charge payable to the Global Distributor. Subscription requests must be sent in writing to the Administrative Agent.

Subscription requests must be received by the Administrative Agent by no later than 12:00 p.m. (noon) (Luxembourg time) on the relevant Dealing Day.

Subscription requests received after this deadline shall be deemed to be received on the next Banking Day and will take effect on the next Dealing Day.

Settlement of subscription proceeds needs to be received two (2) Banking Days after the relevant Dealing Day.

The Minimum Initial Subscription Amount and the Minimum Subsequent Subscription Amount for each Share Class is shown in the table "Summary of Shares" below.

The Board of Directors may in its discretion refuse to accept new subscriptions in the Sub-Fund for a certain period of time if it determines, upon consultation with the Investment Manager, that there is no capacity in the strategy adopted by the Sub-Fund to accept further subscriptions. To the extent that, at a later date, the Board of Directors determines, upon consultation with the Investment Manager, that there is additional capacity in the strategy of the Sub-Fund to accept new subscriptions, the Board of Directors may in its discretion resolve that the Sub-Fund accepts new subscriptions.

7. Redemption

The Minimum Redemption Amount for each Share Class is shown in the table "Summary of Shares" below.

Shares in this Sub-Fund may be redeemed on any Dealing Day. Redemption requests must be sent in writing to the Administrative Agent.

Redemption requests must be received by the Administrative Agent by no later than 12:00 p.m. (noon) (Luxembourg time) on the relevant Dealing Day.

Redemption requests received after this deadline shall be deemed to be received on the next Banking Day following the day of receipt and will take effect on the next applicable Dealing Day.

Payment of redemption proceeds will be made within two (2) Banking Days following the relevant Dealing Day.

8. Conversion

The Shareholders in this Sub-Fund are entitled to convert all or part of their Shares into Shares

of another Sub-Fund that is managed by the same Investment Manager of this Sub-Fund.

9. Fees and Expenses

The amount of Fees listed below may vary on a per Share Class basis as specified in the table "Summary of Shares" below; the fees will be payable out of the assets of the Sub-Fund.

The Sub-Fund will pay

- (i) to the Administrative Agent an Administrative Agent Fee (as specified in the table "Summary of Shares" below) equal to (i) a fixed annual fee plus (ii) a percentage of the Net Asset Value of the Sub-Fund (after charging all fees and expenses in the Sub-Fund, but before charging the Administration Agent Fee, the Total Management Company Fee, the Investment Management Fee and the Performance Fee) calculated upon each Valuation Day and payable monthly in arrears. In addition, the Administrative Agent is entitled to be reimbursed by the Sub-Fund for its reasonable out-of-pocket expenses and disbursements and for the charges of any correspondents;
- (ii) to the Investment Manager Investment Management Services Fees, consisting of i) the Investment Management Fee and ii) the research fee, (as specified in the table "Summary of Shares" below) based on the Net Asset Value of the Sub-Fund (after charging all fees and expenses in the Sub-Fund, but before charging the Total Management Company Fee, the Investment Management Services Fees and the Performance Fee) and calculated upon each Valuation Day. The Investment Management Fee is payable by the Sub-Fund monthly, whereas the research fee is payable quarterly;
- (iii) to the Investment Manager a Performance Fee (as specified in the table "Summary of Shares" below and in accordance with the principles outlined in Schedule 1 "Calculation of Performance Fees"). As from the 30 September 2017 the benchmark return, used for the calculation of the performance fee, will be reset to zero at each calculation period (as specified at the point 2.4.of Schedule 1);
- (iv) to the Management Company a Total Management Company Fee equal to a percentage (as specified in Section 15 in the general part of the Prospectus) of the Net Asset Value of the Sub-Fund (after charging all fees and expenses in the Sub-Fund, but before charging the Total Management Company Fee and the Performance Fee) calculated upon each Valuation Day and payable monthly in arrears. In addition, the Sub-Fund will pay to the Management Company a fixed fee of maximum EUR 10,000 per annum in connection with the risk management and compliance monitoring. Furthermore the Management Company is entitled to be reimbursed out of the assets of the Sub-Fund for its reasonable out-of-pocket expenses and disbursements;

For the avoidance of any doubt, the Depositary Fee for this Sub-Fund will be paid by the Management Company out of the Management Company Fee.

10. Investment Manager

Sissener AS has been appointed as Investment Manager of the Sub-Fund.

The Investment Manager was established in 2007 under the name of Saga Capital AS with a

licence as securities undertaking permitted to provide investment services, active management and investment consultancy relating to financial instruments to third parties under the supervision of the Financial Supervisory Authority of Norway (*Finanstilsynet*). The Investment Manager has changed its name from Saga Capital AS to Sissener AS in 2009.

The Investment Manager is a public limited liability company having its registered office at Haakons Vlls Gate 1, N-0161 Oslo, Norway.

The Investment Manager (and/or its members, employees, related entities and connected persons) may subscribe for Shares in the Sub-Fund from time to time.

11. Administrative Agent

European Fund Administration S.A. has been appointed as Administrative Agent of the Sub-Fund.

12. Global Distributor

FundRock Management Company S.A. has been appointed as Global Distributor of the Sub-Fund.

13. Shares

The Sub-Fund will issue Shares of the following Classes:

NOK-I (acc), SEK-I (acc), EUR-I (acc), USD-I (acc), CHF-I (acc) – which will be available only to Institutional Investors and denominated in Norwegian Krone, Swedish Krona, Euro, US Dollars and Swiss Francs respectively. The Shares are non-distributing (i.e. are not expected to pay dividends).

NOK-R (acc), SEK-R (acc), EUR-R (acc), CHF-R (acc) – which will be available only to retail investors and denominated in Norwegian Krone, Swedish Krona, Euro and Swiss Francs respectively. The Shares are non-distributing (i.e. are not expected to pay dividends).

NOK-RL (acc) – which will be available only to retail investors investing a larger amount of money and denominated in Norwegian Krone. The Shares are non-distributing (i.e. are not expected to pay dividends).

At the time of this Prospectus, only Class NOK-I (acc), NOK-RL (acc) and NOK-R (acc) Shares are available for subscriptions. Class SEK-I (acc), EUR-I (acc), USD-I (acc), CHF-I (acc), SEK-R (acc), EUR-R (acc), and CHF-R (acc) Shares will be launched at a later stage upon decision of the Board of Directors.

This Sub-Fund will issue Shares in registered form. Fractions of Shares will be issued up to 3 decimal places.

Title to registered Shares is evidenced by entries in the Company's Share register. Shareholders will receive confirmation notes of their shareholdings. In principle, registered Share certificates are not issued. However, at the request of a Shareholder, the Board may decide to issue Share certificates for registered Shares. The cost of issue will be borne by the Shareholder who has requested the certificate.

14. Dividend

Dividends will not be paid in respect of the Capitalisation Shares, as described in the table

"Summary of Shares" below.

15. Listing

The Share Classes of the Sub-Fund are not listed.

16. EU Benchmark Regulation

Regulation (EU) 2016/1011 (also known as the "EU Benchmark Regulation") requires the Management Company to produce and maintain robust written plans setting out the actions that it would take in the event that a benchmark (as defined by the EU Benchmark Regulation) materially changes or ceases to be provided. The Management Company shall comply with this obligation. Further information on the plan is available on request and free of charge at the registered office of the Management Company.

The benchmarks shown in the table below ("Summary of Shares") are used for the relevant Share Classes of the Sub-Fund for the purpose of the performance fee calculation.

The benchmarks "3 month USD LIBOR" and "3 month CHF LIBOR" are provided by ICE Benchmark Administration Limited, the benchmark administrator of these benchmarks, which is included in the register of administrators maintained by ESMA pursuant to Article 36 of the EU Benchmark Regulation.

The benchmarks "3 month NIBOR", "3 month STIBOR", "3 month EURIBOR" are provided by an administrator which is currently not included in the ESMA register of benchmark administrators.

However, the use of these benchmarks is permitted during the transitional period provided for in article 51 of the EU Benchmark Regulation. The Prospectus will be updated at the first opportunity once further information on the benchmark administrator's authorisation becomes available. The inclusion of any further administrator of a benchmark used by the Sub-Fund within the meaning of the EU Benchmark Regulation in the ESMA register of benchmark administrators will be reflected in the Prospectus at its next update.

Information for Investors in Switzerland

1) Qualified investors

The fund may only be offered in Switzerland to qualified investors within the meaning of Article 10 paragraphs 3 and 3ter CISA.

2) Representative in Switzerland

The representative is ACOLIN Fund Services AG, Leutschenbachstrasse 50, CH-8050 Zurich.

3) Paying agent in Switzerland

The paying agent is NPB Neue Privat Bank AG, Limmatquai 1/am Bellevue, P.O. Box, CH-8024 Zurich.

4) Location where the relevant documents may be obtained

The basic documents of the fund as well as the annual and, if applicable, semi-annual report may be obtained free of charge from the representative.

5) Payment of retrocessions and rebates

The fund company and its agents do not pay any retrocessions to third parties as remuneration for offering activities in respect of fund units in or from Switzerland.

In respect of offering in or from Switzerland, the fund company and its agents do not pay any rebates to reduce the fees or costs incurred by the investor and charged to the fund.

6) Share Classes offered in Switzerland or from Switzerland

Only the share Class NOK-RL of the Sub-Fund SEB PRIME SOLUTIONS - SISSENER CANOPUS is intended for offering in Switzerland or from Switzerland.

7) Place of performance and jurisdiction

In respect of the units offered in and from Switzerland, the place of performance and jurisdiction is at the registered office of the representative.

8) State of origin

The state of the origin of the fund is Luxembourg.
