SKAGEN Focus Lux (the "Sub-Fund"): Share Class H Euro Acc
a sub-fund of Storebrand SICAV ("the "Company")

ISIN: LU1932705731

The management company is FundRock Management Company S.A.

Objectives and Investment Policy

The Sub-Fund's objective is to provide its shareholders with the best possible long-term risk adjusted return, through an actively managed portfolio of global shares.

The Sub-Fund deploys an ESG integration strategy to support the investment mandate. The product is therefore categorized as Article 8 as per the Sustainable Finance Disclosure Regulation. For more information, please consult the annex to the Company's prospectus or refer to the disclosures on our webpages: <https://www.skagenfunds.lu/about-us/sustainable-investing/sustainablefunds>.

The Sub-Fund is an actively managed fund with a global investment mandate. The Sub-Fund's strategy is to find undervalued companies with a contrarian based investment approach, in combination with identification of clear catalysts for re-valuation with an average 2-3 year investment horizon. Positions in the Sub-Fund are established on the basis of fundamental company analysis. The Sub-Fund seeks to invest in a portfolio composed of a majority of small and medium-sized companies. In order to diversify risk exposures, the Sub-Fund seeks to invest in a sensible composition of companies by identifying fundamental risk factors and which are measured, monitored and balanced against each other.

The Sub-Fund may invest up to 10 percent of its assets in other funds. The Sub-Fund does not invest in derivatives at present.

The Sub-Fund's benchmark index is the MSCI ACWI Net Total Return EUR Index. The Sub-Fund is actively managed in reference to its benchmark index, which is used for performance comparison purposes and for the purpose of calculating the performance fee payable to the Investment Manager.

The benchmark is chosen to represent the investable universe for the Sub-Fund. The weightings of securities held in the Sub-Fund will typically deviate significantly from benchmark weightings. In addition, the investment manager can take large positions in securities which are not in the benchmark if they identify a specific investment opportunity. This will result in the Sub-Fund having a high tracking error (typically over 4%).

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within five years.

Dividends that the Sub-Fund receives are automatically reinvested in the Sub-Fund and are thus part of the share value.

Investors may redeem their shares on demand.

Subscription and redemption of shares can be carried out on all Luxembourg banking days. Orders received by 1 p.m. (Luxembourg time) on these days will be processed the same day.
