### What is this product?

**Type** This product is a UCITS.

#### Term

The sub-fund has no termination date. However the Management Company may, at its discretion, decide to terminate or merge the sub-fund or its share classes.

#### Objectives

The sub-fund's objective is to provide its Shareholders with longterm capital growth, through a portfolio of global equities, including emerging markets. The sub-fund is fossil free and targets investments in companies contributing to achieving the 17 United Nations Sustainable Development Goals ("SDGs").

The sub-fund is actively managed and will seek to create return beyond the market return.

The sub-fund invests in companies that are expected to contribute to achieving the SDGs. The SDGs are the blueprint to achieve a better and more sustainable future for all. They address the global challenges we face, including those related to poverty, inequality, climate, environmental degradation, prosperity, and peace and iustice.

The sub-fund seeks to invest in companies that provide solutions to these global challenges, primarily through the products and services they provide to the market, and stand to benefit from the identified trends within the SDGs. The sub-fund refrains from investing in companies whose main business is the production and/or distribution of fossil fuels.

Dividends and other income that the sub-fund receives will be reinvested in the sub-fund.

The sub-fund has a sustainable investment objective as per Article 9 of EU Sustainable Finance Disclosure Regulation (SFDR). Further information is available in the prospectus and at www.storebrandfunds.com.

Benchmark index: The MSCI All Country World Index (ACWI).

#### Intended retail investor

Non-professional (retail) clients through intermediaries only, Professional clients and eligible Counterparties. Clients with basic capital markets knowledge or experience (about sub-funds' characteristics and risks). Suitable to Clients who can bear no capital guarantee. Due to the volatility of the equity market the product has a SRI score of 4 and is therefore compatible with Clients need to have a medium risk tolerance. The Clients should be willing to accept a medium risk of price fluctuations in exchange for the opportunity of possible higher returns. The sub-fund is suitable for clients who seek capital growth and have an investment horizon of at least 5 years. This sub-fund is deemed incompatible for clients who; cannot bear capital losses or cannot bear limited capital losses.

Subscription and redemption of units can be carried out on all Luxembourg banking days. Orders received by 1 p.m. (Luxembourg time) on these days will be processed the same day.

The fund's Depositary is Northern Trust Global Services SE, 10 rue du Château d'Eau, L-3364 Leudelange

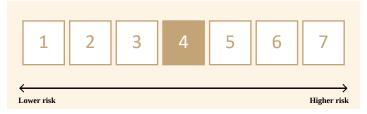

Grand Duchy of Luxembourg.

The Benchmark is chosen to represent the investable universe for the sub-fund. The weightings of securities held in the sub-fund will typically deviate significantly from Benchmark weightings. In addition, the Investment Manager can take large positions in securities which are not in the Benchmark if they identify a specific investment opportunity. This will result in the sub-fund having a high tracking error (typically over 4%).

### What are the risks and what could I get in return?

#### **Risk Indicator**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

This risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you might get back less

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level.

Other risks materially relevant to the PRIIP not included in the summary risk indicator: Event risk, liquidity risk, operational risk, counterparty risk, derivatives risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

#### Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

## What happens if Storebrand SICAV is unable to pay out?

The assets of the sub-fund are held in safekeeping by its depositary. In the event of our insolvency, the sub-fund's assets in the safekeeping of the depositary will not be affected. However, in the event of the insolvency of the depositary, or someone acting on its behalf, the sub-fund may suffer a financial loss. This loss will not be covered by any investor compensation or a guarantee scheme. However, this risk is mitigated to a certain extent by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the sub-fund. The depositary will also be liable to the sub-fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure to properly fulfil its obligations (subject to certain limitations).

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

-	EUR	10	000	is	invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	€160	€1 229
Annual cost impact (*)	1.6%	1.6% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.3 % before costs and 10.5 % after costs.

### Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.00% maximum of the amount you pay in when entering this investment. These costs are already included in the price you pay.	Up to €300
Exit costs	0.00% of your investment before it is paid out to you.	€0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.55% of the value of your investment per year. This is an estimate based on actual costs over the last year, or on expected costs if the fund/share class was recently launched.	€155
Transaction costs	0.02% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€2
Incidental costs taken under sp	ecific conditions	
Performance fees	0.00%	€0
