## What is this product?

### Type

This product is a UCITS.

### Term

The sub-fund has no termination date. However the Management Company may, at its discretion, decide to terminate or merge the sub-fund or its share classes.

### Objectives

The sub-fund's objective is to provide its Shareholders with long-term capital growth, through a model based portfolio of equities in global mature economies (developed markets). The sub-fund is fossil free and has additional ESG criteria and sustainability focus.

The sub-fund is actively managed and will seek to reproduce the risk and return profile of the benchmark, as closely as possible, given its ESG and sustainability properties.

The sub-fund seeks to invest in companies that have a high sustainability rating, and refrain from investing in companies with a low rating. The rating is based on an ESG risk rating supplied by a leading independent global provider. This rating is combined with an in-house analysis that ranks companies according to how sustainable their services and products are, and to what extent they operate in line with the UN's sustainability goals.

The sub-fund seeks to invest in companies with a low carbon footprint.

The sub-fund also refrains from investing in certain sectors, e.g. companies whose main business is the production and/or distribution of fossil fuels. Instead, the sub-fund may invest more than the sub-fund's benchmark in companies related to clean energy, energy efficiency, recycling and low-carbon transport.

Dividends and other income that the sub-fund receives will be

reinvested in the sub-fund.

The sub-fund promotes environmental and social characteristics as per Article 8 of the EU Sustainable Finance Disclosure Regulation (SFDR). Further information is available in the prospectus and at [www.storebrandfunds.com](http://www.storebrandfunds.com).

Benchmark index: The MSCI World Index.

### Intended retail investor

Non-professional (retail) clients through intermediaries only, Professional clients and eligible Counterparties. Clients with basic capital markets knowledge or experience (about sub-funds' characteristics and risks). Suitable to Clients who can bear no capital guarantee. Due to the volatility of the equity market the product has a SRI score of 4 and is therefore compatible with Clients need to have a medium risk tolerance. The Clients should be willing to accept a medium risk of price fluctuations in exchange for the opportunity of possible higher returns. The sub-fund is suitable for clients who seek capital growth and have an investment horizon of at least 5 years. This sub-fund is deemed incompatible for clients who; cannot bear capital losses or cannot bear limited capital losses.

Subscription and redemption of units can be carried out on all Luxembourg banking days. Orders received by 1 p.m. (Luxembourg time) on these days will be processed the same day.

The sub-fund's Depositary is Northern Trust Global Services SE, 10 rue du Château d'Eau, L-3364 Leudelange Grand Duchy of Luxembourg.

The Benchmark is chosen to represent the investable universe for the sub-fund. The weightings of securities held in the sub-fund will typically deviate somewhat from Benchmark weightings. In addition, the Investment Manager can take positions in securities which are not in the Benchmark if they identify a specific investment opportunity. This will result in the sub-fund having some tracking error (typically below 2%).

## What are the risks and what could I get in return?

### Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

This risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you might get back less.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level.

Other risks materially relevant to the PRIIP not included in the summary risk indicator: Event risk, liquidity risk, operational risk, counterparty risk, derivatives risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

### Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

<b>Recommended holding period:</b>		<b>5 years</b>	
<b>Example Investment:</b>		<b>£10 000</b>	
		<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b>
<b>Scenarios</b>

## What happens if Storebrand SICAV is unable to pay out?

The assets of the sub-fund are held in safekeeping by its Depositary. In the event of our insolvency, the sub-fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the insolvency of the depositary, or someone acting on its behalf, the sub-fund may suffer a financial loss. This loss will not be covered by any investor compensation or a guarantee scheme. However, this risk is mitigated to a certain extent by the fact that the Depositary is required by law and regulation to segregate its own assets from the assets of the sub-fund. The Depositary will also be liable to the sub-fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure to properly fulfil its obligations (subject to certain limitations).

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10 000 is invested.

	<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b>
Total costs	£43	£342
Annual cost impact (*)	0.4%	0.4% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.5 % before costs and 12.0 % after costs.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.00% <b>maximum of the amount you pay in when entering this investment. These costs are already included in the price you pay.</b>	Up to £300
Exit costs	0.00% <b>of your investment before it is paid out to you.</b>	£0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.41% <b>of the value of your investment per year. This is an estimate based on actual costs over the last year, or on expected costs if the fund/share class was recently launched.</b>	£41
Transaction costs	0.02% <b>of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.</b>	£2
Incidental costs taken under specific conditions		
Performance fees	0.00%	£0
