A sub-fund of Vontobel FCP-UCITS

ISIN: LU2264874418

*This fund is managed by FundRock Management Company S.A.*

## Objectives and Investment Policy

This actively managed sub-fund aims to achieve the highest possible capital growth.

The sub-fund mainly invests in equities, equity-like transferable securities or participation certificates issued by companies based in the US and Canada and/or which conduct the majority of their business in the US and Canada and/or are listed on the US and Canadian stock exchange ("US Equities" and "Canadian Equities"). The Sub-Fund may invest up to 33% of its assets in Canadian equities. The Sub-Fund may also hold cash on an ancillary basis.

The Sub-Fund pursues a "quality growth" investment style aimed at the preservation of capital, and invests primarily in securities of companies that have relatively high long-term earnings growth and above-average profitability.

The sub-fund may use forward exchange contracts for hedging purposes.

The portfolio manager can make investments for the sub-fund at his or her own discretion within the predefined investment limits.

The Fund meets the criteria in Article 6 of the Sustainable Finance Disclosure Regulation (Regulation EU/2019/2088) and accordingly the investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities. More information on Article 6 funds can be found in the Prospectus and on our website at [www.vontobel.com](http://www.vontobel.com).

Any income generated will be reinvested and included in the value of your shares.

The charges for buying and selling securities are paid by the sub-fund. They are payable in addition to the charges listed and reduce the sub-fund's return.

You can redeem shares in the sub-fund on any day on which the banks in Luxembourg and in the USA are open for normal business (i.e. excluding Saturdays, Sundays). Exceptions are days when exchanges or markets on which an essential part of the subfund's portfolio is traded are closed.

I shares are exclusively reserved for institutional investors.

## Risk and Reward Profile

The indicator above does not signal the risk of a potential loss, but indicates the fluctuations in the sub-fund's share price in the past.

When assigning a sub-fund's share class to a risk category, it may be the case that not all risks are taken into account. Such risks include risks in connection with exceptional market events, operational errors, legal and political events. You can find a detailed list of the risks in the "Notice regarding special risks" section in the general part of the sales prospectus. The following risks have no direct influence on this category, but may still be important:

As the sub-fund focuses on companies that are domiciled and/ or conduct the majority of their business in the US, it has a lower degree of risk diversification.

The sub-fund invests in stocks issued by companies. The value of these stocks may be adversely affected by changes in the company, its industry or its economic environment. Stocks can lose value quickly and typically involve higher risks than bonds and money market instruments.
