WHAT IS THIS PRODUCT?

Type : This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities (ICAV).
Term : This product has no maturity date. However, the Board of Directors may decide to close the product under certain circumstances.
Objectives : The investment objective of the Fund is to achieve capital growth over 5 years, investing globally in the shares of companies that provide solutions to sustainability challenges and falling within certain sustainable investment themes.
Policy:

- The Fund will invest its assets in shares in companies anywhere in the world identified by the investment manager as providing solutions to sustainability challenges. There is no predetermined focus on business sector or geography although concentrations may emerge through stock selection.
- Under normal circumstances, the Fund will hold cash on deposit up to 10% of the Net Asset Value of the Fund. The Fund may also invest in: - other transferable securities (such as shares, debentures, government and public securities and warrants), collective investment funds, money market instruments and near cash (which are non-cash assets that are highly liquid and easily converted to cash, such as savings accounts, certificates of deposit and treasury bills).
- The Fund may use financial derivative instruments (contracts where the value is linked to the expected future price movements of an underlying asset) for efficient portfolio management (to reduce costs and/or the overall risk of the Fund). This is in order to reduce the Fund's exposure to risk.
- The Fund will invest in companies that satisfy certain sustainable, environmental, social and Governance criteria ("ESG").
- For the purpose of providing comparable indicative returns only, investors should refer to the MSCI World Net Total Return (USD) Index (the "Index"), which is used by the Investment Manager as a comparator benchmark.
- The Sub-Fund launched on 4 December 2020. The Share Class launched on 4 December 2020.
- The currency of the Fund is USD, the currency of this product is CHF.
- Distribution Policy: If you hold accumulation shares, income from investments in the Fund will be rolled up into the capital assets of the Fund.

Intended retail investor : The Company is offered to investors who may have basic or no knowledge and experience of investing in financial markets and also experienced investors and is intended for long-term investment. Investors should understand the risks involved, including the risk of losing all capital invested and must evaluate the Company's objective and risks in terms of whether they are consistent with their own investment goals and risk tolerances.

Depository: Société Générale S.A., Dublin Branch.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Investors shall note that the product may be exposed to risks such as risk associated with investing in emerging markets, lack of liquidity, currency fluctuations, risk associated with investing in derivatives, counterparty risk. For further details of the Fund's risks please see the Prospectus which is available at <http://www.whebggroup.com/>.

This product does not include any protection from future market performance so you could lose some or all of your investment. If not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Favourable scenario: This type of scenario occurred for an investment/benchmark or proxy between April 2016 and April 2021

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

WHAT HAPPENS IF FUNDROCK MANAGEMENT COMPANY S.A. IS UNABLE TO PAY OUT ?

The Management Company is responsible for administration and management of the Fund, and does not typically hold assets of the Fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Management Company, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables below show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 GBP is invested.

Example Investment: 10,000 GBP	If you exit after 1 year	If you exit after 5 years (RHP)
Total costs	114 GBP	911 GBP
Annual cost impact(*)	1.14%	1.24%

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.60% before costs and 9.36% after costs.
